Welcome to the Texas Tech University Health Sciences Center (TTUHSC) School of Nursing. You have chosen to join a school whose faculty and staff are dedicated to your success. Our goal is to produce well-prepared nurses who make a positive difference in the health care arena.

From here, there are endless possibilities for your professional nursing career. Whether your goal is to complete a bachelor’s, master’s, or doctoral degree, our rich, diverse learning experiences and expert faculty will prepare you for the challenges ahead. Your educational journey will give you opportunities to contribute through practice, education, scholarship, and service.

We welcome you to the Texas Tech University Health Sciences Center School of Nursing and look forward to sharing this enriching experience with you.

The School of Nursing Catalog, an official publication of Texas Tech University Health Sciences Center (TTUHSC), contains policies, regulations, procedures, programs, courses, schedules and fees in effect when the Catalog is posted on the website. A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the program. Students readmitted to the TTUHSC School of Nursing are expected to complete the degree requirements set forth in the Catalog that is current at the time of readmission. Only with the specified approval of the appropriate Associate Dean/Department Chair may a different Catalog be selected. In no case, may a student complete the requirements set forth in a catalog more than seven years old. The Catalog is published at least annually and the provisions are applicable during the stated school year. Additional conditions of the curriculum and graduation are outlined in detail in the School of Nursing Student Handbook.

The provisions of the Catalog do not constitute a contract, expressed or implied, between any applicant or student and faculty member in the TTUHSC School of Nursing. The TTUHSC School of Nursing reserves the right to withdraw courses at any time, change fees, calendars, curricula, graduation procedures, and any other requirement affecting students. Changes become effective when the proper authorities determine the application to both prospective students and to the students already enrolled.

TTUHSC is open to all persons, regardless of race, color, religion, disability, gender identity, national origin, or sexual orientation, who are eligible for admission as students. TTUHSC is an Equal Opportunity Institution and no applicant or student will be discriminated against because of race, creed, religion, disability, gender, national origin, or sexual orientation during the course of education at this institution.

About TTUHSC

Mission
As a comprehensive health sciences center, our mission is to enrich the lives of others by educating students to become collaborative healthcare professionals, providing excellent patient care, and advancing knowledge through innovative research.

Vision
Texas Tech University Health Sciences Center will strengthen its national reputation as it seeks to promote healthier communities across West Texas and beyond.

TTUHSC Presidents
Grover Elmer Murray (1966-1976)
Maurice Cecil Mackey (1976-1979)
Lauro Fred Cavazos (1980-1988)
Robert Lawless (1988-1996)
David Smith (1996-2002)
Bernhard T. Mittemeyer -Interim (2006-2007)
John C. Baldwin, President (2007-2009)
Tedd Mitchell, President (2010-2019)
Lori Rice-Spearman, President (2019-present)

Brief History
The Texas Tech University School of Medicine was created by the 61st Texas Legislature in May, 1969 as a multi-campus institution with Lubbock as the administrative center, and with regional campuses at Amarillo, El Paso, and Odessa. In 1979, the charter was expanded to become the Texas Tech University Health Sciences Center (TTUHSC), leading the way for establishment of the School of Nursing, School of Health Professions, and the Graduate School of Biomedical Sciences. In 1993, the legislature authorized the establishment of a School of Pharmacy to be located in Amarillo. In addition, Health Professions programs were expanded to Amarillo and the Permian Basin. In 2003, the legislature authorized the establishment of a four-year medical school in El Paso, and in 2011, the Gayle Greve Hunt School of Nursing was established, also located in El Paso. On May 18, 2013, after 40 years of operating as a regional campus of TTUHSC’s School of Medicine, Governor Rick Perry signed Senate Bill 120, which established TTUHSC at El Paso as its own independent institution.

TTUHSC’s schools are committed to regionalized, multi-campus educational experiences, and to the related biomedical research, graduate studies, patient care and community service required of a health sciences center. A primary effort is made to achieve a balanced group of students with qualified minority students, diverse age groups, and heterogeneous backgrounds in educational and life experiences.

TTUHSC has as its major objectives the provision of quality education and development of academic, research, patient care, and community service programs to meet the health care needs of West Texas, which in total is comprised of 108 counties and represents 50% of Texas’ land mass and 11% of its total population. This 131,000 square mile service area and population of 2.7 million has been, and remains highly underserved by health professionals and accessible health care facilities, despite the substantial and meaningful contribution made by our institution. Demographic shifts in West Texas populations, as well as socioeconomic and
epidemiologic characteristics of its sub-groups, create major and specific demands for service. While education of students and residents remains the primary focus of the institution, there has been an important impact on the health status of West Texas. The lack of a single locus of population density has resulted in the regionalization of medical and health care education and patient care on multiple geographically separated campuses. In providing an excellent quality undergraduate, graduate, and continuing health professional education at each site, the health needs of the larger community have been better met and relevant indices of health status demonstrate significant improvement. To continue to provide excellent health care for the people of West Texas, a special effort is made to recruit applicants from West Texas and from rural and border communities. Students from these areas are more likely to service their home regions upon graduation, which ensures the long-term perpetuation of quality health care in West Texas and that the objectives of TTUHSC are continually met.

**TTUHSC Accreditation**

Texas Tech University Health Sciences Center is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, masters, doctoral, and professional degrees. Questions about the accreditation of Texas Tech University Health Sciences Center may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC’s website [www.sacscoc.org](http://www.sacscoc.org).

A member of the Texas Tech University System, TTUHSC has been accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) as a separate institution from Texas Tech University since 2004. TTUHSC received its last reaffirmation of accreditation from SACSCOC in 2019. TTUHSC will submit a Fifth-Year Interim Report in the spring of 2025.

**Diversity and Inclusion**

The TTUHSC School of Nursing promotes, supports and embraces diversity amount our students, faculty and staff as a foundational tenant to accomplishing the vision and mission of the School of Nursing. Therefore, the TTUHSC SON affirms and aligns with the TTUHSC Diversity Statement: The core foundational value of including the diverse cultures, lifestyles, personal beliefs and ideas of all those we serve - and serve alongside - provides a positive impact on the health of our regional, national, and global societies. As we pursue excellence in healthcare education, research, and patient care, we will be ever mindful of the strength gained through unity in diversity.

**About TTUHSC School of Nursing**

**Mission**

The School of Nursing’s mission is to educate students for practice in evolving healthcare systems and to advance knowledge and practice through research, service, and community engagement.

**Vision**

The School of Nursing’s vision is to shape healthcare of the future by advancing the profession, improving the health of others, and inspiring exceptional care.

**School of Nursing Deans**

Teddy Jones, RN, CS, PhD, FNP (1981-1991)

Alexia Green, RN, PhD, FAAN (2000-2010)
Chandice Covington, PhD, PHP(BC), RN, FAAN (Interim Dean 2010)
Yondell Masten, PhD, WHNP-BC, RNC-OB (Interim Dean 2010-2011)
Michael L. Evans, PhD, RN, NEA-BC, FACHE, FAAN (2012-present)

Brief History
The TTUHSC School of Nursing is the only nursing school on the South Plains that provides baccalaureate, masters, and doctoral education. Since its inception in 1979, the school has offered innovative educational programs to meet the needs of Texas residents. With an expanded selection of program options offered throughout Texas and beyond, the School of Nursing continues to help bolster the state’s nursing workforce by educating more than 1,400 students each year.

The first students were admitted to the Traditional Bachelor of Science in Nursing four-year degree on the Lubbock campus in August 1981. Four years later, RN to BSN students were admitted in the Permian Basin. The first students were admitted to the Master of Science in Nursing track in 1988. The Accelerated Second Degree BSN Program was launched in Austin and in Lubbock in 2005, and is now offered in Abilene, the Permian Basin, Amarillo, and Dallas-Ft. Worth area. In 2008, the inaugural cohort of doctoral students was admitted into the Doctor of Nursing Practice degree program, and in 2009, the Traditional BSN program was expanded to include Abilene and the Permian Basin. The Accelerated Veteran to BSN Program admitted its inaugural cohort in 2016 in Dallas, San Antonio and Amarillo. The BSN to DNP program admitted its inaugural cohort for family nurse practitioners and psychiatric mental health nurse practitioners in 2018.

The TTUHSC School of Nursing is known for innovation in nursing education, excellent student retention and graduation rates, above national average National Council Licensure Examination (NCLEX) scores, and producing well-prepared nurses for West Texas and beyond.

School of Nursing Accreditation
In November 1982, the undergraduate program received full approval from the Board of Nursing for the State of Texas and in December 1983, the National League for Nursing (NLN) granted initial accreditation, which was retroactive prior to the first graduation in June, 1983. The graduate program received initial accreditation in March 1992. Graduate and undergraduate degrees were accredited by NLN Accrediting Commission until 2005. From 2005, forward, the Traditional BSN, RN to BSN, Accelerated Second Degree BSN, and Master’s in Nursing (MSN) degrees were accredited by the Commission for Collegiate Nursing Education (CCNE). The Doctor of Nursing Practice (DNP) degree was accredited by CCNE in 2010. Traditional BSN, RN to BSN, Second Degree Accelerated BSN, Master's in Nursing, and Doctor of Nursing Practice degrees are accredited by CCNE, 655 K Street, NW, Suite 750, Washington, DC, 20001; (202) 887-6791; www.ccneaccreditation.org.

The Texas Tech University Health Sciences Center School of Nursing, Nurse Midwifery program, for master’s degree and post master certificate is accredited by the Accreditation Commission for Midwifery Education (ACME). For inquiries about accreditation, please contact ACME at 8403 Colesville Road Suite 1550 Silver Spring, MD 20910-6374, www.midwife.org/acme, email, acme@acnm.org.

In July 1980, the TTUHSC School of Nursing Continuing Education Program was first accredited by the Western Regional Accrediting Committee of the American Nurses’ Association as a provider of continuing education in nursing. The accreditation, now offered through the American Nurses Credentialing Center, remained in effect through 2012 when the department closed.

Academic Services
Clinical Services and Community Engagement
Because faculty within the School of Nursing may choose development of a clinical studies program, the School of Nursing maintains an active Clinical Studies Program. Faculty can participate in the delivery of care to residents of West Texas in many institutions and health care facilities.
The School of Nursing operates sites for direct access to services by community clients at the Larry Combest Community Health & Wellness Center in Lubbock. The Larry Combest Community Health & Wellness Center staff and faculty serve medically-underserved populations by providing primary care services to clients over the life span. The Larry Combest Community Health & Wellness Center, a Federally Qualified Health Care nurse managed center provides essential health care access points for residents of the community unable to obtain the needed services for health promotion and disease prevention. The Larry Combest Community Health & Wellness Center is supported by funding from the School of Nursing, federal grants, and reimbursements from third party payers.

Research
Faculty within the School of Nursing also have the choice of developing a research program. The School of Nursing has designed the research program to provide assistance and support for faculty in promoting research interests and developing proposals for funding and implementation of research projects. Current research initiatives focus on improvement of the health of diverse populations through collaborating efforts and providing opportunities for all nursing students to be actively involved in faculty research projects.

Outcomes Management and Evaluation
The School of Nursing bases the outcomes management and evaluation focus on the concept of continuous quality improvement, supported by the Texas Tech University System. Data are collected each semester, semi-annually and/or annually for decision-making and documentation of the School of Nursing achievement of the goals of the Strategic Plan. Students participate in decision-making and documentation of Strategic Plan goal achievement by providing valuable data via completion of assessment tools and by serving as representatives on School of Nursing councils and task forces.

Departments

Undergraduate Departments
The Undergraduate Departments consist of the Traditional BSN Undergraduate Department offering the BSN degree through the Traditional BSN Program, and the Non-Traditional BSN Undergraduate Department offering the BSN degree through the RN to BSN Program and Accelerated BSN Program.

Purpose
The purpose of the Undergraduate Departments is to provide educational and experiential learning opportunities in liberal arts, natural and behavioral sciences, humanities, and nursing arts and sciences, for students desiring to practice professional nursing.

Student Learning Outcomes
Upon degree program completion, graduates will be able to:

- Provide person-centered care for individuals, families, and communities.
- Work as an effective member of interprofessional teams to ensure continuous and safe patient care.
- Employ evidence-based practice (EBP) by integrating current research with clinical expertise and patient values to provide optimal patient care.
- Apply quality improvement measures to continually improve health outcomes consistent with current professional knowledge.
- Utilize informatics to enhance patient safety, manage knowledge and information, make decisions, and communicate more effectively.
- Provide safe care to individuals, families, and communities through individual performance and system effectiveness.

Graduate Department
The School of Nursing Graduate Department offers the Master of Science in Nursing (MSN) Program and the Doctor of Nursing
Practice (DNP) Program. The MSN program has the following tracks: Nursing Administration, Nursing Education, Nursing Informatics, Family Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, Acute Care Pediatric Nurse Practitioner, Adult-Gerontology Acute Care Nurse Practitioner, Psychiatric-Mental Health Nurse Practitioner and Nurse Midwifery. The DNP Program offers the following tracks: Post-Master’s DNP for Advanced Practice Nursing, BSN to DNP for Family Nurse Practitioner, BSN to DNP for Psychiatric Mental Health Nursing.

The School of Nursing also offers a Post-Graduate certificate in the following role and population-based focus tracks: Family Nurse Practitioner, Adult-Gerontology Acute Care Nurse Practitioner, Psychiatric-Mental Health Nurse Practitioner, Nurse Midwifery, Nursing Education and Nursing Informatics.

Student Learning Outcomes-MSN

Upon degree program completion, graduates will be able to:

- Provide person-centered care for individuals, families, and communities.
- Work as an effective member of interprofessional teams to ensure continuous and safe patient care.
- Employ evidence-based practice (EBP) by integrating current research with clinical expertise and patient values to provide optimal patient care.
- Apply quality improvement measures to continually improve health outcomes consistent with current professional knowledge.
- Utilize informatics to enhance patient safety, manage knowledge and information, make decisions, and communicate more effectively.
- Provide safe care to individuals, families, and communities through individual performance and system effectiveness.

Student Learning Outcomes-DNP

Upon degree program completion, the graduate will be prepared to:

- Integrate nursing science with knowledge from ethics, biophysical, psychosocial, analytical, and organizational sciences to foster a culture of health and transform clinical practice and health care delivery systems.
- Develop and operationalize effective, culturally relevant, and evidence-based clinical practice approaches that meet current and future needs of patient populations.
- Design and implement evidence-based strategies to analyze and improve outcomes of care at the practice, system, or population levels.
- Apply, use, and evaluate health care information systems, information literacy and patient care technology to advance quality, patient safety, and organizational effectiveness.
- Facilitate interprofessional team building and collaborative leadership skills to create positive change and improve outcomes in complex health care systems.
- Exercise leadership skills to analyze, develop, influence, and implement health policies that advocate social justice, equity, and ethics within all health care arenas.
- Analyze epidemiological, biostatistical, environmental, and other appropriate scientific data to develop culturally relevant and scientifically based health promotion and disease prevention initiatives.
- Employ advanced leadership skills, systems thinking, and accountability to design, deliver, and evaluate evidence-based management practices to improve patient, population and health system outcomes (Executive Leadership track).
- Employ advanced practice levels of clinical judgment, systems thinking, and accountability to design, deliver, and evaluate evidence-based care to improve patient and population outcomes (Advanced Practice Nursing Track).

Student Learning Outcomes-BSN-DNP

Upon program completion, the graduate will be prepared to:

- Demonstrate proficiency in assessment, diagnostic reasoning and person-centered care in individuals, populations, and systems in urban and rural communities.
- Implement theory, science-driven knowledge and evaluation of person-centered care to support excellence in clinical practice.
- Appraise, evaluate, and apply data analytics and health care technologies to manage, support, and improve the delivery of safe, high quality, and efficient health care.
- Lead quality improvement initiatives that enhance person-centered care and population health through cost effective, efficient, equitable, and culturally relevant evidence-based strategies.
- Develop leadership skills to analyze and influence health policy affecting the public’s health and care decisions, while advocating for social justice, inclusivity, equity, and ethics in healthcare.
- Engage personal and professional growth through self-reflection, cultivation of resilience and holistic well-being through lifelong learning.

- Engage in personal, professional, and leadership development through scholarship, collaboration, organizational involvement and interprofessional partnerships.

Eligibility Requirements

Core Curriculum

Given the rapid evolution of necessary knowledge and skills and the need to take into account global, national, state, and local cultures, the core curriculum for institutions of higher education in the State of Texas must ensure students develop the essential knowledge and skills needed for success in college, career, and individual communities, and in life. The Texas Higher Education Coordinating Board has approved a 42 semester credit hour core curriculum for all undergraduate students in Texas. The TTUHSC School of Nursing will ensure the students transferring into the baccalaureate nursing programs have completely met the core competencies of the 42 semester credit hour curriculum. Objectives for the core curriculum competencies include the following:

- **Critical Thinking Skills** – includes creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- **Communication Skills** – includes effective written, oral, and visual communication.
- **Empirical and Quantitative Skills** – includes the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- **Teamwork** – includes the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- **Personal Responsibility** – includes the ability to connect choices, actions, and consequences to ethical decision-making.
- **Social Responsibility** – includes intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Core Curriculum Requirements

Students who will be earning a baccalaureate degree from Texas Tech University Health Sciences Center (TTUHSC) MUST satisfy the coursework requirements of the TTUHSC Core Curriculum. The curriculum complies with the 1997 Texas legislation that required each state-supported institution to establish a core curriculum that encompasses components of natural and applied sciences, social sciences, mathematics, humanities, visual and performing arts and tools of language and thoughts.

These courses or their equivalents for a total of 42 semester credit hours may be taken at any regionally accredited college or university and should be completed with a grade of "C" or higher BEFORE enrolling at TTUHSC. IF a student successfully completes a core curriculum of 42 or more semester credit hours at another accredited public institution of higher education in Texas, and the core curriculum meets the following specified "component area" requirements, the block of courses may be transferred to TTUHSC and substituted for the core curriculum shown below. The student will not be required to take any additional core curriculum courses.

The State of Texas has specified the following component area requirements as found in the following table.

<table>
<thead>
<tr>
<th>CORE CURRICULUM REQUIREMENTS</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication (English Rhetoric/Composition) (010)</td>
<td>6 credit hours</td>
</tr>
<tr>
<td>Mathematics (020)</td>
<td>3 credit hours</td>
</tr>
<tr>
<td>Life and Physical Sciences (030)</td>
<td>6 credit hours</td>
</tr>
<tr>
<td>Language, Philosophy, and Culture (040)</td>
<td>3 credit hours</td>
</tr>
<tr>
<td>Creative Arts (050)</td>
<td>3 credit hours</td>
</tr>
<tr>
<td>American History (060)</td>
<td>6 credit hours</td>
</tr>
<tr>
<td>Government/Political Science (070)</td>
<td>6 credit hours</td>
</tr>
<tr>
<td>Social and Behavioral Sciences (080)</td>
<td>3 credit hours</td>
</tr>
</tbody>
</table>
**Criminal Background Check (CBC)**

A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC School of Nursing in compliance with TTUHSC OP 10.20 and SON OP 60.081. Each student is responsible for the cost of his/her CBC and any additional fees.

All applicants, once offered provisional admission, must complete a criminal background check before being allowed to matriculate. Those who do not complete a criminal background check are ineligible for progress in the nursing program. A history of criminal conduct or convictions may result in withdrawal of the admission offer. The TTUHSC SON utilizes the Texas Board of Nursing (BON) criminal background check process for all pre-licensure students. For RN-BSN, MSN and DNP students, the students will be required to use the institutionally approved vendor to process these background checks. Only those individuals with a BON Blue Card, a BON Declaratory Order with No Stipulations and approval from the Associate Dean of Student Affairs will be allowed to matriculate into the program.

In accordance with TTUHSC OP 10.20, students in the School of Nursing shall self-disclose relevant criminal history record information no later than five (5) business days following the charge of a crime. Failure to self-disclose may result in dismissal or withdrawal of acceptance from the university.

Additional background checks are required after a break in enrollment in accordance with TTUHSC OP 10.20.

If an applicant believes the record is in error and gives written notification to the School of the intent to challenge the report, matriculation will be put on hold pending the outcome of the challenge. Should the applicant fail to notify the School of the intent to challenge or the record is determined to be accurate at the conclusion of a vendor challenge by an applicant; the admission offer will be withdrawn.

**Drug Screening**

Drug screenings may be required if requested by the clinical institution site. If a student is requested to complete a required drug screening, this request must be completed within three days of receipt of notification. All results are confidential and are managed by the Office of Student Affairs. The cost of all drug screens are the responsibility of the student, including any additional screenings.

**General Education Competencies**

At Texas Tech University Health Sciences Center, we expect students to enter the institution with a foundation in certain basic intellectual competencies. These include critical thinking skills, communication skills, empirical/quantitative skills, teamwork, personal responsibility, and social responsibility. Through our undergraduate programs, we seek to build upon the existing foundation in order to enhance these basic competencies. TTUHSC uses a variety of methods to measure student progress in developing the desired competencies, including the ETS-Proficiency Profile. We will use the results from this instrument to identify the strengths and weaknesses of different student subgroups. The results will be used to make ongoing improvements to our undergraduate degree programs.

**Government-Issued Identification**

Government-issued identification (e.g., driver’s license, identification card, passport) is required for admission and matriculation through completion of the School of Nursing degree program. There is no additional charge for review and verification of student government-issued identification. See SON OP 60.078.
Immunization Requirements

Students are expected to maintain a general state of good health. Failure to maintain documentation of immunization requirements in the appropriate departmental office can result in exclusion from clinical practice and a hold being placed on school records. The below information must be on file for a complete immunization record while enrolled in the School of Nursing.

Students should contact the Immunization Coordinator in the Office of Institutional Health/TTUHSC Infection Control for the most up-to-date information on obtaining immunizations by calling (806) 743-2264.

### IMMUNIZATION REQUIREMENTS

<table>
<thead>
<tr>
<th>Vaccine</th>
<th>When Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hepatitis B series (Hep B)</td>
<td>At the beginning of the initial semester of enrollment to be completed within 6 months, or a titer showing immunity is required.</td>
</tr>
<tr>
<td>Measles, Mumps, Rubella vaccine/titer (MMR)</td>
<td>At the beginning of the initial semester of enrollment, with doses of vaccine or titers showing immunity are required. (Note: Women who need MMR must make an appointment with a health professional to verify pregnancy status before receiving MMR.)</td>
</tr>
<tr>
<td>Meningococcal (MCV)</td>
<td>At the beginning of the initial semester of enrollment. Adults 22 years of age or younger within the last five years.</td>
</tr>
<tr>
<td>Tuberculosis (TB)</td>
<td>At the beginning of the initial semester of enrollment and annually thereafter. If you have not had a TB test within the last 12 months you must have a 2 step skin test with a minimum of 7 days between the 2 readings.</td>
</tr>
<tr>
<td>Tetanus/Diphtheria (Td)</td>
<td>At the beginning of the initial semester of enrollment. (Booster required every 10 years.)</td>
</tr>
<tr>
<td>Tetanus, Diphtheria and Acellular Pertussis (Tdap)</td>
<td>At the beginning of the initial semester of enrollment. (Adult - one time dose.)</td>
</tr>
<tr>
<td>Influenza (Flu)</td>
<td>Required during flu season annually.</td>
</tr>
<tr>
<td>Varicella (Chicken Pox)</td>
<td>At the beginning of the initial semester of enrollment – two (2) doses of vaccine or titer showing immunity are required. (TTUHSC does not accept history of the disease.)</td>
</tr>
</tbody>
</table>

Keep personal immunization records in a safe place; immunization records are required for all healthcare workers employed in the healthcare industry. All copies of Personal Immunization Records provided to the School of Nursing become the property of the School of Nursing. Never supply the School of Nursing with original documents. There may be a fee charged to receive a copy of the immunization records from School of Nursing files. Other specialty-related immunizations or testing may be recommended to a student or may be required by a clinical agency. All students are expected to personally maintain immunization requirements; this maintenance should be documented in the appropriate departmental office for every semester the student is enrolled at TTUHSC – NO notification will be sent.

### International Applicants

International applicants should refer to the School of Nursing's website for current requirements for admission [https://www.ttuhsc.edu/nursing/student-affairs/international-applicants.aspx](https://www.ttuhsc.edu/nursing/student-affairs/international-applicants.aspx).
NCLEX-RN Examination Eligibility

The Texas Board of Nursing (BON) has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. If there is a potential to be denied licensure, students should complete the Petition of Declaratory Order during the first semester of nursing school.

The Petition for Declaratory Order (https://www.bon.texas.gov/forms_declaratory_order.asp.html) is a formal disclosure to the BON of an outstanding eligibility issue that may prevent an applicant from taking the NCLEX examination. The Declaratory Order permits the BON to make decisions regarding a petitioner’s eligibility for licensure prior to entering or completing a nursing program. The petition should be completed as soon as possible. The review process can take a minimum of three (3) months but could be longer depending on the issue and volume of applications. Students who have obtained a Declaratory Order Petition must notify and inform the Traditional or Non-Traditional Undergraduate Associate Dean/Department Chair of the outcome of the petition. If a student answers yes to one of the following questions, a Petition for Declaratory Order must be completed.

For any criminal offense, including those pending appeal, have you:

- Been convicted of a misdemeanor?
- Been convicted of a felony?
- Pled nolo contendere, no contest, or guilty?
- Received deferred adjudication?
- Been placed on community supervision or court-ordered probation, whether or not adjudicated guilty?
- Been sentenced to serve jail or prison time? court-ordered confinement?
- Been granted pre-trial diversion?
- Been arrested or have any pending criminal charges?
- Been cited or charged with any violation of the law?
- Been subject of a court-martial; Article 15 violation; or received any form of military judgment/ punishment/action?

(You may only exclude Class C misdemeanor traffic violations.)

- Are you currently the target or subject of a grand jury or governmental agency investigation?
- Has any licensing authority refused to issue you a license or ever revoked, annulled, cancelled, accepted surrender of, suspended, placed on probation, refused to renew a license, certificate or multi-state privilege held by you now or previously, or ever fined, censured, reprimanded or otherwise disciplined you?
- Within the past five (5) years, have you been addicted to and/or treated for the use of alcohol or any other drug?
- Within the past five (5) years have you been diagnosed with, treated, or hospitalized for schizophrenia and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder?

*Pursuant to Occupations Code §301.207, information regarding a person’s diagnosis or treatment for a physical condition, mental condition, or chemical dependency is confidential to the same extent the information collected as part of an investigation is confidential under the Occupations Code §301.466. You may indicate “NO” if you have completed and/or are in compliance with Texas Peer Assistance Program for Nurses (TPAPN) for substance abuse or mental illness.

NOTE: Expunged and Sealed Offenses:
While expunged or sealed offenses, arrests, tickets, or citations need not be disclosed, you are responsible for ensuring the offense, arrest, ticket or citation has, in fact, been expunged or sealed. Submission of a copy of the Court Order expunging or sealing the record in question to the Texas Board of Nursing is recommended. Failure to reveal an offense, arrest, ticket, or citation that is not in fact expunged or sealed, will at a minimum, subject your license to a disciplinary fine. Non-disclosure of relevant offenses raises questions related to truthfulness and character.

NOTE: Orders of Non-Disclosure:
Pursuant to Texas Government Code § 552.142(b), if you have criminal matters subject to an order of non-disclosure, you are not required to reveal those criminal matters on the declaratory order form. However, a criminal matter subject to an order of non-disclosure may become a character and fitness issue. Pursuant to other sections of the Government Code Chapter 411, the Texas Board of Nursing is entitled to access criminal history record information subject to an order of non-disclosure, even if you properly
did not reveal the matter, the Board may require you to provide information about any conduct that raises issues of character.

Statues and Rules governing the Petition for Declaratory Order may be found in the Texas Occupations Code §§ 301.257, 301.452-304.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Nurse Education, Licensure and Practice, Texas Administrative Code (TAC) Title 22 Examining Boards §§ 213.27-30 and §§ 217.11-12. These statutes and rules can be located on the BON’s website www.bon.state.tx.us.

The Nurse Practice Act (http://www.bon.texas.gov/nursinglaw/npa.html) was amended during the 2005 Texas legislative session, adding Texas Occupations Code § 301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse or withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Texas Board of Nursing may consider eligibility for licensure of an applicant, after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child, an elderly or disabled person; perpetrator of family violence, an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convictions for similar crimes in a military tribunal.

**Technical Standards for the School of Nursing**

Physical, cognitive, psychomotor, affective and social abilities are required in unique combinations to provide safe and effective nursing care. In order to be admitted and to progress in the nursing program, one must possess a functional level of ability to perform the duties required of a nurse. The applicant/student must be able to meet the essential functions with or without reasonable accommodation’s throughout the program of learning. Admission, progression and graduation are contingent upon one’s ability to demonstrate the essential functions as identified by the school or additional essential functions as may be identified by affiliated clinical agencies. The TTUHSC School of Nursing reserves the right to amend the essential functions as deemed necessary.

Each student/applicant should use the following standards for participation in the School of Nursing to assist in determining the necessity of accommodation or modifications.

<table>
<thead>
<tr>
<th>MOTOR SKILLS</th>
<th>Specific Requirements:</th>
</tr>
</thead>
<tbody>
<tr>
<td>The student should have sufficient motor functions such that they are able to execute movements required to provide general care and treatment to patients in all health care settings.</td>
<td>Students should have sufficient motor function to elicit information from patients by palpitation, auscultation, percussion, and other assessment techniques. Such actions require coordination of both gross and fine muscular movements, equilibrium and functional uses of the senses of touch, vision and hearing. The student must be able to perform basic life support (including CPR), transfer and position patients, and position and re-position self around patients. The student must also be able to operate equipment typically found in the health care environment (IV pumps, cardiac monitor, and electric and manual blood pressure equipment, safe patient handling equipment, etc.).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>SENSORY/OBSERVATION:</th>
<th>Specific Requirements:</th>
</tr>
</thead>
<tbody>
<tr>
<td>The student must be able to acquire information presented through demonstration and experience in the basic and nursing sciences.</td>
<td>The student must be able to observe the patient accurately, at a distance and close at hand, and observe non-verbal communications when performing nursing assessments and interventions or administering medications. The student must be capable of perceiving the signs of disease and infection as manifested through physical examination. Such information may be derived from visual inspection and images of the body surfaces, palpable changes in various organs and tissues, and auditory information (patient voice, heart tones, bowel and lung sounds, etc.)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>COMMUNICATION:</th>
<th>Specific Requirements:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
The student must have the ability to communicate effectively and sensitively with other students, faculty, staff, patients, family and other professionals.

The student must be able to express his or her ideas and feelings clearly and demonstrate a willingness and ability to give and receive feedback. The student must be able to convey or exchange information at a proficiency level to obtain a health history, identify problems presented, explain alternative solutions, and give directions during treatment and post-treatment. The student must be able to effectively communicate in English through verbal, written and electronic formats with the ability to retrieve information from various sources of literature and computerized databases. The student must be able to communicate verbally in English in classroom presentations, seminars, simulation, practicum sites, practicum conferences, and on-line formats. The student must be able to process and communicate information on the patient's status with accuracy in a timely manner to members of the health care team. The appropriate communication may also rely on the student's ability to make a correct judgment seeking supervision and consultation in a timely manner.

COGNITIVE:
The student must be able to measure, calculate, reason, prioritize, analyze, integrate, synthesize information and act with integrity and judgment (ability to manage impulsivity).
The student must have the ability to sustain attention and memory to maintain patient safety.

Specific Requirements:
The student must be able to read and comprehend extensive written materials. The student must also be able to evaluate and apply information and engage in critical thinking in the classroom, lab and clinical setting within the time constraints unique to each setting.

BEHAVIORAL/EMOTIONAL:
The student must possess the emotional health required for the utilization of their intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the nursing care of patients and families.

Specific Requirements:
The student must be able to maintain mature, sensitive, and effective relationships with patients, students, faculty, staff and other professionals under all circumstances, including highly stressful situations. They must have the emotional stability to function effectively under stress and to adapt to an environment that may change rapidly without warning and/or in unpredictable ways. The student must be able to experience empathy for the situations and circumstances of others and effectively communicate that empathy. They must know how their own values, attitudes, beliefs, emotions, and experiences affect their perceptions and relationships with others. The student must be able and willing to examine their behavior when it interferes with productive individual or team relationships. The student must possess skills and experience necessary for effective and harmonious relationships in diverse academic and work environments. The student must be able to meet TTUHSC School of Nursing attendance requirements. The student must be able to satisfy all requirements set forth by the School of Nursing and Health care agency's affiliation agreements as well as any additional requirements of any clinical setting. The student must uphold professional nursing standards related to the student's scope of practice.

TTUHSC OP 51.04 and TTUHSC OP 77.14 complies with the American with Disabilities Act (ADA), Section 504 of the Rehabilitation Act of 1973, and state and local requirements regarding students with disabilities. Under these laws, no otherwise qualified and competitive individual with a disability shall be denied access to or participation in services, programs and activities of TTUHSC solely on the basis of the disability. ADA guidelines apply to all qualified persons. A qualified person is a person with a disability who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or
transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services, or the participation in programs or activities provided by a public entity and who can perform the "essential functions" of the position. For further information, contact the Office of Student Disability Services or visit their website located at https://www.ttuhsc.edu/disability/default.aspx.
## Student Information

### Computer Requirements

Students spend a considerable amount of time utilizing resources online and must own a personal laptop computer with broadband (high speed) internet to succeed in the chosen area of study. Daily computer access is expected of all students. (*All SON programs require a personal laptop for on-campus testing, exams, and classroom activities.*)

### Technical Skills

Students are expected to possess basic skills in both the use of a computer and to function independently in the use of Microsoft Office. To do a self-assessment of your skill level go to "Is Online Learning for You?" at [http://nursing.ttuhsc.edu/skills/](http://nursing.ttuhsc.edu/skills/). If a student cannot function independently, the applicable Associate Dean/Department Chair reserves the right to place the student on an academic leave of absence until the student can demonstrate competence to learn, draft, and submit work independently. See [https://www.ttuhsc.edu/nursing/help/system-requirements.aspx](https://www.ttuhsc.edu/nursing/help/system-requirements.aspx) for specific minimum computer system requirements.

**NOTE:**

- **The Traditional BSN Undergraduate Program** requires students to own a laptop and a mobile device (iOS or Android). Students are required to bring their laptop to participate in classroom learning activities and testing. A mobile device capable of using specific nursing apps is required.
- **The Accelerated BSN Program** requires students to own a computer (preferably a laptop) and a mobile device (iOS or Android). A compatible mobile device capable of using specific nursing apps is required. Students are also required to have a webcam and microphone.
- **The RN to BSN Program** requires students to have a laptop and webcam capabilities for making videos of presentations, clinical activities, and for online proctoring of exams and quizzes.
- **The MSN and DNP Programs** require students to bring a laptop to participate in classroom learning activities. Tablet devices can be used to access some course content but will not substitute the need for a computer. Go to [https://www.ttuhsc.edu/nursing/help/system-requirements.aspx](https://www.ttuhsc.edu/nursing/help/system-requirements.aspx) for specific minimum computer system requirements.

### Counseling Services

As in all professional health fields, if stress is not dealt with effectively, it can interfere with optimal academic performance. For a student experiencing excessive stress, the SON highly recommends self-referral for counseling. The following are the counseling options available for all School of Nursing students.

Program of Assistance for Students (PAS) is a professional, confidential, no cost counseling service for students and family members living in their households. Five sessions (per household) per academic year are available from licensed counselors who can provide assistance for a variety of problems related to daily living, including: family and relationship problems, depression, alcohol and drug abuse, anxiety, excessive stress, and other problems. No information is released to anyone in the SON and use of the program does not become part of a student’s record. For additional information visit [https://www.ttuhsc.edu/student-affairs/mental.aspx](https://www.ttuhsc.edu/student-affairs/mental.aspx).

- **Abilene students** should contact Life Renovations at (325) 672-7055.
- **Amarillo students** should contact the Professional Counseling Center at (806) 356-0404.
- **Austin students** should contact the Samaritan Center for Counseling at (512) 451-7337, then "0".
- **Dallas students** should contact the Pastoral Counseling Center at (214) 526-4525.
- **Lubbock students** have two options for counseling services: the Program of Assistance for Students (PAS) or the Student Counseling Center (SCC). For information for PAS, visit [https://www.ttuhsc.edu/centers-](https://www.ttuhsc.edu/centers-)

[Page 26 / 157] School of Nursing 2022 - 2023
- Permian Basin students should contact the Samaritan Counseling Center of West Texas, (432) 563-4144.
- San Antonio area students should contact the Institute for Couple and Family Enhancement, (210) 496-0100.
- Distance/Online students: Telehealth counseling is now available through The Counseling Center at TTUHSC. To be eligible for televisits, you must be an active TTUHSC student located outside of the Lubbock area. To schedule telehealth counseling call 806-743-1327 or 1-800-327-0328.
- All students regardless of campus have access to TAO Connect (Therapy Assistance Online). https://www.ttuhsc.edu/centers-institutes/counseling/tao.aspx

A 24-hour crisis/help line is available to all SON students and members of their household through the Program of Assistance for Students at 1-800-327-0328.

Professional Societies

- Iota Mu Chapter of Sigma Theta Tau, the International Nursing Honor Society
  Membership is by invitation and is based on outstanding scholarly activities.

- Phi Kappa Phi
  Membership is by invitation to top performing juniors, seniors, and graduate students.

- Golden Key
  Membership is by invitation to the top 15% of juniors, seniors, and graduate students.

- Student Government Association (SGA)
  The Student Government Association is recognized as the governing student body at Texas Tech University Health Sciences Center with representatives from the School of Health Professions, Graduate School of Biomedical Sciences, School of Medicine, School of Nursing and School of Pharmacy. SGA Representatives assist in the promotion of student affairs and activities affecting all students throughout TTUHSC and encourage communication between the schools. Representatives are elected from the undergraduate and graduate programs. For more information regarding the Student Government Association, visit the Student Government Association's Webpage at http://student.ttuhsc.edu/sga/.

- Texas Nursing Students’ Association
  The Texas Nursing Students’ Association grants membership to any student in an Associate Degree, Diploma, Baccalaureate, generic Masters, generic Doctoral program preparing students for RN licensure, as well as RNs in a BSN completion program. This award winning group is highly active at school, state, and national levels. For more information, please visit http://www.tnsa.org/.

- SALUTE: Veterans National Honor Society
  SALUTE is the first national honor society established for student veterans and military in 2-year and 4-year institutions of higher education. One unique element of our honor society includes the 4 tier system which is designed to encourage student veterans to strive to improve their GPAs and advance to higher tier levels in the honor society during their academic careers.

Resources and General Information

Activities, Athletics, Entertainment, and Recreation

As a member of the National Collegiate Athletic Association and the Big 12 Conference, Texas Tech provides intercollegiate programs for men and women. As part of the Texas Tech University (TTU) System, TTUHSC students participate in football, volleyball, basketball, baseball/softball, soccer, track and field, golf and tennis with other members of the conference.

The Lubbock campus of Texas Tech University Health Sciences Center includes the F. Marie Hall Synergistic Center providing students easy access to recreational and entertainment facilities. The TTUHSC Lubbock campus is located in close proximity to the TTU campus. The Robert H. Ewalt Student Recreational Center and Student Union Building, located on the TTU’s Lubbock campus are two of the most popular buildings on campus for out-of-class student activities.

For information about student organizations, fraternities, or sororities you may contact the TTUHSC Student Affairs office at (806) 743-2300 or online at https://www.ttuhsc.edu/student-affairs/organizations/default.aspx.

For information about the TTU recreational center contact the TTU Department of Recreational Sports online at
Awards
The School of Nursing participates in and offers awards including:
- Excellence In Nursing – Undergraduate and Graduate students are eligible
- SON Dean’s Leadership Award

Employment
The decision to work while enrolled as a student in the School of Nursing rests with the individual student; the school assumes no responsibility for student employment. Students should check with their enrolled program to determine if employment is discouraged. A student employed in a healthcare agency has the responsibility, personally and professionally, to accept and engage in only activities falling within the position description for which the student is qualified and do not conflict with legal and accreditation expectations.

Housing
Although students of the School of Nursing have access to TTU on-campus housing, it is not mandatory. For more information on housing, contact the TTU Student Housing Office at (806) 742-2661 or visit http://www.depts.ttu.edu/housing/.

Interprofessional Practice and Education (IPE) Core Curriculum
All TTUHSC students, regardless of school affiliation, are required to complete the IPE core curriculum prior to graduation. The IPE core curriculum is composed of two components including successful completion of a non-credit online course (>70% accuracy on the knowledge post-test) and successful participation in at least one registered IPE learning activity. Failure to complete the IPE core curriculum will result in delayed graduation. Students should consult their academic/program advisor and/or school catalog for additional information.

Simulation
The TTUHSC simulation centers located at the various campuses provide unique learning environments. These realistic environments support experiential learning activities promoting the development and maintenance of intra-professional and interprofessional competencies. Faculty and students from the School of Nursing, School of Medicine, School of Health Professions, School of Pharmacy, Graduate School of Biomedical Sciences, and Julia Jones Matthews School of Population and Public Health are engaged in simulation-based activities supported by these centers.

Student Service on Advisory Councils and Councils/Forums for Undergraduate and Graduate Programs
For purposes of promoting the TTUHSC School of Nursing, advisory bodies exist to maintain open communication between students and administration/faculty/staff:
- Undergraduate Department Advisory Council (UDAC)
- Non-Traditional Electronic Advisory Forums
- Graduate Department Student Advisory Council (GDAC)
- Post-Master’s DNP Student Advisory Council
- BSN to DNP Student Advisory Council.

Students also have opportunities to serve as Student Representatives on School of Nursing Councils. Through service on the Student Advisory Councils and the School of Nursing Councils, student representatives provide feedback to the faculty and administration on ways to improve the educational experience while enrolled in the School of Nursing. Student representatives may volunteer or are selected by the appropriate Associate Dean/Department Chair to serve on the Student Advisory Councils and School of Nursing Councils. Students are expected to represent fellow students by bringing forth issues of importance to be addressed. Associate
Deans/Department Chairs reserve the right to invite faculty or staff as appropriate to address student concerns.

**TTUHSC Libraries of the Health Sciences**

The TTUHSC Libraries of the Health Sciences provide facilities and learning/information resources with physical sites in Lubbock, Amarillo, and Odessa. The TTUHSC Library system collections presently contain more than 28,237 bound volumes and over 102,854 electronic books, plus 4,958 open access ebooks. The number of bound volumes will continually decrease however, as the Library makes room for more student study space. The system has 178 print journal subscriptions and approximately 43,929 electronic journals available at all TTUHSC sites. The libraries feature quiet and group study carrels and rooms, wi-fi display in most group study rooms, anatomy models, fifteen 3D printers (two printers in Odessa and thirteen printers in Lubbock), computer labs, scanners, interlibrary loan and reference services, and Internet access. The online Ask A Librarian service (http://ttuhsc.libanswers.com/ask) allows students to email, text, or chat with a reference librarian for article and searching assistance. Step-by-step online guides to library services and resources are available at http://ttuhsc.libguides.com/new.

The TTUHSC Libraries provide on and off-campus electronic access to more than 1,295 databases. The databases related to the School of Nursing include, but are not limited to: UpToDate, MEDLINE, PubMed, CINAHL Complete with FullText, Nursing Reference Center Plus, Primal Pictures, Access Medicine, SportDiscus, EXAM MASTER online (NCLEXRN), Scopus, the LWW Health Library, Cochrane Databases, ClinicalKey, as well as general and academic TexShare databases. Bibliographic tools such as RefWorks and Endnote, full-text electronic journals, and a full array of electronic books are also accessible through the Libraries’ homepage: http://www.ttuhsc.edu/libraries/ via the TTUHSC e-Raider account. To meet the needs of all TTUHSC users including distance education, the TTUHSC Libraries provides online forms for ILL requests, search assistance, 3D prints, and library cards.

- Preston Smith Library of the Health Sciences in Lubbock features 26 group study rooms, 1 tranquility room, and 21 computers in the Methodology Lab. An additional 12 public computers are located throughout the second and third floors along with seating for 102 individuals.
- Harrington Library of the Health Sciences in Amarillo has 10 public use computers, 88 seats, 4 individual study rooms and one conference room.
- Library of the Health Sciences in Odessa, has 97 study seats, 3 study rooms and 1 computer classroom with 10 desktop stations and 4 laptop stations.

**Textbooks**

Courses use information from various mediums, including textbooks. Students may have to purchase or rent specific textbooks. Each semester, the required and optional texts are listed for each course on the following website http://nursing.ttuhsc.edu/textbooks/.

**Sexual Harassment**

Sexual Harassment is prohibited under Title VII of the Civil Rights Act of 1964, as amended, and Title IX of the Educational Amendments of 1972. SEXUAL HARASSMENT WILL NOT BE TOLERATED.

The School of Nursing considers sexual harassment in all forms to be a serious offense subject to a range of actions up to and including suspension or dismissal. Sexual harassment is a violation of TTUHSC OP 51.02 and OP 51.03. Refer to the TTUHSC Student Handbook and the Title IX website located at http://www.ttuhsc.edu/title-ix/. Sexual harassment education is required for all students and is completed at the time of orientation. Contact the appropriate departmental office for further educational information and opportunities.

**Student Health Information and Resources**

**Health Services**

Medical services for TTUHSC students are available at the Abilene, Amarillo, Dallas, Lubbock, and Permian Basin, campuses. Refer to the TTUHSC Student Handbook online at https://www.ttuhsc.edu/student-affairs/handbook.aspx.
Health Insurance

Students are required by TTUHSC to pay a Medical Service Fee each semester. With this fee, access to healthcare is available at no charge for minimal or limited minor problems. Access to healthcare is through a TTUHSC clinic or a regional contracted provider (when available) for distance students. This fee is only waived for distance students.

TTUHSC and the School of Nursing strongly recommend each student maintain health insurance to cover major medical, emergency care, specialty care, and pharmacy services. Students should note many of the facilities where students receive clinical training require each student to be covered by health insurance. Hospital or clinic personnel may ask for proof of coverage at any time. Students may be denied access to clinical experience, at the discretion of the facility, if not covered by health insurance.

TTUHSC provides students the opportunity to purchase health insurance. Students may contact the TTUHSC Office of Student Affairs, Room 2C400, (806) 743-2300 for more information. The TTUHSC Office of Student Affairs can provide information on several insurance resources for students or visit https://www.ttuhsc.edu/student-affairs/health.aspx for further information.

TTUHSC Student Affairs

TTUHSC Office of Student Affairs is an institutional centralized information office providing an array of student support services. TTUHSC Office of Student Affairs collaborates with the school's student affairs offices to offer assistance to aid in the success of TTUHSC students. For more information, visit their website at https://www.ttuhsc.edu/student-affairs/default.aspx.

Graduation

Students planning to graduate MUST complete a Graduation Application found here. Students should create a "Diploma" address in WebRaider to ensure the diploma will be mailed to the proper address. The TTUHSC Student Affairs office uses the diploma address to mail the diploma only if the diploma is not picked up at commencement.

Students must be enrolled at Texas Tech University Health Sciences Center and registered in the School of Nursing for a minimum of one (1) credit hour in the term of graduation.

Veterans and Military Advising

All military affiliated students and their families in need of services are required to self-identify, particularly if using VA or Hazlewood benefits. Contact the TTUHSC Veterans Resource Center at vrc@ttuhsc.edu or (806) 743-7549, or visit the TTUHSC Veterans Resource Center website for information, instructions and forms at https://www.ttuhsc.edu/veterans-resource-center/default.aspx.
Policies

Americans with Disabilities Act (ADA)
(TTUHSC OP 77.14)
Students seeking accommodations on the basis of disability must register with the TTUHSC Student Affairs office at https://www.ttuhsc.edu/student-affairs/default.aspx. The ADA Compliance Officer for Students will notify the appropriate School of Nursing Department Chair of the student’s need for accommodations. Review the TTUHSC ADA policy located on the TTUHSC Student Affairs website at https://www.ttuhsc.edu/disability/default.aspx.

Confidentiality/Health Insurance Portability and Accountability Act of 1996 (HIPAA)
(TTUHSC OP 52.09 & SON OP 10.050)
The School of Nursing is dedicated to ensuring each student is current in issues related to nursing practice and research. One such regulation includes the Health Insurance Portability and Accountability Act (HIPAA).

- Each student is required to provide proof of education in HIPAA training.
- The training requirements vary by program; the student receives information regarding HIPAA training as part of new student orientation and is asked to sign a Confidentiality Agreement prior to the beginning of the initial semester of enrollment.
- Proof of training is kept electronically and only accessible to the School of Nursing Student Affairs Office and the TTUHSC Privacy Officer.
- Those who cannot show proof are not allowed to attend clinical.
- Release of confidential information (including verbal communications, written communications or electronic communications with or about patients or involving patient health information to anyone who does not need the information for treatment, payment or health care operation) is a cause for dismissal from the School.
- Certificates of compliance are not transferable from another institution because HIPAA certification is institution specific. Thus, all students must take the TTUHSC HIPAA training and provide evidence of compliance certification.

Family Educational Rights and Privacy Act (FERPA)
The Family Educational Rights and Privacy Act of 1974 ("FERPA") (20 U.S.C.A. §1232g; 34 CFR Part 99) affords certain rights to students concerning their educational records. FERPA grants students the right to inspect and review their educational records (with exceptions), to request their records be amended, to have limited control over the disclosure of information contained in their records, and to file a complaint with the U.S. Department of Education concerning alleged failures of the University to comply with the requirements of FERPA. The TTUHSC Institutional Student Handbook shall serve as the annual notification that must be provided to students under FERPA, 34 C.F.R. 99.7, unless individual TTUHSC schools annually notify their students of FERPA rights otherwise.

See TTUHSC OP 77.13 for additional information regarding student education records.

Tobacco Free Environment
In the interest of providing a healthy, tobacco-free environment, smoking, to include electronic cigarettes, is prohibited in all campus facilities, including academic, clinical, and administrative space. TTUHSC prohibits tobacco use or vaping in a TTUHSC facility or anywhere on the grounds of any TTUHSC facility, to include a leased facility/space. Violations will be treated seriously and violators will be subject to disciplinary action as prescribed by existing operating and Board of Regents policies. Refer to the TTUHSC OP 10.19 and TTUHSC Student Handbook, Part I, B Tobacco Free Environment.

State Privacy Policies (§559.003)
When TTUHSC “collects information about an individual by means of a form the individual completes and files with the governmental body in either a paper format or an electronic format”, the paper forms or the Internet site used in connection with the electronic form
must state:

- With few exceptions, the individual is entitled on request to be informed about the information the state governmental body collects about the individual;
- The individual is entitled to receive and review the information;
- The individual is entitled to have the state governmental body correct information about the individual that is incorrect. If TTUHSC collects information about a website user on its Internet site, including the identity and computer network location, TTUHSC must post what types of information collected about the website user on the Internet site. Finally, TTUHSC must establish a reasonable procedure to correct information about an individual.

**Participation in Assessments - Student Feedback**

The School of Nursing provides several opportunities for student feedback regarding the effectiveness of educational programs and services provided for students. Both formal and informal feedback is solicited. Satisfaction and feedback are solicited through student membership on School of Nursing Councils, focus groups, and completion of satisfaction assessment tools. Individuals or groups of students may provide unsolicited feedback to faculty and administrators at any time in person, via phone, and via email messages.

Completion of the following student satisfaction assessment tools ARE MANDATORY:

- Orientation Satisfaction Assessment tool: Completed during the first semester of enrollment. Students access the assessment via an invitation sent to the TTUHSC email address.
- Course Satisfaction Assessment tool: Completed for each course enrolled every semester. Students access the assessment link via the online learning platform and receive reminders via TTUHSC email.
- Satisfaction at Graduation Assessment tool: Completed during the last semester of enrollment. Students access the assessment via an invitation sent to the TTUHSC email address

See [SON OP 10.015 Mandatory Student Satisfaction Tool Completion Policy](#) for more information.

Students have an additional opportunity to provide feedback six months after graduation by completing the Alumni Assessment. The School of Nursing contacts the student by either emailing the links to the student's non-TTUHSC email address or mails the Alumni assessments to the permanent address listed with the TTUHSC Registrar's office at the time of graduation. Students should notify the Registrar of changes to permanent address and the non-TTUHSC email information to ensure delivery.
Financial Information

Immediately upon acceptance of an offer of admission, the student pays a non-refundable $175 placement guarantee/orientation fee. Failure to pay the fee results in forfeiture of the offer of admission.

To enable the student to approximate expenses, the following table provides an estimated average cost per semester. This information is provided by the TTUHSC Student Business Services office. These estimates are based on the AY 2022-2023 (Fall, Spring, Summer) school year.

Please be aware the figures are only estimates. Students may also go online to the Student Business Services website to see updates to tuition at any time at http://www.fiscal.ttuhs.edu/studentbusserv/tuitionestimates.aspx

An installment plan, available for fall and spring terms only, charges an Installment Option Fee each semester to students utilizing the installment payment plan. No installment option is available for the summer semester due to the shortened semester length. Tuition is paid to TTUHSC. Further questions regarding tuition and fees should be directed to the TTUHSC Student Business Services Office at (806)743-7867. Due dates and payment information can be found at http://www.fiscal.ttuhs.edu/studentbusserv/.

Refund Policies for Tuition and Fees

Information concerning payments and refunds can be obtained from the TTUHSC Student Business Services Office website at http://www.fiscal.ttuhs.edu/studentbusserv/ or call (806) 743-7867. Fax: (806) 743-7873.
Tuition for Repeated or Excessive Undergraduate Hours

The Texas Education Code – Section 54.014 states: "An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students (not to exceed the rate charged to nonresident undergraduate students) IF: before the semester or other academic session begins, the student has previously attempted a number of semester credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program in which the student is enrolled. For purposes of this subsection, an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program or programs requiring a minimum of 120 semester credit hours, including minors and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad component. An institution of higher education that charges students tuition at a higher rate under this subsection may adopt a policy under which the institution exempts from the payment of that higher rate a student that is subject to the payment of the higher rate solely as a result of hardship as determined by the institution under the policy."

Students who were enrolled as an undergraduate student in any institution of higher education prior to Fall 1999 are exempt from this rule. Also, students enrolled as undergraduate students prior to Fall 2006 may not be charged a higher rate of tuition until the number of semester hours previously attempted exceeds the number of hours required for the student’s degree program by 45 hours.

Financial Aid

Grants and loans are available through the TTUHSC Financial Aid Office. All students interested in receiving SON scholarships, grants and/or loans must complete a Free Application for Federal Student Aid (FAFSA) and include TTUHSC’s school code on the FAFSA (016024). The online FAFSA application is available at https://studentaid.ed.gov/sa/fafsa.

NOTE: Financial aid offers from other colleges and universities, including TTU, are not transferable to TTUHSC.

Student must be admitted to a degree seeking program and must be enrolled at least halftime to be eligible for financial aid. Students enrolled in a certificate program or less than halftime may apply for private student loans.

For further information regarding financial aid, please contact:
TTUHSC Financial Aid Office 3601 4th Street, MS8310
Suite 2C 400
Lubbock, TX 79430
Phone: (806)743-3025, Email: financial.aid@ttuhsc.edu, Webiste: http://www.ttuhsc.edu/financial-aid/

Scholarships

School of Nursing students are eligible for general scholarships and loans administered by the Financial Aid Office, TTUHSC Student Affairs Office, and Student Government Association. Scholarship eligibility is based upon the criteria as established by each donor and the TTUHSC School of Nursing. For further information regarding scholarships, visit https://www.ttuhsc.edu/nursing/scholarships/ or https://www.ttuhsc.edu/financial-aid/scholarships.aspx or contact: School of Nursing Scholarship Office at sonscholarships@ttuhsc.edu or call (806) 743-1543. For information regarding grants, loans, and policies, please visit: TTUHSC Financial Aid Office online at https://www.ttuhsc.edu/financial-aid/ or contact via email: financial.aid@ttuhsc.edu or call (806) 743-3025.
Program Overview

The Traditional BSN Program is for the student who is not a registered nurse and wants to earn an undergraduate degree (BSN) in nursing. The combination of classroom and hands-on learning using patient simulators and hospital settings provides students the ability to learn skills using the most current technology. Upon completion of prerequisite courses, the BSN degree plan can be completed in four consecutive semesters. The program is offered at our campuses in Abilene, Lubbock and the Permian Basin.

Admissions Requirements

All applicants to the Traditional BSN Program complete an online application as directed on the Traditional BSN Program website. Students must meet the minimum requirements listed below for admission consideration:

Academic Requirements

- Minimum cumulative GPA of 3.0 is preferred. All grades earned at all schools attended are calculated in the admission grade point average. Applicants with a cumulative GPA below 3.0 will be reviewed on a case-by-case basis.
- Minimum science GPA of 2.75 is required. **EFFECTIVE Fall 2023** - minimum science GPA of 3.0 is required.
- All non-nursing course prerequisites must be completed with a grade of C or better prior to enrollment.
- Preference will be given to applicants without dropped and/or repeated courses.
- At time of application submission, applicants must have completed and/or have enrollment verification to support completion of the required non-nursing prerequisite courses. A minimum of 45 credit hours of the required non-nursing prerequisite...
courses (60 hours total), including completion of at least four of the five science courses: Chemistry with lab (4 hours), Human Anatomy I (4 hours), Physiology II (4 hours), Microbiology with lab (4 hours), and Pathophysiology (3 hours).

- Grades earned in science core courses - Chemistry, Anatomy and Physiology I & II, Microbiology, and Pathophysiology are required to have a minimal GPA of 2.75. Consideration is given for repetition of science courses.
- Letter of academic good standing if prior enrollment in nursing program.

**EFFECTIVE FALL 2022:**

- CERTIFIED NURSE ASSISTANT (CNA) CERTIFICATION. Students must be certified as a CNA prior to the first day of class. Preference will be given to applicants certified at the time of the application deadline, along with proof of work experience as a CNA. Additionally special considerations will be given to other healthcare experiences such as a health unit coordinator (HUC), a patient care technician (PCT), life guard, etc...

**Non-Academic Admission Considerations**

- First generation college student
- Current healthcare work experience
- Military service and/or training
- Based upon fulfillment of all application eligibility requirements as outlined in the School of Nursing Catalog and posted on the BSN website, a determination will be made on an offer of an interview
- Performance in a face-to-face interview upon invitation

Applicants are reviewed by the Admissions Committee and evaluated individually and holistically, not allowing any single attribute to be the determining attribute in the admission decision. The actual number of students offered admission is dependent upon a variety of attributes, such as financial resources, classroom space, and available clinical experiences.

**IMPORTANT NOTE FOR APPLICANTS WHO ATTENDED A COLLEGE OR UNIVERSITY IN SPRING 2020**

An explanation of how TTUHSC School of Nursing considers courses in which a student earns grades of Pass (P), Fail (F), Credit (CR) or No Credit (NC) is outlined below:

Official transcripts with courses awarded with P or CR during the SPRING 2020 semester can be used to meet prerequisite course requirements and will not be used in calculating either the cumulative or science GPA for admissions. TTUHSC SON reserves the right to determine how, and if, courses awarded with P or CR during any semester, outside of spring 2020, will be calculated into a GPA and/or considered for transfer credit. Official transcripts with courses awarded with a Fail (F) or No Credit (NC) during any semester cannot be used to meet prerequisite course requirements.

**Additional Requirements for Prospective Students**

**NCLEX-RN Examination Eligibility**

See NCLEX-RN Examination Eligibility under the Eligibility Requirements section of this catalog.

**Tuition for Repeated or Excessive Undergraduate Hours**

See Tuition for Repeated or Excessive Undergraduate Hours under the Financial Information section of this catalog.

**Computer Requirements**

See Computer Requirements under the Student Information section of this catalog.

**Criminal Background Checks**

See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog.
Drug Screening
See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

Immunizations
See Immunization Requirements under the Eligibility Requirements section of this catalog.

Special Student Enrollment

Deferment of Admission
Admission may be deferred from one semester to the next at the discretion of the admissions committee on a case-by-case basis.

Provisional Admission
Provisional admission is not available for the Traditional BSN Program.

Conditional Admission
If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with "conditions" stated in the letter of admission offer prior to the first day of class for the semester the student is applying for. Failing to do so will result in retraction of the offer.

Readmission
Any student who has been dismissed or who withdrew for academic or disciplinary causes or as a result of a Complaint of Misconduct is ineligible for readmission to the Traditional BSN Program.

Transfer Admission
All requests for transfer admission to the TTUHSC School of Nursing from a different School of Nursing must be made no later than two months prior to the first day of the semester in which transfer admission is requested. The minimum cumulative GPA for transfer admission consideration is 3.0. A student seeking transfer completes an online application showing the expected entry point. The criteria considered for transfer are the same as those criteria considered for a new admission. In addition, the transfer student must submit a letter of good standing from the dean or department chair of the School of Nursing previously attended.

Enrollment without Credit/Course Audit
Students who wish to audit a course for no grade must obtain approval from the Associate Dean/Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student’s transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee.

Prerequisite Courses and Requirements
The prerequisite course requirements listed should be completed with a grade of "C" or higher in each course prior to enrollment in the first nursing course. These requirements as detailed in the following table include a total of 60 semester credit hours and can be taken at any regionally accredited college or university. A maximum of 15 credit hours can be earned via credit by examination.

The prerequisite courses listed in the following table for the Traditional BSN Program also incorporates the 42 hours of the Texas Tech University Health Sciences Center Core Curriculum for undergraduate nursing degrees. Please see Core Curriculum Requirements under the Eligibility Requirements section of this catalog to review the Texas Core Curriculum requirements.
Important Information about Prerequisite Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, the credits excluded are not eligible for prerequisite course consideration and must be retaken for credit. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program), or advanced placement examination for which credit with the grade of “C” or higher has been awarded and posted on an official transcript from an accredited college or university when determining completion of prerequisite non-nursing course requirements.

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number corresponds with the TCCNS number.
Students must complete 3 credit hours of math to meet core curriculum requirements. Students who take math statistics will simultaneously meet the requirements for the nursing prerequisite and the core curriculum. Students, who take any other statistics course as the nursing prerequisite, must also take an upper level mathematics course in order to meet the core curriculum requirement.

All courses are considered prerequisite to admission and beginning first semester of nursing course work.

Offer of Admission

Offers of admission will be made from the Traditional BSN Admissions Chair approximately eight (8) weeks following the application deadline. Applicants are required to respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a $175 nonrefundable placement guarantee/orientation fee, as well as a signed response form accepting the offer. Failure to respond by the deadline results in withdrawal of the offer of admission.

Degree Requirements for Students Admitted to Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen degree or area of study. Only with the specific approval from the appropriate Associate Dean/Department Chair may a different Catalog be selected. Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The School of Nursing Catalog is published at least biennially and its provisions are applicable during the following academic year (September 1 through August 31).

Maintaining Minimum Academic Requirements

- Maintain a 2.0 GPA for each semester and overall cumulative.
- A minimum grade of "C" required in all degree required (nursing) courses.
- Students receiving a "D", "F" or "WF" in a nursing course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation.

Academic Dismissal from the School of Nursing will result from the following circumstances:

- A student earning a "D", "F" or "WF" in two or more nursing courses in one semester is cause for academic dismissal.
- Students earning a "D", "F" or "WF" in a second nursing course, even when students successfully complete the courses in which the previous "D"s, "F"s or "WF"s were earned.
- Earning less than a 2.0 per semester or cumulative GPA for two consecutive semesters.

Comprehensive Examinations

Undergraduate (prelicensure) students must have a passing score on the comprehensive examination administered in NURS 4710 for the Traditional BSN Undergraduate Program. If the student is not successful on the examination, the student is required to meet with the course facilitator(s) to determine next steps in progression.

Residence Credit

The minimum actual residence credit required of each undergraduate student is 30 hours at TTUHSC, including the final 15 hours in nursing courses taken for a grade. The remaining hours may include transfer credit and correspondence course work. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with "residence" in the State of Texas for tuition purposes.
Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. The number of semester credit hours a student may carry (course load) is regulated by the Associate Dean/Department Chair. In determining course load, the Associate Dean/Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 20 semester credit hours. Traditional BSN students are required to complete 60 hours of prerequisite courses and 60 hours of nursing courses, totaling 120 credit hours.

Recognition of Previous Nursing Learning

Transfer of Credit

- The Traditional BSN program does not accept transfers into the nursing program.
- Students who attended a previous nursing program may apply to the Traditional Nursing program during the specified time frames.
- Due to the nature of the Traditional BSN program, transfer credits are not given.
- Credit for nursing courses cannot be earned via credit by examination.

Degree Plan

Degree plans are generally completed by the appropriate Student Affairs Coordinator during new student orientation. The degree plan may be revised by the Program Director of Curriculum based on a student’s ability to successfully progress through the curriculum. Course enrollment may be limited based on available resources, including but not limited to, availability of clinical sites within the community. The following degree plan is designed for applicants without a RN license. The sample degree plan provides an overview of a basic course schedule for full time students. All non-nursing courses should be completed prior to taking the first nursing course. When necessary, methods for limiting enrollment will be determined by the Traditional BSN Associate Dean/Department Chair.

**Traditional BSN Program Course Descriptions**

**NURS 3030 Independent Study in Nursing (0-6/0-6/0-6,F)** (Prerequisite: Consent of instructor and Traditional BSN Program Department Chair.) Topic and objectives of study are mutually agreed upon by the student and selected faculty member. Independent study agreement formalizes the plan for study and guides evaluation. Semester hours and course may be repeated as topic and/or objective of study change.

**NURS 3040 Special Topics in Nursing (3:3:0,O)** (Prerequisite: Consent of instructor and Traditional BSN Program Department Chair) Designed to focus on subjects of special interest to groups of students. May be repeated for credit as topics vary.

**NURS 3102 Integrated Learning II (1:1:0,F)** (Prerequisites: NURS 3604, 3511, 3322, 3208. Corequisites: NURS 3512, 3502, 3450) This course integrates knowledge from complex concepts of medical, surgical, community health, behavioral, and mental health nursing. Students apply this essential integrated knowledge to the mastery of designated nursing skill competencies. Clinical learning for these skills occurs in a simulated learning environment using deliberate practice with various levels of fidelity of simulation and evaluation relies on formative/summative examinations.

**NURS 3208 Intergated Learning I (2:1.5:1.5,F)** Corequisite: Admission to the School of Nursing, NURS 3604, 3511, 3322) This course integrates knowledge from health assessment, pathophysiology, pharmacological therapy, and health promotion. Students apply this integrated knowledge to the mastery of designated nursing skill competencies. Clinical learning for these skills occurs in a simulated learning environment; deliberate practice with various levels of fidelity of simulation and evaluation by formative/summative examination will be implemented.

**NURS 3322 Health Promotion Across the Lifespan (3:3:0,O) (Co-require: Admission to the School of Nursing, NURS 3604, 3511, 3208) This course provides an introduction to concepts of health promotion and maintenance across the lifespan with a focus on maintenance of functional capacity, physiologic changes, and access to health care. Emphasis will be placed on improving quality of life through routine health assessment, advocacy, and education for health promotion, risk reduction, and disease prevention across the lifespan.

**NURS 3450 Concepts of Community and Public Health Nursing (4:3:3,F) (Prerequisites: NURS 3604, 3511, 3322, 3208. Corequisites: NURS 3512, 3502, 3102) This course emphasizes public health and community nursing concepts essential for professional nursing practice. Focus is on the concepts of community health nursing practice, epidemiology and disease transmission, comprehensive assessment of risk factors and health problems, program planning and intervention, environmental health, collaboration with the interdisciplinary team, and promotion of healthy populations.

**NURS 3502 Mental and Behavioral Health Nursing (5:4:5:1.5,F) (Pre-requisites: NURS 3604, 3511, 3322, 3208. Co-requisites: NURS 3512, 3450, 3102.) This course emphasizes the concepts of altered mental health and the pathological processes associated with mental health disorders. The focus is on approaches to promote mental health/optimal function in the care of patients, groups, and families experiencing altered states of mental health utilizing evidence based standards of care.

**NURS 3511 Applied Concepts of Pharmacology (5:4:3,F) (Co-require: Admission to the School of Nursing, NURS 3604, 3322, 3208) This course introduces principles of pharmacodynamics and pharmacotherapeutics. Classifications of drugs and the use of nursing process for safe medication administration is emphasized. The various components of drug therapy are explored including genetic, life span/age and cultural implications. Evidence-based practice and legal/ethical standards will guide the use of case studies and simulation of accurate dosage calculations, medication administration, and methods of documentation.

**NURS 3512 Complex Concepts of Nursing Care I (5:4:3,F) (Pre-requisites: NURS 3604, 3511, 3322, 3208. Co-Requisites: NURS 3450, 3502, 3102.)** This course emphasizes chronic care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on the concepts of aging, health promotion, disease prevention, and genetics as well as illness management. Clinical judgment and reasoning and the integration of therapeutic nursing skills will be demonstrated through case study analysis and critical thinking activities according to contextual priorities.

**NURS 3604 Core Concepts of Nursing Care (6:5:3,F) (Co-require: Admission to the School of Nursing, NURS 3511, 3322, 3208.) This course is an introduction to nursing foundations for patient safety. Using current evidence, the skills of health assessment, communication, clinical reasoning, and select standards of nursing care, professional role and safe use of select nursing skills are explored. Emphasis is on recognizing shared commonalities and uniqueness of a patient's health such as age, gender, religion, race, ethnicity, culture, lifestyle, socio-economic class and sexual orientation. Performance assessment of skills is required in a laboratory experience.

**NURS 4102 Integrated Learning III (1:1:0,F) (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3502, 4602, 4407, 4322, 4204) This course integrates knowledge from advanced concepts of medical surgical, leadership and management, scholarship of evidence-based practice and nursing care of families. Students apply this integrated knowledge to the obtainment of designated nursing skill competencies. Clinical learning for these skills occurs in a simulated learning environment; using deliberate practice with various levels of fidelity of simulation with evaluation utilizing formative and summative examinations.

**NURS 4103 Nursing Care of Families with Children: Application to Practice (1:0:3,F) (Pre-requisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102, 4602, 4407, 4322, 4204, 4102. Co-require: NURS 4105, 4520, 4620) This clinical laboratory experience provides opportunities to care for children, families, and communities in obstetrical and pediatric settings using evidence-based knowledge from the theory courses.

**NURS 4105 Complex Concepts of Nursing Care II Application to Practice II (1:0:3,F) (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102, 4602, 4407, 4322, 4204, 4102. Corequisites: NURS 4620, 4103, 4520) This course provides opportunities for students to synthesize generalist nursing roles of provider, manager of nursing care in clinical and simulated acute care settings. Simulated case studies and weekly clinical experiences will provide the opportunity for students to demonstrate nursing skills appropriate for care of the patient experiencing acute care needs. Evidence based practice will be a major focus as will be safety and quality processes for clinical evaluation.

**NURS 4204 Leadership in Interprofessional Practice (2:2:0,F) Pre-reqs: NURS 3604, 3511, 3322, 3208, 3512, 3502, 4520, 3400, 3102 Core-reqs: NURS 4602, 4407, 4322, 4102. This course surveys the role of the nurse as a leader, a manager and a member of an inter-professional team. The student is introduced to key concepts in systems theory, change theory, management and leadership theory, conflict resolution, quality improvement, and financial concepts. The opportunity to examine staffing and delegation strategies, as well as legal and ethical modalities that impact nursing practice will be included.

**NURS 4322 Evidence-based Practice (3:3:0,O) (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102. Corequisites: NURS 4602, 4407, 4322, 4204, 4102) This course focuses on exploring the theory and methods of evidence-based practice with an emphasis on the role in providing quality patient-centered care in the medical/surgical setting. The dialogue of asking and answering of clinical nursing questions through the synthesis of current literature and analysis of clinical practice guidelines is a major emphasis.

**NURS 4407 Nursing Care of Families with Children (4:3:3,F) (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102. Corequisites: NURS 4602, 4322, 4204, 4102) This course emphasizes essential nursing concepts related to the safe delivery of quality nursing care to families with
children. The focus is on the childbearing family unit from preconception through birth to care of the child appropriate to age and development. Emphasis is placed upon the nursing role and communication within an interdisciplinary team, patient safety, and evidence based nursing care.

**NURS 4520 Integrated Learning IV: Clinical Immersion (5:3:6,F)** Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102, 4602, 4407, 4322, 4204, 4102. Corequisites: NURS 4105, 4103, 4620.) This course is designed to focus on subjects of special interest to groups of students. This course provides a clinical immersion experience for the student preparing to transition to practice in the clinical specialty area of the student's choice. Opportunity for integration of knowledge, concepts and skills from all four levels of curriculum will occur.

**NURS 4602 Complex Concepts of Nursing Care II with Application to Practice (6:4:6,F)** (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3502, 3450, 3102. Corequisites: 4407, 4322, 4204, 4102) This course provides opportunities for students to synthesize generalist nursing roles of provider and manager of care in the clinical and simulated acute care setting. Clinical judgment, reasoning and therapeutic nursing skills necessary in the acute care delivery are demonstrated in the application of evidence-based nursing care through simulated case studies and weekly clinical experiences. Simulated case studies and weekly clinical experiences will provide the opportunity for students to demonstrate nursing skills appropriate for care of the patient experiencing acute care needs.

**NURS 4610 Integrated Learning IV: Clinical Immersion (6:3:9,F)** (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102, 4602, 4407, 4322, 4204, 4102. Corequisites: NURS 4710. This course is designed to focus on subjects of special interest to groups of students. This course provides a clinical immersion experience for the student preparing to transition to practice in the clinical specialty area of the student’s choice. Opportunity for integration of knowledge, concepts and skills from all four levels of curriculum will occur.

**NURS 4620 Professional Transitions of Nursing Care (6:3:9,H)** (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102, 4602, 4407, 4322, 4204, 4102. Corequisites: NURS 4105, 4103, 4520) This course focuses on the role of the professional nurse using evidence-based practice and quality standards to deliver safe holistic care to the culturally diverse complex client and family. Emphasis is on the transition of the student nurse into a professional role which includes their ability to apply concepts related to interprofessional teamwork, informatics and patient-centered care.

**NURS 4710 Professional Transitions of Nursing Care (7:3:12,H)** (Prerequisites: NURS 3604, 3511, 3322, 3208, 3512, 3450, 3502, 3102, 4602, 4407, 4322, 4204, 4102. Corequisites: NURS 4610) This course focuses on the role of the professional nurse using evidence-based practice and quality standards to deliver safe holistic care to the culturally diverse complex client and family. Emphasis is on the transition of the student nurse into a professional role which includes their ability to apply concepts related to interprofessional teamwork, informatics and patient-centered care.
RN to BSN Program

Program Overview

The RN to BSN Program offers an opportunity for registered nurses (RNs) with either an associate degree in nursing (ADN) or diploma in nursing to be challenged professionally and personally through its innovative online curriculum. It is ideal for RNs who want to advance their careers through practice, leadership, or education. Students can attend full-time and complete the degree in two semesters, or part-time in three semesters.

The RN to BSN Program offers two tracks which include the RN to BSN and the RN to BSN Military Pathway option (beginning Jan 1, 2023). Students in both tracks are admitted and enrolled in the same courses. There are some minor differences in the tracks in terms of eligibility to receive academic credit for military service. The RN to BSN Military Pathway Overview provides additional requirements for this option.

Students in both tracks are admitted three times per year in the fall, spring, or summer semesters. The RN to BSN Admissions and Progressions Committee sets the admission criteria for the RN to BSN Program. Although no single applicant's attribute is used to make an admission decision, a consistent pattern of success based on grade point averages in prerequisite and nursing coursework as well as the frequency of course withdraws and failures is important.

RN to BSN Military Pathway Overview: The RN to BSN Military Pathway is designed to recognize and provide academic credit for specific military educational training and experiences. To be eligible for this track, students must meet all RN to BSN Program admission requirements and provide evidence of current or prior military service. Completion of specified military occupational trainings verified on a Joint Services Transcript or Community College of the Air Force Transcript may deem these students eligible to be awarded academic credit in the RN to BSN curriculum.

Admissions Requirements

All applicants to the RN to BSN Program complete an online application as directed on the RN to BSN Program website. Students must meet the minimum requirements listed below for admission consideration:

Note: International students with F1 and F2 visa status are not eligible to apply to an online program.

Academic Admission Criteria
• Current RN License that is active and in good standing, without any restrictions or stipulations.
  ◦ If an Early Decision applicant, submission of NCLEX-RN results may be delayed to no later than the end of the first semester of classes.
  ◦ If a concurrent enrollment applicant, submission of NCLEX-RN results may be delayed to no later than the end of the next to last semester of classes.
  ◦ For any other applicant who meets all academic and admission requirements, submission of NCLEX-RN results may be delayed to no later than the end of the first semester of classes.
  ◦ Applicants who will be submitting NCLEX-RN results no later than the end of the first semester of classes may still receive full admission if they meet all academic and admission requirements.
• Minimum cumulative GPA of 2.5 or higher – courses earned must be from an accredited institution. If below 2.5, the applicant can submit a letter to the Admission and Progression Committee requesting review for admission consideration; the letter must include explanation of why the GPA is below 2.5 and what strategies the applicant has in place to support student success in the RN to BSN Program.
• All prerequisite courses must be completed with a grade of “C” or better prior to beginning the program.
• A test of English as a Foreign Language (TOEFL) is required, unless a degree has been earned from an accredited university in the U.S.
• All general education requirements (Core curriculum) and prerequisites must be documented on an official transcript prior to enrollment in nursing courses.
• Consideration of the number of withdraws in prior courses. State law permits students to withdraw from no more than 6 courses while enrolled in another institution of higher education. See Texas Education Code §51.907. Applicants with 7 or more withdraws on their transcript will not be eligible for admission consideration regardless of meeting other admission criteria.

RN to BSN Military Pathway Academic Admission Criteria
• Individuals admitted to this track must provide evidence on a Joint Services Transcript (JST) (https://jst.doded.mil/official.html) or Community College of the Air Force Transcript (https://www.airuniversity.af.edu/Barnes/CCAF/Display/Article/803247/) of successful completion of one of the following medical trainings:
  1. Hospital Corpsman Advanced Technical Field- Navy B-300-0004
  2. Independent Duty Medical Technician- Air Force 4N051C
  3. Public Health Specialist-Navy- 8432; Army 68S10
  4. Hospital Corpsman Basic- Navy B-3000-0100
• Applicants for the RN to BSN Military Pathway must submit either a JST or Community College of the Air Force Transcript prior to the application deadline.

Non-Academic Admission Considerations
• Prior enrollment within the Texas Tech University System
• Permanent resident of TTUHSC service area county
• First generation college student
• Multilingual
• Prior practice as a Registered Nurse
• Military service and/or training
• Completion and submission of the SON Computer Literacy Score

Applicants are reviewed by the RN to BSN Admissions and Progressions Committee and are evaluated individually and holistically, not allowing any single attribute to be the determining attribute in the admission decision. The actual number of students offered admission is dependent upon a variety of attributes, such as financial resources, classroom space, and available clinical experiences.

MSN Expressway
The MSN Expressway is designed for RN to BSN Program students who desire to move directly into one of the MSN Degree Programs with a focus in administration, education, or informatics in a seamless manner. TTUHSC full-time RN to BSN students who meet graduate admission criteria can opt to take up to two graduate level courses as a component of the RN to BSN degree plan. Students who elect to pursue the MSN Expressway should contact the Admissions Coordinator prior to the first semester of enrollment.
IMPORTANT NOTE FOR APPLICANTS WHO ATTENDED A COLLEGE OR UNIVERSITY IN SPRING 2020

An explanation of how TTUHSC School of Nursing considers courses in which a student earns grades of Pass (P), Fail (F), Credit (CR) or No Credit (NC) is outlined below:

Official transcripts with courses awarded with P or CR during the SPRING 2020 semester can be used to meet prerequisite course requirements and will not be used in calculating either the cumulative or science GPA for admissions. TTUHSC SON reserves the right to determine how, and if, courses awarded with P or CR during any semester, outside of spring 2020, will be calculated into a GPA and/or considered for transfer credit. Official transcripts with courses awarded with a Fail (F) or No Credit (NC) during any semester cannot be used to meet prerequisite course requirements.

Additional Requirements for Prospective Students

Tuition for Repeated or Excessive Undergraduate Hours
See Tuition for Repeated or Excessive Undergraduate Hours under the Financial Information section of this catalog.

Computer Requirements
See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks
All applicants who receive offers of admission will be required to consent to a criminal background check. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog. No student will be allowed to start classes without a cleared criminal background check.

Drug Screening
Drug Screenings may be required if requested by the clinical institution site at the cost of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

Immunizations
See Immunization Requirements under the Eligibility Requirements section of this catalog.

Special Student Enrollment

Provisional Admission
Provisional admission may be granted to students who graduated from Associate Degree Nursing (ADN) schools with current Early Decision admissions agreements with TTUHSC School of Nursing and who have submitted the Declaration of Intent to seek Early Decision Admission at the start of the ADN program. These designations are noted in the letter of admission, along with the condition for removal of the provision. Once the student presents evidence of licensure as a registered nurse per admission guidelines, the student will be granted full admission to the RN-BSN Program. If a student is unsuccessful in passing the NCLEX, a leave of absence for one semester will be granted. If the student has not been licensed during the leave of absence, the student will be academically withdrawn and encouraged to reapply upon passage of the NCLEX. Provisional admission may also be granted to students enrolled in Associate Degree Nursing (ADN) schools with a Dual Enrollment agreement with TTUHSC School of Nursing. Students whose degree plan reflects a Dual Enrollment agreement must pass the NCLEX prior to completion of NURS4234 (Capstone course) or a grade of Incomplete will be issued.
Conditional Admission

RN to BSN candidates may be offered conditional admission if they have not met the following requirements for full admission:

- Nursing degree completion confirmation (student graduating in current semester and verification is not available until the end of the semester).
- Prerequisite courses have not been completed prior to the deadline for application for admission for the semester to which the student is applying.
- Cumulative or nursing GPA below 2.5.

The student with conditional admission is required to comply with the conditions stated in the letter of admission offer prior to the first day of class for the semester to which the student has applied. Failing to do so will result in retraction of the offer.

Note: If a student is offered both provisional and conditional admission, the terms of conditional admission govern at the time of the first class day.

Readmission

All requests for readmission must be made no later than two (2) months prior to the first day of the semester in which readmission is requested. The RN to BSN Program Council is responsible for overseeing all requests for readmission via the Admissions and Progressions Committee. A student who left in good standing and seeking readmission shall complete and submit a readmission application showing the expected entry point to the appropriate Student Affairs Coordinator. The Coordinator will notify the chair of the Admissions and Progressions Committee of the request for readmission along with providing the most current transcript, and a summary of the circumstances of the student’s withdrawal, if known.

A student who left with a record not in good standing (academic or disciplinary causes) must complete and submit a readmission application to the appropriate Student Affairs Coordinator along with a letter explaining the circumstances resulting in the withdrawal/dismissal and the plan to improve or correct performance if offered readmission. The appropriate Student Affairs Coordinator will forward the application, the letter, any observations regarding academic performance and behavior during prior enrollment at the School of Nursing, and any available academic records including the most recent transcript to the chair of the Admissions and Progressions Committee. The Admissions and Progressions Committee review all such requests and may take one of the following actions regarding readmission of a student:

1. eligible and admit,
2. eligible pending space availability in nursing courses and in sequence to date of action in relation to other readmission applicants,
3. not eligible.

The Admissions and Progressions Committee may assign requirements to be met as a condition of enrollment, i.e. readmission on a part-time degree plan.

Transfer Admission

All requests for transfer to TTUHSC School of Nursing from a different School of Nursing must be made no later than two months prior to the first day of the semester in which transfer admission is requested. The minimum cumulative GPA for transfer admission consideration is 3.0. A student seeking transfer completes an online application showing the expected entry point. The criteria considered for transfer are the same as those criteria considered for a new admission. In addition, the transfer student must submit a letter of standing from the dean or department chair of the School of Nursing previously attended. Requests for transfer of credits to the RN to BSN Program is not an option due to state regulations requiring 25% of credits must be earned at the institution awarding the degree.

Special Student Enrollment

Under certain circumstances, it may be appropriate for an individual to seek admission as a special non-degree seeking student. This admission is for the purpose of taking a limited number of courses for one semester only. It is not an avenue for seeking a degree. The individual must receive approval from the RN to BSN Program Council for enrollment.
Deferment of Admission
RN to BSN students who have been admitted to the School of Nursing but wish to defer the start date to a later semester will be reviewed on a case-by-case basis by the Admissions and Progressions Committee. Deferments may be granted for reasons including, but not limited to, personal illness or illness of immediate family member, military service, humanitarian or religious service, or financial hardship. All requests for deferment will be forwarded to the Chair of the Admissions and Progressions Committee along with supporting documentation for requested deferment. Faculty will notify Admissions staff as to the decision. All decisions are final. Deferments will be granted for no more than one academic year from the time of initial offer of admission.

Enrollment without Credit/Course Audit
Students who wish to audit a course for no grade must obtain approval from the Associate Dean/Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student’s transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee.

Prerequisite Courses and Requirements
The prerequisite course requirements listed below should be completed with a grade of "C" or higher in each course prior to enrollment in the first nursing course. These requirements as detailed in the table below include a total of 54 semester credit hours and can be taken at any regionally accredited college or university. A maximum of 15 credit hours can be earned via credit by examination.

The prerequisite courses listed in the following table for the RN to BSN Program also incorporates the 42 hours of the Texas Tech University Health Sciences Center Core Curriculum for undergraduate nursing degrees. See Core Curriculum Requirements under the Eligibility Requirements section of this catalog to review the Texas Core Curriculum requirements.

Important Information about General Education and Associate Degree Nursing Course Requirements
- Pass/Fail grades for general education prerequisites are NOT accepted for credit toward degree requirements.
- Pass/Fail grades for nursing course prerequisites will be awarded a 2.0 grade value in determination of admission GPA. Students may not take any courses required for a degree in nursing as Pass-Fail.
- Courses previously taken as Pass-Fail will not be transferred for credit if the course is required for a School of Nursing Degree.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, those credits excluded are not eligible for prerequisite course consideration. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Courses taken at Texas Tech University or any other college/university are not used in calculating the TTUHSC grade point average once a student has been admitted to the School of Nursing. However, all grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program), or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of prerequisite non-nursing course requirements.

Effective Spring 2021 admissions cycle:
TTUHSC School of Nursing is no longer requiring CHEM 1305 & 1105 or 1406 or 1411 (4 SCH) as a prerequisite for the RN to BSN Program. If an applicant has already successfully taken Chemistry, those hours will be counted toward the required 54 SCH prerequisites for consideration of admissions into the program. This includes the mandate for all applicants to be core complete. If an applicant has not taken CHEM 1305 & 1105 or 1406 or 1411 (4 SCH), they now have the option to take an additional 4 SCH of electives which would count toward the required 54 SCH as well as meeting core curriculum requirements.

English Composition I (ENGL 1301) | 3
English Composition II (ENGL 1302) | 3
Any Texas core approved course in Creative Arts | 3
Any Texas core approved course in Language, Philosophy, or Culture | 3
Elective | 6

*Students are encouraged to enroll in a computer, writing, or chemistry course as a component of the elective hours.

**TOTAL** | **54**

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. Students who take math statistics will simultaneously meet the requirements for the nursing prerequisite and the core curriculum. Students, who take any other statistics course as the nursing prerequisite, must also take an upper level mathematics course in order to meet the core curriculum requirement.
- All courses are considered prerequisite to admission and beginning first semester of nursing course work.

---

**Recognition of Previous Nursing Learning**

The TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning for students enrolled in the RN to BSN Program. They are (a) transfer of credit and (b) advanced placement. Both methods are described below:

**Transfer of Credit**

- Applicants must submit original copies of official college transcripts from all institutions in which the student has enrolled. These transcripts will be reviewed and course work evaluated by the program administrator’s office. Final determination regarding applicability of completed course work toward degree requirements lies with the Associate Dean/Department Chair.
- Course equivalencies for transfer credit are assessed based upon the catalog course description or the course syllabus and/or notes provided by the student. Generally, courses of equivalent course content completed with the grade of "C" or higher at any accredited educational institution will be accepted for transfer credit toward degree requirements.
The School of Nursing accepts courses completed through classroom, internet, correspondence, College Level Examination Program (CLEP) or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of general education course requirements.

No more than 54 general education course hours will be transferred, as well as a minimum of 36 hours of basic nursing education courses will be posted, for a total of 90 semester credit hours that may be transferred in fulfillment of RN-BSN degree requirements. (If a basic nursing program has less than 35 hours, details for this should be arranged with the Associate Dean/Department Chair.) These transfer hours will be posted upon admission to the School of Nursing by the Registrar’s office of TTUHSC, thus the RN-BSN student will be classified as a senior student upon entering TTUHSC School of Nursing.

Applicants are encouraged to meet with or send transcripts to (fax is acceptable) the Student Affairs office to discuss applicability of transfer credit for degree purposes before submitting their application.

**Offer of Admission**

Offers of admission will be made from the RN to BSN Associate Dean/Department Chair approximately eight weeks following the application deadline. Applicants are required to respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a $175 non-refundable placement guarantee/orientation fee, as well as a signed response form accepting the offer. Failure to respond by the deadline results in withdrawal of the offer of admission.

**Degree Requirements for Students Admitted to Program**

**Graduation under a Particular Catalog**

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the Non-Traditional Undergraduate Associate Dean/Department Chair may a different Catalog be selected. Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the following academic year (September 1 through August 31).

**Maintaining Minimum Academic Requirements**

- Maintain a 2.0 GPA for each semester and overall cumulative.
- A minimum grade of "C" in all nursing courses is required.
- Students receiving a "D", "F" or "WF" in a nursing course are eligible to repeat the course one time only.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation.

**Academic Dismissal**

Academic Dismissal may occur when students earn:

- A grade of "D", "F" or "WF" in two or more nursing courses even when the first "D" or "F" has been replaced by a passing grade upon retaking the course.
- A grade point average (GPA) of less than a 2.0 semester or cumulative GPA for two consecutive semesters.
- A grade of "D", "F", or "WF" in the same nursing course twice.

**Residence Credit**

The minimum credit required of each undergraduate RN to BSN student is 30 hours at TTUHSC which includes the final 15 hours in nursing courses taken for a grade. Final determination for completed course work toward degree requirements is with the Non-Traditional Undergraduate Associate Dean/Department Chair.

**Semester Credit Hours and Course Loads**

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis;
Clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. Non-Traditional Undergraduate enrollment in 12 or more credit hours per semester (6 or more credit hours in each summer session or 12 or more credit hours in a full summer session) constitutes full-time enrollment. The number of semester credit hours a student may carry (course load) is regulated by the Non-Traditional Undergraduate Associate Dean/Department Chair, taking into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 15 semester credit hours. Refer to example course loads in the sample degree plans for the RN to BSN student.

### Degree Plan

The RN to BSN Program degree plan is provided as a sample degree plan for reference. This degree plan is designed for applicants with a RN license only. The information is provided here as an overview of a basic course schedule of a full-time student and will vary depending on each student's ability to progress through the program. Standard program degree plans are approved by RN to BSN faculty and completed by the RN to BSN Enrollment Coordinator in the Office of Student Affairs during the initial advising session with the student prior to enrollment. The degree plan may be revised based on a student's ability to successfully progress through the curriculum. All general education courses must be completed prior to enrollment. Students can expect to complete this program going full-time while maintaining a standard 40 hour work week. Attempting to carry greater than 15 semester credit hours per semester and working in excess of 40 hours per week is discouraged.

If a student is unable to complete the program in three semesters, the student must seek approval of the extended degree plan from the RN to BSN Program Director. Approval will only be granted for demonstration of an unexpected life event due to illness or change in job which has disrupted the student’s progression of studies. If a student is unable to enroll in any courses for a semester, a leave of absence (LOA) request should be submitted by the student for one semester and maybe renewed for a second semester if circumstances require. (See Student Handbook). The degree requirements must be completed within 4 semesters (16 months) unless a student took an approved leave of absence. If at any time the student elects to not enroll in a course for an entire semester or does not complete the program within 16 months, without authorization, the student will be dismissed from the program.

All pre/corequisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

**RN to BSN Program Course Descriptions**

**NURS 4221 Breastfeeding Practices (2:2:0,O) ("Elective) (Prerequisite: NURS 4342)** This course engages the students in examining policies, practices, and support systems affecting breastfeeding. Evidence based guidelines will be discussed in relation to the nursing role and how the nurse can encourage and support the breastfeeding experience.

**NURS 4222 Healthcare Teaching (2:2:0,O) ("Elective) (Prerequisite: NURS 4342)** Professional nurses must effectively provide education to meet the learning needs of clients and colleagues. Teaching/learning principles are applied as foundational bases for educational planning and intervention in healthcare. This process includes an assessment of learning needs, the implementation of a teaching plan and evaluation of the process and product of teaching.

**NURS 4223 Holistic Nursing Practice (2:2:0,O) ("Elective) (Prerequisite: NURS 4342)** This course is an introduction to holistic concepts and therapeutic modalities in health practices. Students will examine the standards and values of holistic nursing with the focus on the mind, body, spirit and emotions of the patient's health-illness experiences. Challenges to integrate holistic therapies across the continuum of healthcare environments will be explored. Evidence based practice will be reviewed for delivery of quality and safe holistic nursing care to populations across the lifespan.

**NURS 4224 Improving Care Coordination (2:2:0,O) ("Elective) (Prerequisite: NURS 4342)** This course will focus on the role of nurse leaders in care coordination for seniors. Students will explore the transitional care model that promote patient safety and inter-professional teamwork. Additionally, models of healthcare delivery that ensure patient and family engagement, effective communication, and collaboration will be discussed in relation to care for seniors.
Strategies will be discussed that encourage professional nurses to participate in an interprofessional antibiotic stewardship team. *(Prerequisite: NURS4342)*

NURS 4323 Art of the Human Experience (2:2:0:0) *(Prerequisite: NURS 4342)* This course is designed to introduce the student to concepts related to the art and science of the nursing profession. Students will have the opportunity to identify personal strengths in relation to their role as a baccalaureate prepared nurse. Students will also develop an understanding of how the human experience improves personal and patient satisfaction and healthcare outcomes.

NURS 4324 Integrating BSN Concepts (2:2:0:0) *(Prerequisites: NURS 4342, 4233, 4343, 4344, 4345, 4346, 4347, 4348, 4349)* This capstone course provides the opportunity for the student to synthesize concepts and issues to facilitate overall success in the profession. Students integrate principles of patient centered care, interdisciplinary team, advocacy, ethics, policy development, evidence-based practice, quality improvement, informatics, professional organization involvement and patient safety.

NURS 4342 Incorporate of Evidence into Practice (3:3:0:0) This course provides channels for connecting with identifiable evidence to enhance the practice of nursing. Basic research concepts, quality improvement, and evidence-based practice (EBP) approaches will be considered to empower the students as consumers of evidence to verify practice established on valid evidence. To synthesize the professional role of the nurse, this course provides students with an underpinning for evidence-based practice. The capacity to operate as proficient consumers of evidence compels a comprehension of what are evidence, quality improvement, and basic research principles. Students will engage in discussions, reading, and evaluation of evidence, quality improvement, and research reports to advance the practice of nursing.

NURS 4343 Foundations of Nursing Knowledge (3:3:0:0) *(Prerequisite: NURS 4342)* This course is an exploration of the evolution of nursing theory and how theory is applied in practice settings. Concepts within select nursing theories are examined in terms of a hierarchy of theoretical and philosophical thinking. The relationships between nursing theory, evidence based practice, research and practice policies are examined.

NURS 4344 Management and Leadership: Bedside to Boardroom (3:2.5:5:0) This course will focus on the development of nurse leaders filling an essential role in a transformed healthcare system. This includes working as full partners within an inter-professional team for improving quality, safety, fiscal responsibility, and knowledge of nursing care delivery models. Students will explore the roles and functions of nurse management and leadership theory with a focus on leader competency through self-assessment. Strategies for effective communication and collaboration will be identified to develop the full potential of the professional nurse in clinical care and leadership roles.

NURS 4345 Healthcare Information Technology (3:3:0:0) *(Prerequisites: NURS 4342, 4233, 4343)* This course will focus on healthcare information technology (HIT) being utilized by today's nurse. Course content will assist nurses to understand HIT processes utilized to improve patient outcomes by working across healthcare disciplines to integrate knowledge, improve quality and efficiency of patient care. Students will explore the various uses of HIT initiatives and use of technology in a variety of health care settings. Course content will identify the issues of ethics, information security and privacy associated with HIT. Additionally the course provides students strategies for implementing meaningful use of HIT.

NURS 4346 Community and Public Health Nursing (3:2.5:5:0) *(Prerequisites: NURS 4342, 4233, 4343)* This course emphasizes population health, community health, and public health nursing concepts needed for the professional nursing practice. The focus is on the concepts of community and population assessment including health problems, risk factors, program planning and interventions. This course provides foundations for interdisciplinary teamwork and disease prevention.

NURS 4347 Evaluating Risk in Healthcare (3:2.5:5:0) *(Prerequisites: NURS 4342, 4233, 4343)* The course will introduce the student to concepts related to patient safety. Course content will cover the role of the nurse as a member of the inter-professional team. The student will be introduced to the process of failure modes effects analysis (FMEA) and root cause analysis (RCA). Strategies that enhance inter-professional communication will be reviewed. An overview to the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) assessment of patient satisfaction will be provided.

NURS 4348 Health Intervention Design (3:3:0:0) *(Prerequisite: NURS 4342, 4233, 4343)* Students will design an effective intervention to enhance self-management of chronic disease based on current incidence and prevalence rates of chronic disease, cultural competence, behavior change theory and program planning models. With the development of a community-based self-management intervention, students will synthesize evidence-based practice aimed at improving the health of individuals with chronic disease.

NURS 4349 Nursing Jurisprudence & Ethics (3:2.5:5:0) This course serves as an introduction to nursing jurisprudence and ethics in professional practice. Students examine nursing practice acts, rules and regulations of state boards of nursing, legal and ethical position statements, principles of nursing ethics, professional boundaries and patient rights. Legal and ethical dilemmas as well as the duties and obligations of the professional nurse as a patient safety advocate are studied to assist the student with providing safe and quality healthcare in various settings. A brief overview of peer review, whistleblower protections, and health policy prepares the student to become more professionally engaged.
Program Overview

The Accelerated BSN course of study is derived from the mission of the TTUHSC School of Nursing to create a fast-track for individuals desiring an intense, fast-paced entrance into a career path of professional nursing. The Accelerated BSN model of education instills in graduates a commitment to nursing excellence in the provision of care to individuals, families, communities, and populations with complex health care needs in structured and unstructured settings for present and emerging healthcare arenas, as well as provide a foundation for future graduate education.

The Accelerated BSN offers two tracks which include the Second Degree BSN and the Veteran to BSN (VBSN). Students in an accelerated track (Second Degree BSN or VBSN) are admitted in the spring semester and enrolled in the same courses outlined in the degree plan. All course requirements are completed in three consecutive semesters over a 12 month period. Didactic courses are delivered in a structured online format and clinical instruction is preceptor-based with live faculty guidance and oversight.

Students in both tracks are enrolled in the same courses. There are some distinct differences in the tracks in terms of certain admission requirements and eligibility to earn prior learning credit. These differences are provided in the specific track overviews. Under the guidance of the Associate Dean/Department Chair for the Non-Traditional Undergraduate Program, applicants are reviewed by the Accelerated BSN Program Admission and Progressions Committee and are evaluated individually and holistically. No single attribute is considered in arriving at an admission decision. Acceptance into an accelerated track is based upon a competitive ranking process for selection using a point award system of academic and nonacademic requirements and considerations. The actual number of students offered admission is dependent upon a variety of institutional elements such as financial resources, classroom space, and available clinical experiences. Administration reserves the right to adjust the number of offers based upon availability of institutional resources.

Note: International students with F1 and F2 visa status are not eligible to apply to an online program.

Second Degree BSN Overview

The Second Degree BSN is for students with a previous baccalaureate degree. This 12-month web-based track offers clinical instruction and course reviews in Abilene, Amarillo, Austin, Dallas, Lubbock, Odessa, and San Antonio. Students must have completed a minimum of 55 credit hours of prerequisite courses prior to enrollment in the first nursing course with a grade of “C” or higher prior to admission. A total of 61 hours of nursing courses will be completed while in the accelerated course of study which will total 116 credit hours.

Veteran to BSN Overview

The Accelerated Veteran to BSN Track began in Spring 2016. Students in the VBSN Track follow the same curriculum and train at the same clinical sites as Second Degree BSN students including Abilene, Amarillo, Austin, Dallas, Lubbock, Odessa, and San Antonio. The goal is to provide veterans with military medical experience, and who may or may not have a prior bachelor’s degree, an educational option to begin a career path in professional nursing. To be eligible for admission consideration, the applicant must be a veteran and can demonstrate recent health care experience in the last three (3) years.

The track is open to veterans from all branches of the service and is designed to build on the prior healthcare education and
experience of the student. Direct assessment of prior knowledge through the Competency Assessment Placement (CAP) Battery is an option for students in this track for basic foundational nursing knowledge, pharmacology, and leadership. Success in any or all CAP eligible courses will allow the student to earn prior learning credit toward the accelerated upper division nursing courses. The Veteran to BSN students are required to complete 59 hours of non-nursing courses and 61 hours of nursing courses during the entire track, totaling 120 credit hours required by the State of Texas to earn a bachelor’s degree.

IMPORTANT NOTE FOR APPLICANTS WHO ATTENDED A COLLEGE OR UNIVERSITY IN SPRING 2020

An explanation of how TTUHSC School of Nursing considers courses in which a student earns grades of Pass (P), Fail (F), Credit (CR) or No Credit (NC) is outlined below:

Official transcripts with courses awarded with P or CR during the SPRING 2020 semester can be used to meet prerequisite course requirements and will not be used in calculating either the cumulative or science GPA for admissions. TTUHSC SON reserves the right to determine how, and if, courses awarded with P or CR during any semester, outside of spring 2020, will be calculated into a GPA and/or considered for transfer credit. Official transcripts with courses awarded with a Fail (F) or No Credit (NC) during any semester cannot be used to meet prerequisite course requirements.

Admissions Requirements

Second Degree BSN Admission Requirements

All applicants to the Second Degree BSN track must complete an online application as directed on the Second Degree BSN website. All applicants must meet requirements listed below for admission consideration:

Second Degree BSN Academic Requirements

- Cumulative and Science GPA minimums must be met at the time of application and maintained once all required nursing prerequisite courses have been completed.
- Previous Bachelor’s Degree in Science or Arts (BA or BS) from an accredited college or university;
- Minimum overall cumulative GPA of 2.5; preference for overall cumulative GPA of 3.0 or higher;
- Minimum science GPA of 2.5; preference for science GPA of 3.0 or higher in required science courses including Chemistry, Anatomy and Physiology I & II, Microbiology, and Pathophysiology;
- Prior to admission offer, applicants must have either completed all 55 credit hours (SCH) of lower-division general education courses as outlined in the School of Nursing Catalog and posted on the SON Second Degree BSN website or have completed at least 40 credit hours (SCHs) of non-nursing prerequisites with proof of enrollment for the remaining prerequisites. Prior to application close date, applicants must have completed at least three of the five required science classes, which include Pathophysiology, Microbiology, Anatomy and Physiology I, Anatomy and Physiology II, and Chemistry. All prerequisites must be completed prior to the first day of class.
- All general education requirements (core curriculum) and prerequisites must be documented on official transcript prior to the first day of class;
- Completion of a medical terminology course (can be for credit or certificate of completion);
- Completion of certified nursing assistant (CNA) training.
  - Applicants must complete CNA training prior to the first day of class.
- Current American Heart Association Basic Life Support (BLS) certification is required prior to the first day of class. Preference is given to those certified at the time of admission consideration.
Second Degree BSN Non-Academic Admission Considerations

The order of the following considerations does not indicate any given priority of consideration in the admission decision. All factors are considered relevant.

- Rationale for interest in nursing as a professional career choice
- Work history and experience
- Permanent resident of TTUHSC service area
- First generation college student
- One page resume
- Prior enrollment at Texas Tech University
- Diversity of experience, including proficiency in other languages, knowledge of other cultures, and/or study abroad
- Military service and/or training
- A face-to-face or Zoom interview – Based upon fulfillment of all eligibility requirements as outlined in the School of Nursing Catalog and posted on the SON website, a determination will be made on an offer of an interview. For those invited for an interview, an essay will be required. Professional attire is expected for the interview.

Veteran to BSN Admissions Requirements

All applicants to the Veteran to BSN track must complete an online application as directed on the Veteran to BSN website. All applicants must meet requirements listed below for admission consideration. Joint service transcripts (JST) may be submitted to Texas College Credit for Heroes website and evaluation for consideration of possible awarding of lower division credit. For a JST evaluation go to www.collegecreditforheroes.org/.

Veteran to BSN Academic Requirement

- Active duty will not be accepted to the Accelerated Program (Second Degree BSN or VBSN Track) without verification of an approved conditional release from active-duty services for the duration of the program.
- Health Care Specialist Rating (i.e. medic, corpsman, vocational/practical nurse) while in the service. Individuals separated from the military are required to submit a DD214 showing proof of a medical rating. Reservists and veterans are required to submit either a Joint Services Transcript (JST), https://jst.doded.mil/official.html, or Community College of the Air Force Transcripts, https://www.airuniversity.af.edu/Barnes/CCAF/Display/Article/803247/. All VBSN applicants must submit either a DD214 or a Joint Services Transcript to provide proof of health care training in the military prior to application deadline. To order your DD214, go to the following link: www.archives.gov/veterans/military-service-records/.
- Applicants must complete 59 credit hours (SCH) of general education courses as outlined in the School of Nursing Catalog and posted on the SON VBSN website. At the time of application, students must have completed 40 credit hours (SCHs) of non-nursing prerequisites with proof of enrollment for the remaining prerequisites. Prior to admission offer, applicants must have completed at least three of the five required sciences classes, which include Pathophysiology, Microbiology, Anatomy and Physiology I, Anatomy and Physiology II, and Chemistry. All prerequisites must be completed prior to the first day of classes;
- Minimum overall cumulative GPA of 2.5; preference for overall cumulative GPA of 3.0 or higher;
- Preference for science GPA of 3.0 or higher in required science courses including Chemistry, Anatomy and Physiology I & II, Microbiology, and Pathophysiology;

Veteran to BSN Non-Academic Admission Considerations

The order of the following considerations does not indicate any given priority of consideration in the admission decision. All factors are considered relevant.

- Documentation of recent health care experience (within the past three years), either in the military or as a healthcare professional
- Submission of current American Heart Association Basic Life Support (BLS) certification prior to first day of class
- Rationale for interest in nursing as a professional career choice
- Work history and experience
- Permanent resident of a TTUHSC service area
• Status as a Texas resident or documented willingness to relocate
• Active reservists must provide signed letter (Attachment A) from reserve commanding officer indicating allowance to participate in program with completion to two-week annual training prior to and after VBSN track (SON OP 60.125)
• Active duty applicants will not be accepted to the Accelerated BSN Program (Second Degree BSN or VBSN Tracks) without verification of an approved conditional release from active-duty services for the duration of the program.
• First generation college student
• One page resume
• Prior enrollment at Texas Tech University
• Diversity of experience, including proficiency in other languages, knowledge of other cultures, and/or study abroad
• A face-to-face or Zoom interview – Based upon fulfillment of all eligibility requirements as outlined in the School of Nursing Catalog and posted on the SON website, a determination will be made on an offer of an interview. For those invited for an interview, an essay will be required. Professional attire is expected for the interview.

Additional Requirements for Prospective ABSN Students

NCLEX-RN Examination Eligibility
See NCLEX-RN Examination Eligibility under the Eligibility Requirements section of this catalog.

Tuition for Repeated or Excessive Undergraduate Hours
See Tuition for Repeated or Excessive Undergraduate Hours under the Financial Information section of this catalog.

Computer Requirements
See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks
See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog.

Drug Screening
Drug screenings may be necessary if required by the clinical institution site. The cost of all drug screens are the responsibility of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

Immunizations
See Immunization Requirements under the Eligibility Requirements section of this catalog.

Special Student Enrollment

Provisional Admission
ABSN applicants who do not meet one or more of the program specific admission requirements may be considered for provisional acceptance by the admissions committee, which reviews applications for provisional acceptance after the conclusion of the admissions deadline. Offers of admission are offered as space permits. Provisional admission is an option for Accelerated VBSN active duty members seeking verification for officer promotion purposes if released from active duty service to attend the one year Accelerated BSN Program.

Conditional Admission
If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying for. Failing to do so will result in retraction of the offer. Examples of conditional admission are as follows but not limited to:

- Baccalaureate degree completion confirmation (Student graduating in current semester and verification is not available until the end of the semester. Applicable to the Accelerated Second Degree BSN only.)
- Certified Nursing Assistant (CNA) certification confirmation (Student will not have verification until after admission process is over but before the semester of admission begins. Applicable to the Accelerated Second Degree BSN only.)
- Basic Life Support (CPR/AED) training from the American Heart Association and medical terminology completion confirmation
- Prerequisite course(s) completion confirmation (student will not have verification until after admission process is over but before the semester of admission begins)

**Readmission**

All requests for readmission must be made no later than two (2) months prior to the first day of the semester in which readmission is requested. The Accelerated BSN Program Council is responsible for overseeing all readmission requests via the Admissions and Progressions Committee. A student who left in good standing and seeking readmission shall complete and submit a readmission application showing the expected entry point to the program’s student affairs coordinator. The coordinator will notify the chair of the Admissions and Progressions Committee of the request for readmission along with providing the most current transcript, and a summary of the circumstances of the student’s withdrawal, if known.

A student who left with a record not in good standing (academic or disciplinary causes) must complete and submit a readmission application to the program’s admissions coordinator along with a letter explaining the circumstances resulting in the withdrawal/dismissal and the plan to improve or correct performance if offered readmission. The appropriate student affairs coordinator will forward the application, the letter, any observations regarding academic performance and behavior during prior enrollment at the School of Nursing, and any available academic records including the most recent transcript to the chair of the Admissions and Progressions Committee. The Admissions and Progressions Committee shall review all such requests and may take one of the following actions regarding readmission of a student:

1. eligible and admit,
2. eligible pending space availability in nursing courses and in sequence to date of action in relation to other readmission applicants,
3. not eligible.

The Admissions and Progressions Committee may assign requirements to be met as a condition of enrollment, i.e. readmission on a part-time degree plan.

Veterans who are unable to complete a semester due to having been called to active duty may be “readmitted and re-enrolled as a student without penalty or redetermination of admission eligibility within two years following release from the state or federal active military service. If student does not seek readmission within two years of active service, the student will be required to complete admissions process to determine eligibility”. (See TTUHSC Operating Policy 77.16, Military Service for additional considerations.)

**Transfer Admission**

All requests for transfer to TTUHSC School of Nursing from a different School of Nursing must be made no later than two months prior to the first day of the semester in which transfer admission is requested. The minimum cumulative GPA for transfer admission consideration is 3.0. A student seeking transfer completes an online application showing the expected entry point. The criteria considered for transfer are the same as those criteria considered for a new admission. In addition, the transfer student must submit a letter of standing from the dean or department chair of the School of Nursing previously attended. Veteran to BSN students may be required to meet additional criteria specific to military service.

**Transfer of Credit**

Course equivalencies for transfer credit are assessed based upon the catalog course description or the course syllabus. Courses of equivalent course content must be completed with the grade of “C” or higher to be considered as well as be earned at an institutions of higher education accredited by a recognized accrediting agency at the time the course credit is awarded. Transcripts will only be
accepted from educational institutions accredited by regional and professional accrediting agencies approved by the US Department of Education.

Special Student Enrollment
Under certain circumstances, it may be appropriate for an individual to seek admission as a special non-degree seeking student. This admission is for the purpose of taking a limited number of courses for one semester only. It is not an avenue for seeking a degree. The individual must receive approval from the Accelerated BSN Admissions and Progressions Committee for enrollment.

Enrollment without Credit/Course Audit
Students who wish to audit a course for no grade must obtain approval from the Associate Dean/Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student’s transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee.

Accelerated BSN Program Prerequisite Course Requirements
The prerequisite course requirements listed below should be completed with a grade of "C" or higher in each course prior to enrollment in the first nursing course. These requirements as detailed in the table below include a total of 55 semester credit hours (Second Degree BSN) or 59 semester credit hours (Veteran to BSN) and can be taken at any regionally accredited college or university. A maximum of 15 credit hours can be earned via credit by examination.

The prerequisite courses listed in the following table for the Accelerated BSN Program also incorporates the 42 hours of the Texas Tech University Health Sciences Center Core Curriculum for undergraduate nursing degrees. See Core Curriculum Requirements under the Eligibility Requirements section of this catalog to review the Texas Core Curriculum requirements.

Important Information about Prerequisite Course Requirements
- Pass/Fail grades are not accepted for credit toward degree requirements.
- An exception can be made for military courses that do not have a grade designation based on the College Credit for Heroes program, which maximizes college credit awarded to veterans and service members for military experience.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, the credits excluded are not eligible for prerequisite course consideration and must be retaken for credit. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.

The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program), or advanced placement examination for which credit with the grade of "C" or higher has been awarded and posted on an official transcript from an accredited college or university when determining completion of prerequisite non-nursing course requirements. All general education courses must be completed prior to beginning the nursing curriculum.

- *Elective is only required for Veteran to BSN applicants.
- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. Students who take math statistics will simultaneously meet the requirements for the nursing prerequisite and the core curriculum. Students, who take any other statistics course as the nursing prerequisite, must also take an upper level mathematics course in order to meet the core curriculum requirement.
- All courses are considered prerequisite to admission and beginning first semester of nursing course work.

**Offer of Admission**

Offers of admission will be made electronically by the Accelerated BSN Programs Admissions and Progressions Committee approximately eight weeks following the application deadline. Applicants are required to respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a $175 nonrefundable placement guarantee/orientation fee, as well as a signed response form accepting the offer. Failure to respond by the deadline results in withdrawal of the offer of admission.

**Second Bachelor’s Degree**

A second bachelor’s degree will not be conferred until the candidate has completed at least 24 semester hours—exclusive of credit by examination—in addition to the courses counted toward the first bachelor’s degree. A second bachelor’s degree sought by a student who did not complete the core curriculum at a public Texas institution of higher education must include the Texas Tech University Health Sciences Center required core curriculum.
Degree Requirements for Students Admitted to an Accelerated Program

Graduation under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen degree or area of study. Only with the specific approval of the Non-Traditional Undergraduate Associate Dean/Department Chair may a different Catalog be selected. Students, in all cases, are prohibited from completing the requirements set forth in a catalog more than seven years old. The School of Nursing Catalog is published at least biennially and its provisions are applicable during the following academic year (September 1 through August 31).

Minimum Academic Requirements

A student must earn a 2.0 in each course in the required curriculum and maintain an overall semester and cumulative GPA of 2.0 or greater. The School of Nursing Student Handbook provides further details regarding academic and graduation expectations. Pass/Fail grades are not accepted for credit toward degree requirements except courses where credit is awarded to VBSN students for prior learning credits through successful demonstration of competency.

Maintaining Minimum Academic Requirements

- Maintain a 2.0 GPA for each semester and overall cumulative
- A minimum grade of "C" in all nursing (degree required) courses is required.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation.

Academic Dismissal

- Any student who is unsuccessful (achieves a grade of "D" or "F" or "WF") in any single course will be dismissed from the School of Nursing and the University.

Comprehensive Exams

In the Accelerated BSN Programs the comprehensive exams are included in the overall assessment of student knowledge in NURS 4325 - Synthesis of Conceptual Nursing Knowledge.

Residence Credit

The minimum actual residence credit required of each undergraduate student is 30 hours at TTUHSC, including the final 15 hours in nursing courses taken for a grade. The remaining hours may include transfer credit and correspondence course work. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with "residence" in the State of Texas for tuition purposes.

Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required.

The Accelerated BSN Programs enrollment in 12 or more credit hours per semester (6 or more credit hours in each summer session, or 12 or more credit hours in a full summer session) constitutes full-time enrollment. The number of semester credit hours a student may carry (course load) is regulated by the Non-Traditional Undergraduate Associate Dean/Department Chair. In determining course load, the Non-Traditional Undergraduate Associate Dean/Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved.

The Second Degree BSN students are required to complete 55 hours of non-nursing courses and 61 hours of nursing courses during
the entire program, totaling 116 credit hours.

The Veteran to BSN students are required to complete 59 hours of non-nursing courses and 61 hours of nursing courses during the entire program, totaling 120 credit hours.

# Accelerated BSN Program Degree Plan

The degree plans are approved by the faculty and is provided to the student as part of an online student affairs orientation. The program’s student affairs coordinator will work with students to revise a degree plan based on a student’s ability to successfully progress through the Curriculum. A revised degree plan needs to be approved by the Non-Traditional Undergraduate Associate Dean/Department Chair. Course enrollment may be limited based on available resources, including but not limited to, availability of clinical sites within the community. When necessary, methods for limiting enrollment will be determined by the Non-Traditional Undergraduate Associate Dean/Department Chair.

All pre/corequisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

**Total Semester Hours**: 20

**Total Credit Hours**: 61

Students must earn 61 total credit hours (TCH) to complete the program requirements toward the awarding of a degree of Bachelor of Science in Nursing (BSN). TCH can be earned through successful completion of 48 semester credit hours (SCH) in traditional program courses and up to 12 prior learning credits (PLC) by successful demonstration of competency in the courses indicated by "+". PLC may be awarded in NURS 3327, NURS 3415, and NURS 4321. PLCs may only be awarded to students enrolled in the Veteran to BSN track.

**KEY:**
- Courses are listed in numerical order
- (F) Face-to-face
- (O) Online
- (H) Hybrid (combination of face-to-face and online)
- (CL) Concurrent enrollment in a Clinical Section is required
- (#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week
- * Elective Courses are offered at select times as faculty and interest are present
- (V) Variable Credit

### Accelerated BSN Program Course Descriptions

**NURS 3213 Evidence-Based Nursing Concepts (2:2:0,O)** This course introduces evidence-based practice and the basic principles of the research process. Emphasis is on the process of generating, synthesizing, translating, applying, and disseminating nursing knowledge to improve health and transform health care. Pre-requisite: None Co-requisite: All first semester courses.

**NURS 3327 Health Promotion Concepts (3:3:0,O)** This course introduces the concepts of health promotion and maintenance across the lifespan to establish holistic, individualized, developmentally appropriate person-centered care. This includes a focus on physiologic changes, maintaining functional capacity, and access to health care. Content will focus on respect for diversity, differences, preferences, values, needs, resources, and the determinants of health unique to the individual. Emphasis will be placed on foundational concepts to improve quality of life through routine wellness assessment, advocacy, and education resulting in risk reduction and disease prevention across the lifespan. Pre-requisite: None Co-requisite: All first semester courses.

**NURS 3328 Mental Health Nursing Concepts (3:3:0,O)** This course emphasizes the concepts of mental health including altered states and pathological processes associated with mental health disorders. The focus is on person-centered care approaches to promote optimal mental health of patients, including families and/or important others, experiencing varying states of mental health utilizing evidence-based standards. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 4715 Experiential Learning II. Pre-requisite: All first semester courses. Co-requisite: All second semester courses.

**NURS 3335 Perinatal Nursing Concepts (3:3:0,O)** This course emphasizes the concepts of perinatal nursing related to the safe delivery of evidenced-based care to childbearing families throughout the antepartum, intrapartum, postpartum, and newborn experience. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 4715 Experiential Learning II. Pre-requisite: All first semester courses. Co-requisite: All second semester courses.

**NURS 3338 Community and Public Health Nursing Concepts (3:3:0,O)** This course emphasizes the concepts of community and public health essential for professional nursing practice. Epidemiology and disease transmission, comprehensive assessment of risk factors and health problems, program planning...
various levels of fidelity of simulation and evaluation by formative/summative examination are implemented. Pre-requisite: All first semester courses. Co-requisite: All second semester courses.

NURS 3555 Fundamental Nursing Concepts (5:5:0,0) This course introduces the foundations of nursing as a systems-based practice to provide safe, quality, equitable care to diverse populations. Using evidence-based practice, the skills of health assessment, communication, and select nursing skills are explored. Select standards of nursing care an introduction to the professional nursing role will inform safe use of these skills. Clinical reasoning is introduced as the foundational basis for providing patient-centered care, recognizing shared commonalities and uniqueness of a patient’s health such as age, gender, race, ethnicity, culture, lifestyle, socio-economic class, and sexual orientation. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 3610 Experiential Learning I. Pre-requisite: None Co-requisite: All first semester courses.

NURS 3610 Experiential Learning I (6:0:18,H) This course introduces the application of foundational knowledge, skills, and values central to evidence-based professional nursing. The course integrates knowledge from foundational concepts, health promotion, and pharmacology for the delivery of evidence-based person-centered care. Select nursing skills, health assessment, medication administration, and standards of professional nursing care are included. Knowledge is applied within the simulation and clinical setting to develop mastery of designated nursing skill competencies. Various levels of fidelity of simulation and evaluation by formative/summative examination are implemented. Pre-requisite: None Co-requisite: All first semester courses.

NURS 4321 Leadership Concepts in Nursing (3:3:0,0) This course focuses on responding to and leading within complex systems of health care. The nurse’s role as a leader, manager, and member of the interprofessional team are emphasized. Quality and process improvement, conflict resolution, care coordination, and related concepts and theories are explored. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 4615 Experiential Learning III. Pre-requisite: All first and second semester courses. Co-requisite: All third semester courses.

NURS 4323 Child Health Nursing Concepts (3:3:0,0) This course emphasizes the concepts of child health related to the safe delivery of evidence-based nursing care. The focus is on growth and development, health promotion, alterations in health, the role of the nurse, and coordination with the interprofessional team. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 4615 Experiential Learning III. Pre-requisite: All first and second semester courses. Co-requisite: All third semester courses.

NURS 4325 Synthesis of Conceptual Nursing Knowledge (3:3:0,0) This course emphasizes the integration and application of a broad knowledge base to demonstrate clinical judgment. Conceptual knowledge is analyzed to identify and address areas needing enhanced understanding. Emphasis is on demonstrating content mastery to promote the successful transition of the student nurse into the professional role. Pre-requisite: All first and second semester courses. Co-requisite: All third semester courses.

NURS 4515 Advanced Nursing Concepts (5:5:0,0) This course emphasizes chronic care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on the concepts of aging, health promotion, disease prevention, genetics, and illness management. Clinical judgment, reasoning, and select nursing skills are developed in the context of evidence-based chronic care. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 4715 Experiential Learning II. Pre-requisite: All first semester courses. Co-requisite: All second semester courses.

NURS 4530 Complex Nursing Concepts (5:5:0,0) This course emphasizes acute care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on complex disease management including environmental factors, genetic risks, and preventive care using a collaborative approach. Clinical judgment, reasoning, and select nursing skills are strengthened in the context of evidence-based acute care. Knowledge is applied and evaluated in the clinical and simulation setting in the co-requisite clinical course, NURS 4615 Experiential Learning III. Pre-requisite: All first and second semester courses. Co-requisite: All third semester courses.

NURS 4615 Experiential Learning III (6:0:18,H) This course strengthens clinical judgment and reasoning through the application of complex decision-making essential for professional nursing practice in a variety of settings. The course integrates knowledge from complex concepts, child health, and leadership nursing for the delivery of evidence-based person-centered care. Knowledge is applied within the simulation and clinical setting to develop mastery of designated nursing skill competencies. Various levels of fidelity of simulation and evaluation by formative/summative examination are implemented. Pre-requisite: All first and second semester courses. Co-requisite: All third semester courses.

NURS 4715 Experiential Learning II (7:0:21,H) This course develops clinical judgment and reasoning through the integration of therapeutic nursing skill concepts essential for professional nursing practice in a variety of settings. The course integrates knowledge from advanced concepts, community health, mental health, and perinatal nursing for the delivery of evidence-based person-centered care. Knowledge is applied within the simulation and clinical setting to develop mastery of designated nursing skill competencies. Various levels of fidelity of simulation and evaluation by formative/summative examination are implemented. Pre-requisite: All first semester courses. Co-requisite: All second semester courses.
Master of Science in Nursing (MSN) Program

Julie Kuzin, MSN, RN, CPNP-PC/AC
Assistant Professor, Program Director, Pediatric Nurse Practitioner (Primary and Acute Care) Tracks

Tara Hilliard, PhD, APRN, ACNP-BC
Associate Professor, Program Director, Adult-Gerontology Acute Care Nurse Practitioner Track

Purpose

The purpose of the Master of Science in Nursing Program is to prepare the graduate to practice nursing within an expanded role. In synthesizing a clinical and functional focus, the graduate assumes an encompassing perspective of practice, service, research, and education.

MSN Student Learning Outcomes

Upon program completion, the MSN graduate will have the preparation to:

- Provide person-centered care in the master’s prepared nursing role.
- Work in interprofessional teams to address the needs of patients using master’s prepared nursing role skills.
- Employ evidence-based practice (EBP) by integrating the best research evidence into the master’s prepared nursing role.
- Apply quality improvement as a master’s prepared nurse.
- Utilize information in the master’s prepared nursing role to reduce errors, manage knowledge and information, make decisions, and communicate effectively.
- Integrate best practices in implementation of master’s prepared nursing roles to ensure safety and risk reduction for patients and populations.
All MSN students regardless of program or site will meet the above objectives. The MSN educational program delivery is accomplished by a combination of on campus classes/simulated clinical and web-based technologies.

**Leadership Program Overview**

**Administration Track**
The MSN with a nursing administration focus prepares students to assume nursing leadership and management positions in a variety of health care settings. Students must have a BSN as the minimum RN preparation for admission to the MSN in nursing administration track. Students complete the program via on-line courses and practicum experiences.

**Education Track**
The MSN with a nursing education focus prepares students to assume a career as a nurse educator within a school of nursing or as a clinical educator in a healthcare setting. Students must have a BSN as the minimum RN preparation for admission to the MSN in nursing education track.

**Nursing Informatics (NI) Track**
The Master of Science in Nursing (MSN) in Nursing Informatics (NI) track was the first NI masters offered by a Texas-based university. This program fills a critical gap in advanced nursing education and prepares nurses for the many existing and emerging NI roles. The education provided covers a broad spectrum of informatics-based theories and skills, with emphasis on the following, but not limited to:

- Data and standards management
- Data analytics
- Clinical decision support
- Public health informatics
- Telehealth and remote patient monitoring
- Electronic health record evaluation and optimization
- Systems development life cycle and workflow assessment methods
- Evaluating innovative technologies and digital solutions for clinical care

Students must have a BSN as the minimum RN preparation for admission to the MSN in Nursing Informatics track.

**Advanced Practice Registered Nurse (APRN) Program Overview**

An APRN is a registered nurse who completed a graduate degree or postgraduate program that provided preparation to practice in one of the four advanced practice nursing roles (i.e., nurse practitioner, nurse midwife, nurse clinical specialist, or nurse anesthetist). Preparation includes the advanced knowledge and skills to provide direct patient care in the health promotion and health maintenance of individuals.

All students must have a BSN as the minimum RN preparation for admission to the MSN and DNP APRN tracks. All APRN programs must meet the educational requirements and standards for professional certification. Nurse Practitioner programs meet the Criteria for Evaluation of Nurse Practitioner Programs as outlined by the National Task Force on Quality Nurse Practitioner Education (NTF). The NTF is available at [https://cdn.ymaws.com/www.nonpf.org/resource/resmgr/2022/ntfs_/ntfs_final.pdf](https://cdn.ymaws.com/www.nonpf.org/resource/resmgr/2022/ntfs_/ntfs_final.pdf) . Nurse Midwifery programs must meet the educational criteria set by the Accreditation Commission for Midwifery Education (ACME).

Upon completion of course requirements, graduates of the master’s and post-graduate tracks are eligible to sit for one or more of the following certification exams:

- Pediatric Nursing Certification Board (PNCB) Exam (PNP, both Acute care and Primary care)
- American Nurses Credentialing Center (ANCC) Exam (AGACNP, FNP, PMHNP)
- American Academy of Nurse Practitioners Certification Program (AANPCP) (FNP)
Adult-Gerontology Acute Care Nurse Practitioner (AGACNP) Track
Prepares graduates to assume responsibilities for promoting, maintaining, and restoring health to acutely, chronically, complexly, or critically ill adults. The patient population includes young adults, adults, and older adults. Patient care needs and not the setting determine the scope of practice.

Family Nurse Practitioner (FNP) Track
Prepares graduates to assume a primary care provider role for the population of the family across the lifespan (infants, children, adolescents, adults, and older adults). FNPs practice in variety of settings including urban, rural, and underserved areas. Patient care needs and not the setting determine the scope of practice.

Nurse Midwifery Track
Prepares graduates to provide women’s health care across the reproductive life cycle and beyond, as well as their newborns for the first month of life, in accordance with the standards of the American College of Nurse-Midwives (ACNM).

Pediatric Acute Care Nurse Practitioner (PNP-AC) Track
Prepares graduates to assume an acute care provider role designed to meet the specialized physiologic and physiological needs of children in the areas of health maintenance and promotion, and assessment and management of disease processes.

Pediatric Primary Care Nurse Practitioner (PNP-PC) Track
Prepares graduates to assume a primary care provider role for children, adolescents, and young adults in multiple health care delivery settings including rural and underserved areas. Patient care needs, and not the setting, determine the scope of practice.

Psychiatric Mental Health Nurse Practitioner (PMHNP) Track
Prepares graduates to assume an advanced care provider role in providing the full range of psychiatric services including the delivery of primary, acute and consultative mental health care services throughout the lifespan.

MSN Admission Information
All applicants are selected on a composite evaluation of past academic achievement, personal essay, career achievements, and references. Although the materials required for admission consideration vary from one program to another, the general qualities considered are:

- Academic performance and aptitude
- Ability to perform capably in positions of responsibility for self and others
- Potential for leadership in the advanced nursing role

The applicant electronically signs the application certifying the application is accurate and complete and he/she understands falsification of an application is cause for non-acceptance or dismissal.

All coursework leading to a baccalaureate degree including courses taken for grade replacement are used in computing the grade point average for admission purposes.
All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission. Only complete submitted applications are reviewed for admission consideration.

### MSN Application Dates

### MSN Application Deadlines

Consideration for admission is given to applicants who meet all admission criteria and have submitted ALL admission requirements by the application deadline. **NOTE: The MSN Program does not admit students for the summer semester. The PMHNP BSN to MSN track accepts students once a year for the spring semester.**

### Admissions Requirements - MSN

All applicants must complete and submit an online application as directed on the MSN website. All applicants must meet requirements listed below for admission consideration:

- Valid unencumbered RN License
- Baccalaureate nursing degree (BSN) from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).
  - Applicants with a transcript(s) from a foreign university (ies) are to submit a Commission for Graduates of Foreign Nursing Schools (CGFNS) evaluation of their transcript(s). See International Applicants under the Eligibility Requirements section of this catalog for more information.
- Completion of undergraduate courses in research and statistics with a grade of C or better.
- A minimum GPA of 3.0 (4.0 scale) for all course work leading to the baccalaureate degree.
  - The undergraduate science courses GPA may be considered as a factor for admission.
- Personal Statement/Essay/Track specific essay questions (maximum of 500 words)
- Current Basic Life Support (BLS) certification for the Healthcare Provider from the American Heart Association or the American Red Cross.
- Professional letters of reference (3). Two letters from nurse managers or professional mentors and one letter from a former faculty member or other health care professional attesting to the applicant's professional and academic abilities and potential for success in a graduate program.
- Individuals who obtained their nursing education outside of the United States are not eligible for admission unless their nursing program was accredited by the CCNE or ACEN. (See above)
- Official transcript for the BSN plus transcripts for all undergraduate courses including undergraduate research and statistics courses if not included on the BSN transcript. (NOTE: all transcripts must be from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE), or from the American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).
- Computer Literacy; defined as an understanding of the capabilities and limitations of a computer and how to use them wisely within clinical workflow and for scholarly work. Applicants must complete the TTUHSC SON Computer Literacy Test located at http://nursing.ttuhsedu/skills prior to applying.

### Additional MSN Admissions Requirements - Track Specific

<table>
<thead>
<tr>
<th>Administration Track (Leadership Studies)</th>
<th>• Must have one (1) year of RN experience prior to application submission.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Response to Track specific essay questions.</td>
</tr>
</tbody>
</table>
- If requested, selected applicants may be scheduled for interviews.
- NOTE: All MSN-MBA Track students apply through the Administration Track first, and during the first Spring semester, are notified to apply to the MSN-MBA Track.

<table>
<thead>
<tr>
<th>Track</th>
<th>Requirements</th>
</tr>
</thead>
</table>
| **Adult-Gerontology Acute Care Nurse Practitioner Track (AGACNP)** | Must have at least one (1) year of RN experience in an intensive care, flight nursing, or emergency department setting within the past (5) years.  
- Response to Track specific essay questions.  
- If requested, selected applicants may be scheduled for interviews. |
| **Family Nurse Practitioner Track (FNP)**           | Must have one (1) year of RN experience prior to application submission to the FNP track.  
- Response to Track specific essay questions.  
- If requested, selected applicants may be scheduled for interviews. |
| **Pediatric Primary and Acute Care Nurse Practitioner Tracks (PNP)** | Required to have two (2) years of RN pediatric experience prior to application. For applicants to the PNP Acute Care track, RN pediatric experience in critical care, ER, or acute care is preferred.  
- Response to Track specific essay questions.  
- If requested, selected applicants may be scheduled for interviews. |
| **Nurse Midwifery Track (NMW)**                     | Preferred applicants have at least one (1) year labor and delivery experience or comparable OB clinical experience within the last five (5) years prior to admission.  
- Response to Track specific essay questions.  
- Reference letters are to be from supervisors, Certified Nurse Midwives (CNMs), OB-GYNs, former faculty, or professional mentors and should address the applicant’s leadership, academic, and critical reasoning abilities.  
- Participation in a personal interview with faculty upon invitation. |
| **Nursing Informatics Track (Leadership Studies)**  | Experience in nursing informatics or technology (minimum super user experience) is required. Superuser is defined as a nurse with a solid understanding of basic health IT applications, systems, processes.  
- Minimum of two (2) years of clinical experience.  
- Response to Track specific essay questions.  
- If requested, selected applicants may be scheduled for interviews. |
| **Nursing Education Track (Leadership Studies)**    | If selected, participate in an interview with faculty.  
- Response to Track specific essay questions. |
| **Psychiatric Mental Health Nurse Practitioner Track (PMHNP)** | Participate in a personal interview with faculty if selected for an interview.  
- Critical Analysis Essay. |
Non-Academic Considerations (MSN) – include but are not limited to:

- Evidence of leadership in nursing (Professional organizations, committees, etc.)
- Potential for leadership in an advanced role as evidenced by reference letters.
- Professional nursing work experience.
- Diversity of work or life experience (For example: experience with other cultures, study/travel/work abroad, community service, military service, degree in other field, volunteerism, or other related extracurricular activities).
- Curriculum vitae/resume which includes educational background, honors, nursing experience, professional membership(s), leadership roles, research, presentations, and community service.
- Permanent resident of Texas or TTUHSC service area/county or TTUHSC campus location.
- Fluent in a language in addition to English that is frequently used by patients in the applicant’s service area.

IMPORTANT NOTE FOR APPLICANTS WHO ATTENDED A COLLEGE OR UNIVERSITY IN SPRING 2020

An explanation of how TTUHSC School of Nursing considers courses in which a student earns grades of Pass (P), Fail (F), Credit (CR) or No Credit (NC) is outlined below:

Official transcripts with courses awarded with P or CR during the SPRING 2020 semester can be used to meet prerequisite course requirements and will not be used in calculating either the cumulative or science GPA for admissions. TTUHSC SON reserves the right to determine how, and if, courses awarded with P or CR during any semester, outside of spring 2020, will be calculated into a GPA and/or considered for transfer credit. Official transcripts with courses awarded with a Fail (F) or No Credit (NC) during any semester cannot be used to meet prerequisite course requirements.

Additional Requirements for Prospective Students

Computer Requirements

See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks

See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog.

Immunizations

See Immunization Requirements under the Eligibility Requirements section of this catalog.

Drug Screening

Drug screenings may be necessary if required by the clinical institution site. The cost of all drug screens are the responsibility of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

Special Student Enrollment

Non-Degree

Special Student Enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. Non-degree Special Student admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the applicable Graduate Associate Dean/Department Chair prior to submitting a special student (non-degree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master’s nursing program at a college or university and in good academic standing;
Registered nurse with a BSN not enrolled in an educational institution; or
Waiver to the above requirement from the applicable Graduate Associate Dean/Department Chair.

In addition to meeting admission criteria, consideration to non-degree seeking students is given on a space available basis. A complete Special Student (non-degree) application includes the following:

- Submitted special-student application
- Submitted signature page
- Submitted Oath of Residency
- Submitted current Basic Life Support (BLS) certification for the Healthcare Provider from the American Heart Association or the American Red Cross.

Special students can take a maximum of six (6) credit hours. A special student wishing to apply for full admission to one of the Graduate Department programs must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

**Enrollment without Credit/Course Audit**

Students wanting to audit a course for no grade must obtain approval from the applicable Graduate Associate Dean/Department Chair. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

**Conditional Admission**

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with "conditions" stated in the letter of admission offer prior to the first day of class for the semester the student is applying. Examples of conditional admission include, but are not limited to, the following:

- BSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- MSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- Leveling courses may be required per the MSN Program Council

**Readmission**

All requests for readmission must be made prior to the application deadline for the semester in which readmission is requested. The applicable Graduate Associate Dean/Department Chair and Program Directors are responsible for overseeing all readmissions to the School of Nursing MSN Programs. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is also based upon the decision of the applicable Graduate Associate Dean/Department Chair and Program Directors.

A student seeking readmission must comply with the following:

- Submit a letter requesting readmission to the Graduate Program
- Meet all recommendations and requirements set forth by the applicable Associate Dean/Department Chair and Program Directors
- Complete online application and meet admission criteria for full admission

**Student Transfers from Other Educational Institutions**

Students requesting admission to the TTUHSC SON graduate programs as a transfer student from another college or university must meet the following criteria:

- Eligible to return to the institution from which the student is transferring
• Complete a full application to the applicable MSN program by the deadlines specified for the semester of transfer to TTUHSC.

• A student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit.

• Complete the majority or over 50% of the required credits to complete the degree at TTUHSC School of Nursing.

Recognition of Previous Nursing Learning

Transfer Credit

The decision to award transfer of academic credit is made by the applicable Graduate Associate Dean/Department Chair and/or Program Director after a thorough review of the applicant’s transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on TTUHSC OP 77.17. Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of “B” or higher has been earned in the course. The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC.

PLEASE NOTE: Courses previously taken as Pass-Fail will not transfer for credit if the course is required for a School of Nursing Degree unless approved by the applicable Graduate Associate Dean/Department Chair and/or Program Director.

Students requesting courses to be considered for transfer credit will:

• Submit official transcripts for courses considered for transfer credit

• Submit course descriptions and course content for each course

Credit accepted for transfer and applied to the student’s degree program will appear on the TTUHSC transcript under the name of the institution where the student completed the course. Transfer credit will not alter a student’s TTUHSC Grade Point Average.

A student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

Offer of Admission

Offers of admission will be made approximately six - eight weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:

• Applicants must respond to the offer of admission no later than the deadline stated in the letter offering admission

• Submit $175 non-refundable placement/orientation fee

• Complete Criminal Background Check online

• Submit evidence of compliance with required immunizations

• Complete Sexual Harassment training online and submit certificate of completion

• Complete required trainings as specified during orientation

• Failure to respond to the admissions offer by the date specified in the offer letter may result in withdrawal of the offer of admission.

• All students admitted to the MSN Program are required to attend a mandatory orientation prior to the first semester of enrollment.

Degree Requirements for Students Admitted to the Graduate Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the applicable Graduate Associate Dean/Department Chair or Program Director may a different Catalog be selected. Students, in all cases, are prohibited from completing the requirements set
Maintaining Minimum Academic Requirements
The minimum GPA for continuance in the Graduate Programs is 3.0 overall. Additionally, a minimum grade of "B" is required in each course (nursing) required for degree completion. The TTUHSC School of Nursing Student Handbook provides further details regarding academic and graduation expectations.

Requirements for Progression towards the MSN Degree
- Grades are reviewed each semester and progression in the Graduate Program is determined by the applicable Graduate Associate Dean/Department Chair and/or MSN Program Director.
- MSN students are required to maintain a 3.0 GPA with grades at "B" or above in all graduate courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving "C" or lower in a graduate course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

Academic Dismissal from the School of Nursing MSN Program will result from the following circumstances:
- Students earning a "C" or lower in two or more graduate courses in one semester.
- Students earning a "C" or lower in the same nursing course twice.
- Students earning a "C" or lower in a second graduate course even though one graduate courses has been retaken and a satisfactory grade of "B" or better has been obtained.
- Cumulative semester or cumulative GPA less than 2.0 for two consecutive semesters

Failing to meet expected standards in any program may result in academic dismissal at any time.

Residence Credit
The minimum residence for the post-graduate degree is the majority, or over 50%, of graduate course work carrying residence credit must be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with "residence" in the State of Texas.

Majority of Credits
The majority or over 50% of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned:
- At TTUHSC
- In the case of those programs offered through joint, cooperative, or consortia arrangements through instruction offered by the participating institutions.

Semester Credit Hours and Course Loads
The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis for nursing education and informatics tracks; clinical hours are measured on a one-to-four basis for the nursing administration track. For nurse practitioner and nurse midwifery clinical courses, clinical hours are measured on a one-to-3.5 basis. Approximately two hours in preparation for each hour of lecture/didactic and an appropriate amount of time for preparation for clinical activities are required. The number of semester credit hours a student may carry (course load) is regulated by the applicable Program Director. In determining this load, the applicable Program Director takes into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in nine (9) or more credit hours in the Fall or
Degree Plan

- Upon initial enrollment into the TTUHSC Graduate Programs, each student is provided with a degree plan, individualized according to their program of study. The student’s individual needs and circumstances are considered when developing the degree plan.
- The applicable Program Director for the program in which the student is enrolled is responsible for approving the degree plan.
- Students are responsible for notifying the applicable Graduate Program office to discuss changes to the degree plan.
- During orientation to the applicable Graduate Program, students are advised about the requirements for their specific track or major and their responsibility to (a) be knowledgeable about their degree requirements; and (b) meet degree requirements for graduation.
- The degree plan serves as the student’s guide for course registration each semester.
- Degree plans for post-graduate students will be individualized based on the previous course work and requirements.

TTUHSC Interprofessional Practice and Education (IPE) Core Curriculum
All TTUHSC students, regardless of school affiliation, are required to complete the IPE core curriculum prior to graduation. The IPE core curriculum is composed of two components including successful completion of a non-credit online course (>70% accuracy on the knowledge post-test) and successful participation in at least one registered IPE learning activity. Failure to complete the IPE core curriculum will result in delayed graduation. Students should consult their academic/program advisor and/or school catalog for additional information.

Course Requirements
The following course requirements reflect the basic needs for each track in the MSN program. The plans should only serve as an overview of a basic course schedule of a full-time student and it will vary depending on each student’s ability to progress through the program.

Purpose

The purpose of the Master of Science in Nursing Program is to prepare the graduate to practice nursing within an expanded role. In synthesizing a clinical and functional focus, the graduate assumes an encompassing perspective of practice, service, research, and education.

MSN Post-Graduate Student Learning Outcomes

Upon program completion, the MSN Post-Graduate will have the preparation to:

- Provide person-centered care in the master’s prepared nursing role.
- Work in interprofessional teams to address the needs of patients using master’s prepared nursing role skills.
- Employ evidence-based practice (EBP) by integrating the best research evidence into the master’s prepared nursing role.
- Apply quality improvement as a master’s prepared nurse.
- Utilize information in the master’s prepared nursing role to reduce errors, manage knowledge and information, make decisions, and communicate effectively.
- Integrate best practices in implementation of master’s prepared nursing roles to ensure safety and risk reduction for patients and populations.

All MSN students regardless of program or site will meet the above objectives. The MSN educational program delivery is accomplished by a combination of on campus classes/simulated clinical and web-based technologies.
Leadership Program Overview

Post-Graduate Education Track
The MSN with a nursing education focus prepares students to assume a career as a nurse educator within a school of nursing or as a clinical educator in a healthcare setting. Students must have a BSN as the minimum RN preparation for admission to the MSN in nursing education track.

Post-Graduate Nursing Informatics (NI) Track
The Post-Graduate Master of Science in Nursing (MSN) Nursing Informatics (NI) Certificate prepares nurses to assume an advanced practice role in nursing informatics. This program fills a critical gap in advanced nursing education to prepare nurses for expanding roles in nursing informatics with emphasis on data and standards management, data analytics, clinical decision support, public health, telehealth, electronic health record evaluation and optimization, systems development life cycle, and evaluating innovative technologies and digital solutions for clinical care. Students must have a BSN as the minimum RN preparation for admission to the MSN NI Post-Graduate Certificate track.

Advanced Practice Registered Nurse (APRN) Program Overview
An APRN is a registered nurse who completed a graduate degree or postgraduate program that provided preparation to practice in one of the four advanced practice nursing roles (i.e., nurse practitioner, nurse midwife, nurse clinical specialist, or nurse anesthetist). Preparation includes the advanced knowledge and skills to provide direct patient care in the health promotion and health maintenance of individuals.

All students must have a BSN as the minimum RN preparation for admission to the MSN APRN tracks. All APRN programs must meet the educational requirements and standards for professional certification. Nurse Practitioner programs meet the Criteria for Evaluation of Nurse Practitioner Programs as outlined by the National Task Force on Quality Nurse Practitioner Education (NTF). The NTF is available at https://cdn.ymaws.com/www.nonpf.org/resource/resmgr/Docs/EvalCriteria2016Final.pdf. Nurse Midwifery programs must meet the educational criteria set by the Accreditation Commission for Midwifery Education (ACME).

Upon completion of course requirements, graduates of the master’s and post-graduate tracks are eligible to sit for one or more of the following certification exams:

- American Nurses Credentialing Center (ANCC) Exam (AGACNP, FNP, PMHNP)
- American Academy of Nurse Practitioners Certification Program (AANPCP) (FNP)
- American Midwifery Certification Board (AMCB) Exam (CNM)
- American Association of Critical Care Nurses (AACN) (AGACNP)
- Certified Professional in Health Information Management (CPHIMS) Exam (NI)
- Certified Nurse Educator Exam (CNE)

Post-Graduate Adult-Gerontology Acute Care Nurse Practitioner (AGACNP) Track
Prepares graduates to assume responsibilities for promoting, maintaining, and restoring health to acutely, chronically, complexly, or critically ill adults. The patient population includes young adults, adults, and older adults. Patient care needs and not the setting determine the scope of practice.

Post-Graduate Family Nurse Practitioner (FNP) Track
Prepares graduates to assume a primary care provider role for the population of the family across the lifespan (infants, children, adolescents, adults, and older adults). FNPs practice in variety of settings including urban, rural, and underserved areas. Patient care needs and not the setting determine the scope of practice.
Post-Graduate Nurse Midwifery Track
Prepares graduates to provide women’s health care across the reproductive life cycle and beyond, as well as their newborns for the first month of life, in accordance with the standards of the American College of Nurse-Midwives (ACNM).

Post-Graduate Psychiatric Mental Health Nurse Practitioner (PMHNP) Track
Prepares graduates to assume an advanced care provider role in providing the full range of psychiatric services including the delivery of primary, acute and consultative mental health care services throughout the lifespan.

Post-Graduate Application and Admission Information
All applicants are selected on a composite evaluation of past academic achievement, personal essay, career achievements, and references. Although the materials required for admission consideration vary from one program to another, the general qualities considered are:

- Academic performance and aptitude
- Ability to perform capably in positions of responsibility for self and others
- Potential for leadership in the advanced nursing role

The applicant electronically signs the application certifying the application is accurate and complete and understands falsification of an application is cause for non-acceptance or dismissal.

All coursework leading to a baccalaureate degree including courses taken for grade replacement are used in computing the grade point average for admission purposes.

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission. Only complete submitted applications are reviewed for admission consideration.

Note: International students with F1 and F2 visa status are not eligible to apply to an online program.

Post-Graduate Application Deadlines
Consideration for admission is given to applicants who meet all admission criteria and have submitted ALL admission requirements by the application deadline. NOTE: Summer applications are accepted for the Post-Graduate Certificate. The PMHNP BSN to MSN track accepts Post-Graduate Certificate students once a year for the spring semester.

Admission Requirements - Post-Graduate Certificate
All applicants must complete and submit an online application as directed on the Post-Graduate website. All applicants must meet requirements listed below for admission consideration:
• Valid unencumbered RN License
• Master of Science in Nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).
• A minimum GPA of 3.0 (4.0 scale) in all graduate level course work.
  • Applicants with a GPA of < 3.0 may be considered on a case by case basis.
• Advanced Cardiac Life Support (ACLS) or Pediatric Advanced Live Support (PALS) certification for FNP or AGACNP tracks
• Personal Statement/Essay (minimum of 500 words)
• Current BLS certification for the Healthcare Provider from the American Heart Association or the American Red Cross.
• Professional letters of reference (3). Two letters from nurse managers or professional mentors and one letter from a former faculty member or other health care professional attesting to the applicant’s professional and academic abilities and potential for success in a graduate program.
• Official transcript for the MSN degree. (NOTE: all transcripts must be from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE), or from the American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).
• Computer Literacy: defined as an understanding of the capabilities and limitations of a computer and how to use them wisely within clinical workflow and for scholarly work. Applicants must complete the TTUHSC SON Computer Literacy Test located at [http://nursing.ttuhsc.edu/skills](http://nursing.ttuhsc.edu/skills) prior to applying.

### Additional Post-Graduate Admission Requirements - Track Specific

<table>
<thead>
<tr>
<th>Track</th>
<th>Requirements</th>
</tr>
</thead>
</table>
| Adult-Gerontology Acute Care Nurse Practitioner Track (AGACNP) | • Must have at least one (1) year of RN experience in critical care within the past (5) years which includes ICU, ER, or flight nursing.  
  • Response to Track specific essay questions.  
  • Participation in a personal interview with faculty upon invitation. |
| Family Nurse Practitioner Track (FNP)      | • Must have one (1) year of RN experience prior to application submission to the FNP track.  
  • Response to Track specific essay questions.  
  • Participation in a personal interview with faculty upon invitation. |
| Nurse Midwifery Track (NMW)                | • Preferred applicants have at least one (1) year labor and delivery experience or comparable OB clinical experience within the last five (5) years prior to admission.  
  • Response to Track specific essay questions.  
  • Reference letters are to be from supervisors, Certified Nurse Midwives (CNMs), OB-GYNs, former faculty, or professional mentors and should address the applicant’s leadership, academic, and critical reasoning abilities.  
  • Participation in a personal interview with faculty upon invitation. |
| Nursing Informatics Track (Leadership Studies) | • Experience in nursing informatics or technology (minimum super user experience) is required. Superusers is defined as a nurse with a solid understanding of basic health IT applications, systems, processes.  
  • Minimum of two (2) years of clinical experience.  
  • Response to Track specific essay questions.  
  • If requested, selected applicants may be scheduled for interviews. |
Nursing Education Track (Leadership Studies)  
- If selected, participate in an interview with faculty.  
- Response to Track specific essay questions.

Psychiatric Mental Health Nurse Practitioner Track (PMHNP)  
- For the post-MSN PMHNP certificate plus DNP, the admission requirements for the DNP program must also be met. A separate application to the DNP program and offer of admission to the DNP program is required to pursue the MSN to DNP while dually enrolled in the PMHNP program.
- If practicing as an APRN in another specialty, must supply evidence of current certification by a nationally recognized certifying body such as the American Nurses Credentialing Center (ANCC), American Academy of Nurse Practitioners (ANP), and American Midwifery Certification, - formerly the ACNM Certification Council.
- Participate in a personal interview with faculty if selected for an interview.
- Critical Analysis Essay.

Non-Academic Considerations (Post-Graduate) - include but are not limited to:
- Evidence of leadership in nursing (Professional organizations, committees, etc.)
- Potential for leadership in an advanced role as evidenced by reference letters
- Professional nursing work experience
- Diversity of work or life experience (For example: experience with other cultures, study/travel/work abroad, community service, military service, degree in other field, volunteerism, or other related extracurricular activities).
- Curriculum vitae/resume including educational background, honors, nursing experience, professional membership(s), and community service.
- Permanent resident of Texas, TTUHSC service area/county or TTUHSC campus location.
- Fluent in a language frequently used by patients in the applicant’s service area in addition to English.

IMPORTANT NOTE FOR APPLICANTS WHO ATTENDED A COLLEGE OR UNIVERSITY IN SPRING 2020

An explanation of how TTUHSC School of Nursing considers courses in which a student earns grades of Pass (P), Fail(F), Credit (CR) or No Credit (NC) is outlined below:

Official transcripts with courses awarded with P or CR during the SPRING 2020 semester can be used to meet prerequisite course requirements and will not be used in calculating either the cumulative or science GPA for admissions. TTUHSC SON reserves the right to determine how, and if, courses awarded with P or CR during any semester, outside of spring 2020, will be calculated into a GPA and/or considered for transfer credit. Official transcripts with courses awarded with a Fail (F) or No Credit (NC) during any semester cannot be used to meet prerequisite course requirements.

Additional Requirements for Prospective Students

Computer Requirements
See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks
See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog.
Immunizations
See Immunization Requirements under the Eligibility Requirements section of this catalog.

Drug Screening
Drug screenings may be necessary if required by the clinical institution site. The cost of all drug screens are the responsibility of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

Special Student Enrollment

Non-Degree
Special Student Enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. Non-degree Special Student admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the applicable Graduate Associate Dean/Department Chair prior to submitting a special student (nondegree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master’s nursing program at a college or university and in good academic standing;
- Registered nurse with a BSN not enrolled in an educational institution; or
- Waiver to the above requirement from the applicable Graduate Associate Dean/Department Chair.

In addition to meeting admission criteria, consideration to non-degree seeking students is given on a space available basis. A complete Special Student (non-degree) application includes the following:

- Submitted special-student application
- Submitted signature page
- Submitted Oath of Residency
- Submitted current Basic Life Support (BLS) for the Healthcare Provider from the American Heart Association or the American Red Cross.

Special students can take a maximum of six (6) credit hours. A special student wishing to apply for full admission to one of the Graduate Department programs must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

Enrollment without Credit/Course Audit
Students wanting to audit a course for no grade must obtain approval from the applicable Graduate Associate Dean/Department Chair. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

Conditional Admission
If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying. Examples of conditional admission include, but are not limited to, the following:

- BSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- MSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- Leveling courses may be required per the MSN Program Council

Readmission
All requests for readmission must be made prior to the application deadline for the semester in which readmission is requested. The applicable Graduate Associate Dean/Department Chair and MSN Program Directors are responsible for overseeing all readmissions to the School of Nursing Post-graduate Programs. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is also based upon the decision of the applicable Graduate Associate Dean/Department Chair and MSN Program Council.

A student seeking readmission must comply with the following:

- Submit a letter requesting readmission to the Graduate Program
- Meet all recommendations and requirements set forth by the applicable Associate Dean/Department Chair or Program Director and MSN Program Council
- Complete online application and meet admission criteria for full admission

**Student Transfers from Other Educational Institutions**

Students requesting admission to the TTUHSC SON graduate programs as a transfer student from another college or university must meet the following criteria:

- Eligible to return to the institution from which the student is transferring
- Complete a full application to the applicable Post-graduate program by the deadlines specified for the semester of transfer to TTUHSC
- A student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit
- Complete the majority or over 50% of the required credits to complete the degree at TTUHSC School of Nursing.

**Recognition of Previous Nursing Learning**

### Transfer Credit

The decision to award transfer of academic credit is made by the applicable Graduate Associate Dean/Department Chair and/or Program Director after a thorough review of the applicant’s transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on TTUHSC OP 77.17. Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of “B” or higher has been earned in the course. The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC.

PLEASE NOTE: Courses previously taken as Pass-Fail will not transfer for credit if the course is required for a School of Nursing Degree unless approved by the applicable Graduate Associate Dean/Department Chair and/or Program Director.

Students requesting courses to be considered for transfer credit will:

- Submit official transcripts for courses considered for transfer credit
- Submit course descriptions and course content for each course

Credit accepted for transfer and applied to the student’s degree program will appear on the TTUHSC transcript under the name of the institution where the student completed the course. Transfer credit will not alter a student’s TTUHSC Grade Point Average.

A student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

**Offer of Admission**

Offers of admission will be made approximately six - eight weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:
Applicants must respond to the offer of admission no later than the deadline stated in the letter offering admission. Submit $175 non-refundable placement/orientation fee. Complete Criminal Background Check online. Submit evidence of compliance with required immunizations. Complete Sexual Harassment training online and submit certificate of completion. Complete required trainings as specified during orientation. Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission. All students admitted to the Post-graduate Program are required to attend a mandatory orientation prior to the first semester of enrollment.

Degree Requirements for Students Admitted to the Post-Graduate Certificate Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the applicable Graduate Associate Dean/Department Chair may a different Catalog be selected. Students, in all cases, are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the stated year (September 1st through August 31st).

Maintaining Minimum Academic Requirements

The minimum GPA for continuance in the Graduate Programs is 3.0 overall. Additionally, a minimum grade of "B" is required in each course (nursing) required for degree completion. The TTUHSC School of Nursing Student Handbook provides further details regarding academic and graduation expectations.

Requirements for Progression towards the MSN Post-Graduate Certificate

- Grades are reviewed each semester and progression in the Graduate Program is determined by the applicable Graduate Associate Dean/Department Chair and/or Program director and MSN Program Council.
- Post-graduate students are required to maintain a 3.0 GPA with grades at "B" or above in all graduate courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving "C" or lower in a graduate course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

Academic Dismissal from the School of Nursing MSN Post-Graduate Certificate Program will result from the following circumstances:

- Students earning a "C" or lower in two or more graduate courses in one semester.
- Students earning a "C" or lower in the same nursing course twice.
- Students earning a "C" or lower in a second graduate course even though one graduate course has been retaken and a satisfactory grade of "B" or better has been obtained.
- Cumulative semester or cumulative GPA less than 2.0 for two consecutive semesters

Failing to meet expected standards in any program may result in academic dismissal at any time.

Residence Credit

The minimum residence for the Post-graduate certificate is the majority, or over 50%, of graduate course work carrying residence credit must be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending
Massachusetts of Credits
The majority or over 50% of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned:

- At TTUHSC
- In the case of those programs offered through joint, cooperative, or consortia arrangements through instruction offered by the participating institutions.

Semester Credit Hours and Course Loads
The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis for nursing education and informatics tracks; clinical hours are measured on a one-to-four basis for the nursing administration track. For nurse practitioner and nurse midwifery clinical courses, clinical hours are measured on a one-to-3.5 basis. Approximately two hours in preparation for each hour of lecture/didactic and an appropriate amount of time for preparation for clinical activities are required. The number of semester credit hours a student may carry (course load) is regulated by the applicable Program Director. In determining this load, the applicable Program Director takes into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in nine (9) or more credit hours in the Fall or Spring semester and six (6) or more credit hours in the Summer semester is considered full-time.

Degree Plan
- Upon initial enrollment into the TTUHSC Graduate Programs, each student is provided with a degree plan, individualized according to his/her program of study. The student's individual needs and circumstances are considered when developing the degree plan.
- The applicable Program Director for the program in which the student is enrolled is responsible for approving the degree plan.
- Students are responsible for notifying the applicable Graduate Program office to discuss changes to the degree plan.
- During orientation to the applicable Graduate Program, students are advised about the requirements for their specific track or major and their responsibility to (a) be knowledgeable about their degree requirements; and (b) meet degree requirements for graduation.
- The degree plan serves as the student’s guide for course registration each semester.
- Degree plans for post-graduate students will be individualized based on the previous course work and requirements.

TTUHSC Interprofessional Practice and Education (IPE) Core Curriculum
All TTUHSC students, regardless of school affiliation, are required to complete the IPE core curriculum prior to graduation. The IPE core curriculum is composed of two components including successful completion of a non-credit online course (>70% accuracy on the knowledge post-test) and successful participation in at least one registered IPE learning activity. Failure to complete the IPE core curriculum will result in delayed graduation. Students should consult their academic/program advisor and/or school catalog for additional information.

Course Requirements
The following course requirements reflect the basic needs for each track in the MSN Post-Graduate program. The plans should only serve as an overview of a basic course schedule of a full-time student and it will vary depending on each student’s ability to progress through the program.

NOTE: Nurse midwifery students will be required to secure and present proof of their own purchased student malpractice insurance prior to commencing nurse midwifery-specific clinical courses. The average cost for a yearly rate is around $500 and students may select from a carrier of their choice.
Post-Graduate Certificate Course Requirements

**Nursing Education Post-Graduate Certificate**

(Total Credit Hours Required for Completion - 12)

**Pre or corequisites to Required Nursing Courses:**
The appropriate Program Director in conjunction with the Associate Dean/Department Chair will review the applicant’s previous academic preparation and/or competency in required courses in order to award transfer credit. Any deficiencies will be met by enrollment in required courses.

Texas Tech University Health Sciences Center (TTUHSC) School of Nursing and Texas Tech University (TTU) Jerry S. Rawls College of Business jointly administer a dual-degree program in which eligible students can earn two degrees, a Master of Science in Nursing in Nursing Administration and a Master of Business Administration (MBA) with concentration in Health Organization Management (HOM).

Application Process (General):

- Students applying must meet the eligibility requirements for admission to TTU and TTUHSC in effect at the time of their application. Students should review the current requirements found at https://www.depts.ttu.edu/rawlsbusiness/graduate/dual-degree/mba-dual/ and https://www.ttuhsc.edu/nursing/masters
- Students accepted to the TTUHSC MSN program wishing to pursue a dual MBA/MSN will be allowed to use years of work experience in lieu of the TTU RCOBA exam requirement for admissions.

For information, contact MSN in Nursing Administration Program Director, Dr. Cindy Acton via e-mail at Cindy.Acton@ttuhsc.edu.

### MSN/MBA Dual Degree Program Requirements

#### Credit Distribution while in MSN Administration Program

Students take classes at both universities simultaneously (Must be accepted into the MSN Administration Program first and during first Spring [Year 1], is guided to apply to TTU Rawls College of Business).

**Courses taken at TTU**
Post Master's Doctor of Nursing Practice (DNP) Program

Post-Master's Doctor of Nursing Practice (DNP) Program

Laura Thomas, PhD, RN, CNE
Professor, Associate Dean/Department Chair, Leadership Program

Lisa Campbell, DNP, RN, PHNA-BC, FAAN
Professor and Program Director, Post-Master’s DNP Program

Purpose
The purpose of the Post-Master's Doctor of Nursing Practice (DNP) Program is to provide a rigorous education to prepare clinical scholars who translate science to improve population health through expert leadership that powers innovation in health care for West Texas, the state, and the nation.

Student Learning Outcomes
Upon program completion, the graduate will be prepared to:

- Integrate nursing science with knowledge from ethics, biophysical, psychosocial, analytical, and organizational sciences to foster a culture of health and transform clinical practice and health care delivery systems.
- Develop and operationalize effective, culturally relevant, and evidence-based clinical practice approaches that meet current and future needs of patient populations.
- Design and implement evidence-based strategies to analyze and improve outcomes of care at the practice, system, or population levels.
- Apply, use, and evaluate health care information systems, information literacy and patient care technology to advance quality, patient safety, and organizational effectiveness.
- Facilitate interprofessional team building and collaborative leadership skills to create positive change and improve outcomes in complex health care systems.
- Exercise leadership skills to analyze, develop, influence, and implement health policies that advocate social justice, equity, and ethics within all health care arenas.
- Analyze epidemiological, biostatistical, environmental, and other appropriate scientific data to develop culturally relevant and scientifically based health promotion and disease prevention initiatives.
- Employ advanced leadership skills, systems thinking, and accountability to design, deliver and evaluate evidence-based management practices to improve patient, population and health system outcomes (Executive Leadership track).
- Employ advanced practice levels of clinical judgment, systems thinking, and accountability to design, deliver, and evaluate evidence-based care to improve patient and population outcomes (Advanced Practice Nursing Track).

Post-Master’s DNP Program Overview
The Post-Master's DNP Program offers the following tracks for completing the DNP degree:

- Post-Master's DNP for Executive Leadership
- Post-Master's DNP for Advanced Practice Nursing
Post-Master's DNP Overview

Advanced practice registered nurses and nurses in leadership positions with a master's degree have the opportunity to obtain the Doctor of Nursing Practice (DNP), a terminal degree designed for practice at the highest level of nursing. Students must have a master's degree and at least one year of experience as an APRN or in a leadership position. The primary goal of the Post-Master's DNP program is to prepare graduates for leadership careers including advanced clinical practice, executive leadership, applied clinical research, and faculty leadership roles. The program allows students to participate in online activities as well as on-campus intensives.

Note: International students with F1 and F2 visa status are not eligible to apply to an online program.

Consideration for admission is given to applicants meeting all admission criteria who have submitted **ALL** admission requirements by the application deadline through the online TTUHSC application portal.

Post-Master's DNP Admission Requirements

Applicant must submit the following application requirements for full admission:

- Current unencumbered licensure as a registered nurse in the United States
- Master of Science in Nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or accreditation from American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).
- GPA of 3.0 for master's degree
- Graduate level nursing research course
- Three letters of reference attesting to the applicant's academic ability and leadership potential, including one from a current professional colleague
- Personal Statement
- Interview with DNP faculty
- Current Basic Life Support (BLS) certification for Healthcare Providers from the American Heart Association or American Red Cross.
- Current CV or resume
- Oath of Residency
- Official transcripts from all institutions formerly attended.
  - NOTE: All transcripts must be from regionally accredited colleges or universities with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or accreditation from American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).
- Application Signature Page
- Application Fee

All Post-Master's DNP Advanced Practice Nursing applicants must meet the following additional admission requirements:

- Approval by a state nursing board to practice as a nurse practitioner or nurse midwife as an advanced practice registered nurse (APRN)
Current certification by a nationally recognized credentialing body as an APRN or nurse midwife
Minimum of one year’s experience as an APRN

ALL Post-Master’s DNP Executive Leadership applicants must meet the following additional admission requirements:

- Minimum of one year’s experience in a healthcare leadership position

*Post-Master’s DNP applicants with unique credentials will be considered on a case-by-case basis. Such applicants may be required to complete one or more additional graduate nursing courses. A comprehensive review of the candidate’s application will include consideration of the following factors:
  - Academic performance and aptitude
  - Career achievements
  - Ability to perform capably in positions of responsibility for self and others
  - Potential for leadership in the DNP advanced role.

Although academic criteria (cumulative GPA, grades earned in nursing courses, and failed/ repeated courses) are the most important factors in admission considerations, additional nonacademic information is considered for a holistic admission process. These nonacademic factors include but are not limited to:

- Extracurricular activities
- Evidence of leadership in nursing
- Work experience
- Diversity of experience such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Fluent in a language in addition to English
- Military service

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission. All applicants receiving offers of admission will be required to consent to a criminal background check. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See ‘Criminal Background Checks’ section of the School of Nursing Student Handbook for the school policy. Criminal Background Checks must be received prior to matriculation to the TTUHSC DNP Program. The TTUHSC Criminal Background policy may be found at TTUHSC OP 10.20.

Only complete applications are reviewed for admission consideration, which means ALL admission requirements must be received by the application deadline.

The Post-Master’s DNP Program Director, Associate Dean/Department Chair, directors, and faculty carefully evaluate all qualified applicants with regard to the applicant’s potential for successful completion of the program.

**Combined Post-Master's DNP with APRN Certificate**

Applicants or current graduate students who are interested in completing both the Post-Master’s DNP and an APRN Certificate Program have the option to combine these two programs with the following conditions:

- Separate application and admission to the Post-Master’s DNP and to the APRN Post-Graduate Certificate Program is required.
- Following acceptance to both the Post-Master’s DNP Program and the APRN Post-Graduate Certificate Program, an individualized degree plan is developed for the student to ensure they meet all course requirements for the DNP and the APRN certificate.
- Up to nine (9) credit hours from APRN certificate courses are allowed to substitute for DNP required courses.
- Students are considered enrolled in a single program for the purposes of meeting academic progression requirements and academic dismissal circumstances.

Applicants or current graduate students who are interested in this combined program should contact the Associate
IMPORTANT NOTE FOR APPLICANTS WHO ATTENDED A COLLEGE OR UNIVERSITY IN SPRING 2020

An explanation of how TTUHSC School of Nursing considers courses in which a student earns grades of Pass (P), Fail (F), Credit (CR) or No Credit (NC) is outlined below:

Official transcripts with courses awarded with P or CR during the SPRING 2020 semester can be used to meet prerequisite course requirements and will not be used in calculating either the cumulative or science GPA for admissions. TTUHSC SON reserves the right to determine how, and if, courses awarded with P or CR during any semester, outside of spring 2020, will be calculated into a GPA and/or considered for transfer credit. Official transcripts with courses awarded with a Fail (F) or No Credit (NC) during any semester cannot be used to meet prerequisite course requirements.

Additional Requirements for Prospective Students

Computer Requirements

See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks

A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC School of Nursing in compliance with TTUHSC OP 10.20 and SON OP 60.081. Each student is responsible for the cost of his/her CBC and any additional fees. See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog for additional information.

Immunizations

See Immunization Requirements under the Eligibility Requirements section of this catalog.

Drug Screening

Drug screenings may be necessary if required by the clinical institution site. The cost of all drug screenings are the responsibility of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

Special Student Enrollment

Non-Degree

Special Student enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. Non-degree Special Student admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the applicable DNP Associate Dean/Department Chair prior to submitting a special student (nondegree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master’s or doctoral program at a college or university and is in good academic standing;
- Registered nurse not enrolled in an educational institution;
- Waiver to the above requirement from the applicable DNP Associate Dean/Department Chair or Program Director.

In addition to meeting the above criteria, consideration is given on a space available basis.

- A complete Special Student (non-degree) application includes the following:
  - Submitted special-student application
  - Submitted signature page and application fee
  - Submitted official transcripts from all universities or colleges attended
Submitted Oath of Residency
Submitted current Basic Life Support (BLS) certification for Healthcare Providers from the American Heart Association or American Red Cross

Special students can take a maximum of six (6) credit hours or nine (9) if approved by the applicable Associate Dean/Department Chair or Program Director. A special student wishing to apply for full admission to the DNP Program must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

Enrollment without Credit/Course Audit

Students wanting to audit a DNP course for no grade must obtain approval from the DNP Associate Dean/Department Chair or Program Director. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in letter of admission offer prior to the first day of class for the semester of admission.

Readmission

All requests for readmission must be made prior to the application deadline date for the semester in which readmission is requested. The DNP Program Director and applicable DNP Program Council are responsible for overseeing all readmissions to the School of Nursing DNP Program. Readmission of a student dismissed or withdrawn for academic or disciplinary causes is also based upon the decision of the DNP Program Director and applicable DNP Program Council.

A student seeking readmission must comply with the following:

- Submit a letter requesting readmission to the DNP Program
- Meet all recommendations and requirements set forth by the DNP Program Director and applicable DNP Program Council
- Complete online application and meet admission criteria for full admission

Transfer Student

Students requesting admission to the TTUHSC School of Nursing DNP program as a transfer student from another university must meet the following criteria:

- Transfer student must be eligible to return to the institution from which the student is transferring.
- Submit a full application by the application deadline date for the semester in which transfer is requested.
- Student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit
- Complete the majority, or over 50%, of the required credits to complete the degree at TTUHSC School of Nursing

Recognition of Previous Nursing Learning

Transfer Credit

The decision to award transfer of academic credit is made by the applicable DNP Assoicate Dean/Department Chair or Post-Master’s DNP Program Director after a thorough review of the applicant’s transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on TTUHSC OP 77.17. Generally, credits earned at a regionally accredited college or university are
accepted for transfer provided course content is equivalent and a grade of "B" or higher has been earned in the course.

The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC. Students requesting courses to be considered for transfer credit will:

- Submit official transcripts for courses considered for transfer credit
- Submit course descriptions and course content for each course

A student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

**Offer of Admission**

Offers of admission will be made approximately two - four weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:

- Return Acceptance Form on or before date specified in the offer of admissions letter
- Submit $175 non-refundable placement/ orientation fee
- Submit evidence of compliance with required immunizations
- Complete Criminal Background Check online
- Completion of required trainings as specified during virtual orientation
- Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission.

**Degree Requirements for Students Admitted to DNP Program**

**Graduation Under a Particular Catalog**

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the applicable DNP Associate Dean/ Department Chair may a different Catalog be selected. Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the stated Academic year (September 1st through August 31st).

**DNP Clinical Hour Requirements for Post-Master's DNP Students**

All DNP students must complete a total of 1000 clinical hours/practice hours from a combination of clinical hours achieved in the master's program and in the DNP program. Qualified advance practice registered nurse applicants are expected to have successfully completed a minimum of 500 clinical hours in the student's nurse practitioner master's program in order to meet requirements for recognition or licensure and national certification, as appropriate, for the student's professional role and practice area. The Post-Master's DNP Program provides a minimum of 500 clinical hours resulting in a minimum total of 1000 clinical hours for graduation.

Qualified applicants with a MSN in nursing administration or other MSN specialty area or master's degree in a related field must provide evidence of the number of clinical hours/practice hours achieved in the student’s master’s program. To ensure students meet the required minimum 1000 clinical hours/practice hours, additional clinical learning opportunities are offered via one or more of the following methods:

- Submission of a professional portfolio documenting clinical activities/practice hours and scholarship to meet the criteria for clinical hours for the DNP program. The portfolio may include a resume or CV and a description of the individual's practice experience; academic and specialized programs of study in the student's specialty area; certifications in administration; or additional activities, and experiences exemplifying competence in the student's specialty area.
- Students not meeting the clinical hour/ practice hour criteria will be evaluated and required to take an independent study course designed to provide an individualized clinical intensive based on the student’s background, experience, and learning needs to complete the required 1000 clinical hours/practice hours for the DNP degree.

Clinical experiences/practice hours for Post-Master's DNP students are defined as direct or indirect patient care experiences;
observational experiences; interviews; participation in community events or local, state, or national meetings relevant to the learning objectives; or other unique learning opportunities where the student can achieve defined learning objectives. Clinical experiences/practice hours may take place in the student’s place of employment if the experience clearly provides an opportunity to achieve specified student learning objectives. Students may work with professional mentors or preceptors during their clinical experiences. School of Nursing faculty may serve as preceptors or professional mentors.

TTUHSC Interprofessional Practice and Education (IPE) Core Curriculum

All TTUHSC students, regardless of school affiliation, are required to complete the TTUHSC IPE core curriculum prior to graduation. The IPE core curriculum is composed of two components including successful completion of a non-credit online course (>70% accuracy on the knowledge post-test) and successful participation in at least one registered IPE learning activity. Failure to complete the IPE core curriculum will result in delayed graduation. Students should consult their academic/program advisor and/or school catalog for additional information.

All TTUHSC students, regardless of school affiliation, will be required to complete the IPE non-credit, online course in interprofessional education. DNP students are required to complete the online course in the first semester of enrollment.

Maintaining Minimum Academic Requirements

The minimum GPA for continuance in the graduate program is 3.0 overall. Additionally, a minimum grade of "B" is required in each course (nursing required for degree completion. The TTUHSC SON Student Handbook (http://www.ttuhsc.edu/son/handbook.aspx) provides further details regarding academic and graduation expectations.

Progression in the DNP Program

- Grades are reviewed each semester and progression in the DNP Program is determined by the applicable DNP Associate Dean/Department Chair and Graduate Progressions Committee.
- DNP students are required to maintain a 3.0 GPA with grades at "B" or above in all doctoral courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving "C" or lower in a doctoral course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

Academic Dismissal from the School of Nursing DNP Program will result from the following circumstances:

- Students earning a "C" or lower in two or more DNP courses in one semester
- Students earning a "C" or lower in the same DNP course twice
- Students earning a "C" or lower in a second DNP course even though one DNP course has been retaken and a satisfactory grade of "B" or better has been obtained

Failing to meet expected standards in any program may result in academic dismissal at any time. Academically dismissed students are eligible to be readmitted according to the stipulations noted in the "Readmission" section above.

Residence Credit

The minimum residence for the DNP degree is the majority, or over 50%, of graduate course work carrying residence credit be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with "residence" in the State of Texas.

Majority of Credits

The majority or over 50% of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned:
At TTUHSC
In the case of those programs offered through joint, cooperative, or consortia arrangements through instruction offered by the participating institutions.

### Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. For the Post-Master’s DNP Program, didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-six basis for the Post-Master’s DNP program. The number of semester credit hours a student may carry (course load) is regulated by the Post-Master’s DNP Program Director. In determining this load, the DNP Program Directors take into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in nine (9) or more credit hours in the Fall or Spring semester and six (6) or credit hours in the Summer semester is considered full-time.

### Degree Plan

- Upon initial enrollment into DNP Program, each student is provided with a degree plan, individualized according to the student’s program of study and part-time or full-time enrollment status. The student’s individual needs and circumstances (i.e., part-time or full-time enrollment, preference for electives, transfer courses, etc…) are considered when developing the degree plan.
- The applicable DNP Associate Dean/Department Chair or Program Director for the track in which the student is enrolled is responsible for approving the degree plan.
- Post-Master’s DNP students are responsible for notifying the DNP Program Director anytime the student deviates from the degree plan (i.e., withdraw from a course; fail to register for a course, etc).
- During orientation to the DNP Program, students are advised about the requirements for the specific track or major and the student’s responsibility to (a) be knowledgeable about the degree requirements; (b) notify the Graduate Program office if the student deviates from the degree plan; and (c) meet degree requirements for graduation.
- The degree plan serves as the student's guide for course registration each semester.

LaMicha Hogan, PhD, APRN, FNP-BC
Assistant Professor, Associate Dean/Department Chair, Advanced Practice Registered Nurse (APRN) Program

Inola Mello, DNP, APRN, FNP-C
Associate Professor and Program Director, BSN to DNP Program

Purpose

The BSN to DNP Doctor of Nursing Program (DNP) prepares RNs to provide fully accountable and comprehensive care to patients as either a Family Nurse Practitioner or a Psychiatric Mental Health Nurse Practitioner. With the increasing complexity of health care, the growth of scientific knowledge and health care technologies, doctoral level education is recommended for collaborative/independent practice.

The BSN to DNP Program prepares nurse practitioners to conduct health assessments, implement diagnostic and therapeutic interventions, apply data analytics to decision-making, and assimilate science-driven knowledge to provide person-centered care. Graduates are prepared as leaders who can provide care to individuals, populations, and systems in urban and rural communities.

Program Outcomes

Upon program completion, the graduate will be prepared to:

1. Demonstrate proficiency in assessment, diagnostic reasoning and person-centered care in individuals, populations, and systems in urban and rural communities.
2. Implement theory, science-driven knowledge and evaluation of person-centered care to support excellence in clinical practice.
3. Appraise, evaluate, and apply data analytics and health care technologies to manage, support, and improve the delivery of safe, high quality, and efficient health care.
4. Lead quality improvement initiatives that enhance person-centered care and population health through cost effective, efficient, equitable, and culturally relevant evidence-based strategies.
5. Develop leadership skills to analyze and influence health policy affecting the public's health and care decisions, while advocating for social justice, inclusivity, equity, and ethics in healthcare.
7. Engage in personal, professional, and leadership development through scholarship, collaboration, organizational involvement and interprofessional partnerships.

BSN to DNP Program Overview

The BSN to DNP Program offers the following tracks for completing the DNP degree:

- BSN to DNP for Family Nurse Practitioner (FNP)
- BSN to DNP for Psychiatric Mental Health Nurse Practitioner (PMHNP)

BSN to DNP - Family Nurse Practitioners (FNP) Track and Psychiatric Mental Health Nursing (PMHNP) Track Overview

Nurses with the BSN degree can apply to the BSN to DNP program and move directly from the BSN degree to the DNP degree for the FNP and PMHNP tracks (see Admission Requirements for additional criteria for admission). The BSN to DNP program is a combination of online and face-to-face courses and supervised clinical experiences and will meet all educational standards established by the American Association of Colleges of Nursing's Essentials of Doctoral Education for Advanced Nursing Practice (2021) and the National Organization of Nurse Practitioner Faculty's (NONPF) Criteria for Evaluation of Nurse Practitioner Programs (2022), which are the standards for both FNP and PMHNP programs. Graduates will meet all qualifications to sit for national certification to become a Family Nurse Practitioner or a Psychiatric Mental Health Nurse Practitioner upon completion of the DNP

Consideration for admission is given to applicants meeting all admission criteria who have submitted **ALL** admission requirements by the application deadline through the online TTUHSC application portal.

BSN to DNP Admission Requirements

Applicants must submit the following application requirements for full admission:

- Completed and submitted online application as directed on the School of Nursing website
- Valid unencumbered RN License
- BSN to DNP FNP Track applicants must have 2 years of experience as a RN at the time of application submission
- Baccalaureate nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or accreditation from the American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC)
  - Applicants with a transcript(s) from a foreign university (ies) are to submit a Commission for Graduates of Foreign Nursing Schools (CGFNS) evaluation of their transcript(s). Additionally applicants from a country where the primary language is not English, must provide evidence of achieving a total score of 84 or higher with a speaking score of 26 or higher and a writing score of 27 or higher on the TOEFL iBT.
- Completion of undergraduate courses in research and statistics with a grade of C or better taken within five years of application to the program
- A minimum cumulative GPA of 3.0 (4.0 scale) for all coursework leading to the baccalaureate degree. (The undergraduate science courses GPA may be considered as a factor for admission.)
- Current Basic Life Support (BLS) Certification for Healthcare Providers from the American Heart Association or the American Red Cross
- Computer literacy
- Critical analysis essay
- Professional letters of reference (3). One from a manager in your current nursing role, a peer in your area of practice and a former faculty member that can attest to your ability to successfully complete doctoral studies.
- Oath of Residency
- Official transcripts from all institutions formerly attended. NOTE: All transcripts must be from regionally accredited colleges or universities with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or accreditation from American Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC)
  - Current Curriculum Vitae (CV) or Resume (in the template provided in the application process)
- Interview with APRN faculty (Interviews are conducted on an invitation only basis after a review of submitted application materials).
- Personal Statement/Essay (maximum of 300 words)
- Critical analysis response to track specific question(s)
- Computer literacy defined as an understanding of the capabilities and limitations of a computer and how to use them wisely within clinical workflow and for scholarly work. Applicants must complete the TTUHSC SON Computer Literacy Test located at...
Non-Academic Considerations (BSN to DNP)
include but are not limited to:

- Evidence of leadership in nursing (Professional organizations, committees, etc.)
- Professional nursing experience highly preferred for the DNP applicant in the FNP track
- Potential for leadership in an advanced practice role
- Professional and community service activities
- Curriculum vitae/resume which includes educational background, honors, nursing experience, professional membership(s), and community service
- Permanent resident of Texas or TTUHSC service area/county
- Fluent in a language frequently used by patients in the applicant’s service area in addition to English
- Military service
- First generation college student

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission. All applicants receiving offers of admission will be required to consent to a criminal background check. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See ‘Criminal Background Checks’ section of the School of Nursing Student Handbook for the school policy. Criminal Background Checks must be received prior to matriculation to the TTUHSC DNP Program. The TTUHSC Criminal Background policy may be found at TTUHSC OP 10.20.

Only complete applications are reviewed for admission consideration, which means “ALL” admission requirements must be received by the application deadline.

The DNP Program Associate Dean/Department Chair, directors, and faculty carefully evaluate all qualified applicants with regard to the applicant’s potential for successful completion of the program.

Additional Requirements for Prospective Students

Computer Requirements

See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks

A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC School of Nursing in compliance with TTUHSC OP 10.20 and SON OP 60.081. Each student is responsible for the cost of his/her CBC and any additional fees. See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog for additional information.

Immunizations

See Immunization Requirements under the Eligibility Requirements section of this catalog.

Drug Screening

Drug screenings may be necessary if required by the clinical institution site. The cost of all drug screenings are the responsibility of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.
Special Student Enrollment

Non-Degree

Special Student enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. Non-degree Special Student admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the applicable BSN to DNP Associate Dean/Department Chair prior to submitting a special student (nondegree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master’s or doctoral program at a college or university and is in good academic standing;
- Registered nurse not enrolled in an educational institution;
- Waiver to the above requirement from the applicable DNP Associate Dean/Department Chair or Program Director.

In addition to meeting the above criteria, consideration is given on a space available basis.

- A complete Special Student (non-degree) application includes the following:
  - Submitted special-student application
  - Submitted signature page and application fee
  - Submitted official transcripts from all universities or colleges attended
  - Submitted Oath of Residency
  - Submitted current Basic Life Support (BLS) certification for Healthcare Providers from the American Heart Association or American Red Cross

Special students can take a maximum of six (6) credit hours or nine (9) if approved by the applicable Associate Dean/Department Chair or Program Director. A special student wishing to apply for full admission to the BSN to DNP Program must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

Enrollment without Credit/Course Audit

Students wanting to audit a BSN to DNP course for no grade must obtain approval from the BSN to DNP Associate Dean/Department Chair or Program Director. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with "conditions" stated in letter of admission offer prior to the first day of class for the semester of admission.

Readmission

All requests for readmission must be made prior to the application deadline date for the semester in which readmission is requested. The BSN to DNP Program Director and BSN to DNP Program Council are responsible for overseeing all readmissions to the School of Nursing BSN to DNP Program. Readmission of a student dismissed or withdrawn for academic or disciplinary causes is also based upon the decision of the BSN to DNP Program Directors and BSN to DNP Program Council.

A student seeking readmission must comply with the following:

- Submit a letter requesting readmission to the BSN to DNP Program
- Meet all recommendations and requirements set forth by the BSN to DNP Program Director and BSN to DNP Program Council
- Complete online application and meet admission criteria for full admission

Transfer Student
Students requesting admission to the TTUHSC School of Nursing BSN to DNP program as a transfer student from another university must meet the following criteria:

- Transfer student must be eligible to return to the institution from which the student is transferring.
- Submit a full application by the application deadline date for the semester in which transfer is requested.
- Student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit.
- Complete the majority, or over 50%, of the required credits to complete the degree at TTUHSC School of Nursing.

**Recognition of Previous Nursing Learning**

**Transfer Credit**

The decision to award transfer of academic credit is made by the applicable DNP Associate Dean/Department Chair or DNP Program Director after a thorough review of the applicant’s transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on TTUHSC OP 77.17. Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of "B" or higher has been earned in the course.

The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC. Students requesting courses to be considered for transfer credit will:

- Submit official transcripts for courses considered for transfer credit
- Submit course descriptions and course content for each course

A student previously enrolled in the graduate program at TTUHSC School of Nursing who attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

**Offer of Admission**

Offers of admission will be made approximately six - eight weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:

- Return Acceptance Form on or before date specified in the offer of admissions letter
- Submit $175 non-refundable placement/orientation fee
- Submit evidence of compliance with required immunizations
- Complete Criminal Background Check online
- Completion of required trainings as specified during virtual orientation
- Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission.

**Degree Requirements for Students Admitted to the BSN to DNP Program**

**Graduation Under a Particular Catalog**

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the applicable BSN to DNP Associate Dean/Department Chair may a different Catalog be selected. Students, in all cases, are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the stated Academic year (September 1st through August 31st).

**TTUHSC Interprofessional Practice and Education (IPE) Core Curriculum**
All TTUHSC students, regardless of school affiliation, are required to complete the TTUHSC IPE core curriculum prior to graduation. The IPE core curriculum is composed of two components including successful completion of a non-credit online course (>70% accuracy on the knowledge post-test) and successful participation in at least one registered IPE learning activity. Failure to complete the IPE core curriculum will result in delayed graduation. Students should consult their academic/program advisor and/or school catalog for additional information.

All TTUHSC students, regardless of school affiliation, will be required to complete the IPE non-credit, online course in interprofessional education. BSN to DNP students are required to complete the online course in the first semester of enrollment.

Maintaining Minimum Academic Requirements
The minimum GPA for continuance in the graduate program is 3.0 overall. Additionally, a minimum grade of "B" is required in each course (nursing required for degree completion. The TTUHSC SON Student Handbook (http://www.ttuhsc.edu/son/handbook.aspx) provides further details regarding academic and graduation expectations.

Progression in the BSN to DNP Program
- Grades are reviewed each semester and progression in the BSN to DNP Program is determined by the BSN to DNP Associate Dean/Department Chair and Graduate Progressions Committee.
- BSN to DNP students are required to maintain a 3.0 GPA with grades at "B" or above in all doctoral courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving "C" or lower in a doctoral course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

Academic Dismissal from the School of Nursing BSN to DNP Program will result from the following circumstances:
- Students earning a "C" or lower in two or more BSN to DNP courses in one semester
- Students earning a "C" or lower in the same BSN to DNP course twice
- Students earning a "C" or lower in a second BSN to DNP course even though one BSN to DNP course has been retaken and a satisfactory grade of "B" or better has been obtained

Failing to meet expected standards in any program may result in academic dismissal at any time. Academically dismissed students are eligible to be readmitted according to the stipulations noted in the "Readmission" section above.

Residence Credit
The minimum residence for the BSN to DNP degree is the majority, or over 50%, of graduate course work carrying residence credit be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with "residence" in the State of Texas.

Majority of Credits
The majority or over 50% of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned:
- At TTUHSC
- In the case of those programs offered through joint, cooperative, or consortia arrangements through instruction offered by the participating institutions.

Semester Credit Hours and Course Loads
The semester credit hour is the unit of measure for credit purposes. For the BSN to DNP Program, didactic (lecture) hours are
Degree Plan

- Upon initial enrollment into BSN to DNP Program, each student is provided with a degree plan, individualized according to the student’s program of study and part-time or full-time enrollment status. The student’s individual needs and circumstances (i.e., part-time or full-time enrollment, preference for electives, transfer courses, etc...) are considered when developing the degree plan.
- The BSN to DNP Associate Dean/ Department Chair or Program Director for the track in which the student is enrolled is responsible for approving the degree plan.
- BSN to DNP students are responsible for notifying the BSN to DNP Program Director anytime the student deviates from the degree plan (i.e., withdraw from a course; fail to register for a course, etc).
- During orientation to the BSN to DNP Program, students are advised about the requirements for the specific track or major and it is the student’s responsibility to (a) be knowledgeable about the degree requirements; (b) notify the Graduate Program office if the student deviates from the degree plan; and (c) meet degree requirements for graduation.
- The degree plan serves as the student’s guide for course registration each semester.

- * Elective Courses are offered at select times as faculty and interest are present
- (V) Variable Credit

Graduate Programs Course Descriptions

**NURS 5060 Individual Studies (0-0-0-0) (O)** Designed to meet special needs and interests of a student who proposes a specific plan of study. Course varies from 1-6 semester hours and course may be repeated as topic and/or objective of study changes.

**NURS 5101 The Advanced Practice Nurse Role for the Post-MSN APRN Student (1:1:0, O) **This course is designed for the student who has completed an MSN or DNP in a non-APRN role. Content focuses on nurse practitioner competencies and role development including scope of practice, legal and ethical considerations, quality improvement and financial considerations.

**NURS 5120 Specialty Practice: PMH-BSN-DNP (1:0:1, O)** Prerequisites: NURS 5207. This clinical course of 52.5 clinical hours provides the student with additional experiences in a focused area of practice to further enhance critical thinking and decision-making skills within a specific area of clinical practice

**NURS 5131 Informatics I: Foundations of Nursing Informatics Specialization: Theories of Practice (1:1:0, O)** This course explores the intersection of computer science by focusing on the role in functional areas of essential nursing informatics, interdisciplinary teams, evidence-based practice, patient centered care, quality improvement, and population health, and regulatory compliance.

**NURS 5171 Nurse-Midwifery V: Neonatal Care (1:1:0, O)** Prerequisites: NURS 5308 and NRP certification. This course examines the midwifery management of newborn care from birth through the first month of life, ensuring the stabilization and ongoing transition of the neonate, according to standards of care. Stabilization is followed by continued surveillance and development of a plan of care with the appropriate use of resources. Topics include the influences of perinatal history, newborn transition, the physical exam, nutrition, developmental care, discharge process, and health maintenance visits. Integrated within these topics are common screening diagnostics, pharmacotherapeutics, deviations from normal, and complications. Population health and national quality guidelines are interwoven throughout the course. Select clinical skills are practiced through simulated experiences.

**NURS 5200 Essentials of Pediatric Acute Care (2:2:0, O) (Prerequisite: NURS 5309)** This course introduces theoretical and research-based knowledge of assessment, diagnosis, and treatment of pediatric patients with acute and chronic health problems. Emphasis is on the Pediatric Acute Care Nurse Practitioner (PNP-AC) role and scope of practice caring for acutely, chronically, and complexly ill patients across the pediatric continuum. Students develop entry level competency in procedural skill and paradigms of discovery specific to pediatric acute care practice management of the chronically/acute ill child while acquiring health promotions and disease prevention knowledge.

**NURS 5201 Telehealth and Rural Service Delivery (2:2:0, O)** This course provides the foundation for establishing a telemental health practice to improve access for individuals in rural and underserved communities. Technology requirements along with ethical and legal standards will be addressed. Business principles, cost containment, coding, reimbursement and outcome measurement will be covered. The nurse practitioner as leader and patient advocate in analyzing the effect of health care policy on accessibility, accountability, and affordability will be emphasized.

**NURS 5202 Psychotherapeutic Modalities with Individuals, Families and Groups across the Lifespan (2:2:0, O) (Prerequisites: Admission to TTUHSC advanced practice nursing track) **This course introduces students to the theory and practice of psychotherapeutic modalities as interventions in promoting mental health with individuals, couples, families and groups. The selection of evidence-based psychotherapeutic modalities and cultural considerations will be addressed to provide value-based, patient-centered care.

**NURS 5203 Neuroscience & Epigenetics: A Lifespan Approach (2:2:0, O) (Prerequisite: NURS 5345)** This course presents the latest developments in neuroscience and epigenetics as they relate to psychiatric symptom expression and symptom management throughout the lifespan. Emphasis is placed on neuroanatomical, neurophysiological and epigenetic mechanisms that impact mental health.

**NURS 5204 Psychopharmacology (2:2:0, O) Prerequisites: NURS 5343 Pharmacotherapeutics for Nurses in Advanced Practice & NURS 5345 Advanced Practice Nursing: Application of Pathophysiology.** This course builds on the student's knowledge of pharmacokinetics, pharmacodynamics, pharmacotherapeutics and neuroscience in the use of pharmacological and complementary therapies in the targeted management of psychiatric symptoms.
Students will understand data transformation, beginning with raw sources and generating across the lifespan. Monitoring physiologic and psychiatric treatment response, the use of genetic testing and prevention of comorbid health conditions will be addressed.

**NURS 5205 Nurse-Midwifery II: Gynecological Care (2:2:0,0)** Prerequisite: NURS 5308. This theoretical course examines the midwifery management of care for women presenting for well-woman and gynecologic services. It expands knowledge of female growth and development, health promotion based on best practices, national quality guidelines, gynecologic anatomy and physiology, the gynecologic history and physical examination, and periodic screening and health maintenance. Study of clinical care based upon the Hallmarks of Midwifery includes well-woman and gynecologic topics. Following the midwifery management process, the course will focus on the history and physical exam, selected diagnostic procedures, non-pharmacologic therapies, pharmacologic therapies, and follow-up strategies. Research skills will be further developed through course assignments. Financial acumen and information technology skills will be enhanced through course assignments. Clinical skills will be practiced through simulated experiences.

**NURS 5207 Diagnostics and Management I: Advanced Mental Health Assessment Across the Lifespan (2:2:0,0)** Prerequisites: 5345, 5343, 5342. This course provides the foundation for advanced comprehensive mental health assessment, differential diagnosis and management of clients across the lifespan. Culturally sensitive approaches in the development of a therapeutic alliance are emphasized. The role of laboratory diagnostics and neuroimaging in psychiatric conditions will be critically analyzed.

**NURS 5220 Critical Care Pharmacology (2:2:0,0)** This graduate course provides the advanced practice nurse with the knowledge needed to select and prescribe pharmacological interventions with a focus on acute and critical health conditions across the lifespan. Building on the student’s previous knowledge of pharmacodynamics and pharmacokinetics, students will utilize evidence-based research to guide safe prescribing practices for patients managed in a variety of acute care settings.

**NURS 5270 Nurse-Midwifery Ill: Antepartum and Postpartum Care (2:2:0,0)** Prerequisite: NURS 5308. This theoretical course examines the application of the midwifery management process in the provision of comprehensive women’s preconception, prenatal, and ambulatory postpartum care, with a focus on normal childbearing. It emphasizes the assessment for maternal/fetal well-being and ambulatory postpartum with screening for deviations from normal that would require consultation/collaboration and/or referral. Management strategies include diagnostics, non-pharmacologic therapies, pharmacologic therapies, and interprofessional relationships. Educational needs and social/cultural contexts are also included. Clinical skills will be practiced in simulated experiences.

**NURS 5308 Nurse-Midwifery Practice I: Primary Care of Women (3:3:0,0)** Prerequisites: NURS 5343; NURS 5345; Co-requisites or Prerequisites: NURS 5342. This course expands knowledge of the professional responsibilities of certified nurse-midwives. The course then explores theoretical knowledge of the nurse-midwifery management of primary health screening, health promotion, and care of women from the peri-menarchal period through the lifespan based on professional philosophy, the Hallmarks of Midwifery, and the midwifery management process. Building on a scientific foundation in anatomy and physiology, growth and development, epidemiology, nutrition, pharmacology, health education, and bioethics, the student will gain knowledge in primary care. Selected diagnostic procedures, non-pharmacologic therapies, and pharmacologic therapies for the treatment of common health problems and deviations from normal will be studied, as well as the introduction of select skills for clinical practice. The financial implications and use of information technology in quality driven, value-based primary care will be interwoven throughout the course. Clinical skills will be practiced through simulated experiences.

**NURS 5309 Foundations of the Well Child (3:3:0,0)** This course provides an overview of major concepts, theories, and research related to human development from birth to young adulthood as a foundation for APRN practice. The course will focus on age specific milestones and implications for counseling, disease prevention, and health promotion based on national guidelines. Significant attention will be placed on the exploration of growth and development, nutrition, genetic/genomics, psychosocial, socioeconomic, cultural and spiritual influences.

**NURS 5312 Foundations for Advanced Practice Nursing Role (3:3:0,0)** This didactic course explores the Advanced Practice Registered Nurse (APRN) role, including the evolution of the role, current and continuing issues relevant to advanced practice nursing and clinical practice.

**NURS 5313 Leadership in Nursing Education I: The Role of the Nurse Educator (3:3:0,0)** The course focuses on the nurse educator role in multiple settings through the foundational components of learning principles, pedagogical approaches, scholarship and legal and ethical issues in education.

**NURS 5315 Leadership in Nursing Education II: Best Practices for Curriculum Development and Program Evaluation (3:3:0,0) (Prerequisite or concurrent enrollment: 5314) This course focuses on concepts and components of course development, implementation, evaluation, and revision in academic, continuing nursing education, or staff development settings will be emphasized as critical elements of the nurse educator role.

**NURS 5316 Leadership in Nursing Education III: Best Practices in Assessment and Measurement (3:3:0,0) Pre-requisites: NURS 5314 & NURS 5315) This course focuses on the concepts of systematic assessment, test blueprint development, critical thinking test item development, NCLEX-RN exam, interpreting test results, and grading plan development in academic, continuing nursing education, or professional development settings as critical elements of the nurse educator role.

**NURS 5317 Comprehensive Clinical Care (3:3:0,0) (Prerequisite: MSN student enrolled in the Nursing Education track) Utilizing knowledge and skills from the core curriculum, this course builds on the opportunity for the nurse educator to employ the skills of risk analysis, complex care planning with multiple disciplines, skillful use of technology for care coordination as well as efficient use of resources for quality patient care, staff and student development.

**NURS 5318 Simulation and Clinical Teaching (3:2:1.5,0) This course encompasses the use of simulation, clinical skills, and clinical teaching in nursing education, professional development, and continuing education. The course will cover the development of simulation activities, debriefing, and hands on experience conducting simulation exercises. Evidence and theoretical based methods of teaching in the simulation and clinical setting will be explored in this course.

**NURS 5319 Foundations for Care of the Sick Child (3:3:0,0) Prerequisite: NURS 5309. This didactic course focuses on the care of the sick child across the pediatric age spectrum. Necessary content expands primary health care, health promotion, and disease prevention, for assessment and management of common problems. The APRN role emphasizes the family-centered and development perspective.

**NURS 5320 Diagnostic Methods for the Advanced Practice Nursing Role (3:3:0,0) This course focuses on clinical diagnostic reasoning and procedural skills for the Advanced Practice Registered Nurse (APRN). Students will use evidence-based research to appropriately gather, differentiate and manage clinical data for various health problems across the lifespan. Requires an on-campus skills lab.

**NURS 5324 Population Health: Essentials for Advanced Nursing Practice (3:3:0,0) This course addresses the theoretical basis for population and environmental health, the principles of epidemiology, models/frameworks of health and health management systems and major population health concepts foundational to advanced nursing practice.

**NURS 5328 Public Health Informatics (3:2:3,0) Public Health Informatics as an area of expertise was recently identified as a high priority for workforce and competency development, mainly due to rising challenges with infectious diseases globally. This course will develop students’ understanding of public health informatics, the role of the public health informatics professional in public health, and health systems. Students will gain a solid foundation in public health data standards, data analytics for public health, community health assessment methods, and interoperability and health information exchange challenges.

**NURS 5332 Informatics II: Health Information Management and Knowledge (3:2:3,0) This course establishes the major concepts with foundational emphasis on understanding nomenclature and vocabularies. Students will understand data transformation, beginning with raw sources and generating information, knowledge, and wisdom. This will be a practically oriented course with opportunity for hands on data analysis using healthcare data from the clinical setting, work with clinical decision support and analytic toolsets, and EHRs.
Standards for Excellence

Topics in the law and impinging

Fundamental quality

Students will utilize assessment data and evidence-based decision making skills necessary for the provision of safe and effective primary health care in the nurse practitioner role.

NURS 5333 Informatics III: Information Technology (3:2:1:O) This course addresses the nursing informaticist’s role in computer science and in supporting hardware, software, communication, and network technologies. Human-computer interaction and related concepts are addressed. Practical hands-on experiences in programming and managing technical aspects of the healthcare information technology (HIT) support systems will reinforce the nursing informaticist’s role in bridging technology and clinical gaps in communication.

NURS 5334 Informatics IV: Health Information Technology Life Cycle (3:2:3:O) (Prerequisite MSN student enrolled in the Nursing Administration or Nursing Informatics Specialty Track or Corequisites: NURS 5321, 5333) This course emphasizes the role of the nursing informaticist in system development life cycle (SDLC), mastering skills necessary for the role in all phases of the development life cycle of health information technology. The SDLC concepts covered include system planning, analysis, implementation, and testing. Competencies related to project management, system selection and deployment, as well as developing and deploying system requirements documentation, RFIs and RFPs will be covered.

NURS 5335 Informatics V: Managing and Leading in Informatics (3:2:3,O) (Pre or Corequisites: NURS 5333, 5334) This course will focus on the nursing informaticist’s leadership role in organizations, as well as local, state and national policy agendas addressing an evolving utilization of health information technology and health information exchange within the industry. Additionally, the course will cover business management concepts necessary for nursing informaticists within the healthcare setting further emphasizing project management, strategic planning, budget planning and business planning processes. Quality improvement methods will be emphasized to enhance information systems through leading teams to achieve quality.

NURS 5336 Project Management for Health Information Technology (3:3:0:O) Project management is fundamental to the role of the nursing informaticist. This course will develop the students understanding of what a project is, and the role of the project manager, while building a solid foundation of the project management essentials. The student will gain a solid foundation in project management and a complete understanding of the multiple aspects of managing health information technology (IT) projects. The course will emphasize the role technology project manager, types of projects and organizations, stages of a project, terminology, and the process and interactive skills expected of a good project manager. There will be emphasis on the Systems Development Life Cycle framework and building competencies explicit to monitoring, tracking and managing a health IT project.

NURS 5339 Pharmacology for Women’s Health (3:3:0:O) This course focuses on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics in the care for women across the lifespan and their newborns. Using an evidence-based approach, learners will develop rational, ethical decision-making skills for managing pharmacologic therapies.

NURS 5342 Advanced Health Assessment (3:3:0:O) Building upon basic physical assessment and history taking knowledge and skills, this course focuses on advanced practice nursing concepts in assessment, evidence-based health promotion and clinical reasoning processes. Requires on-campus OSCE.

NURS 5343 Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0:O) This graduate course focuses on application of pharmacokinetic and pharmacodynamic principles to medication regimens for patients, male and female, across the life span. Students will utilize assessment data and evidence-based protocols to guide safe prescriptive decision-making in a master's prepared nursing role.

NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0:O) Study of the physiologic basis of disease for advanced practice nursing. Emphasis is on application of pathophysiologic concepts to the recognition of pathologic conditions and the management of clients with a variety of health problems across the life span.

NURS 5346 The Nursing Administrator: Standards for Excellence (3:2:5:2,O) This course provides an overview of the current, major forces driving nursing services toward quality and nursing administrators toward competence. The focus is to develop an appreciation for the numerous quality initiatives that influence how nursing leaders lead their areas of accountability toward better patient care.

NURS 5351 Scientific Foundations of Advanced Nursing Practice (3:3:0:O) This course focuses on developing an understanding of research and evidence-based processes as a foundation for using evidence to support advanced nursing practice. Research critique relevant to advanced practice nursing including qualitative and quantitative approaches are applied to clinical practice problems. Examination of instrument design and evaluation is highlighted. Advanced skills for the systematic evaluation of evidence for advanced nursing practice are developed and refined. Practice problems form the basis for examining evidence application in nursing.

NURS 5352 Leadership for Healthcare (3:3:0:O) This course engages the student in an examination of leadership concepts and theories, with an emphasis on skills that are critical to understanding the role of the leader in political advocacy and impacting health care systems and policies. Key issues will be presented within the framework of health care delivery systems, organizations, and evaluation of the impact on health. Special emphasis will be placed on the role of advanced practice nursing and its impact on policy for all, and in particular vulnerable populations. Principles of leadership will provide the foundation for integrating concepts of systems thinking, ethical and critical decision-making, communication, collaboration, negotiation, change facilitation, transparency, political advocacy and economics in the advanced practice nursing role.

NURS 5353 Informatics, Quality and Safety (3:3:0:O) This course prepares the student with foundational informatics and quality improvement skills. Students are engaged in the use of patient care, communication and other technologies to deliver, improve and coordinate care. Fundamental quality improvement methods to monitor, analyze, and prioritize outcomes using techniques such as: root cause analysis, failure mode effect analysis, workflow redesign, and control charts are introduced. Students gain knowledge and skills in evidence-based practice, human factors science and basic safety design principles relevant to optimizing technology for safe and effective care, while fostering a culture of safety within high reliability organizations.

NURS 5385 Health Law Survey for the Nurse Executive (3:3:0:O) (Pre-Requisite: MSN student enrolled in Nursing Administration specialty track) Students will explore legal issues and government regulations impacting the health care arena and the delivery of care. Topics in the law and imposing ethical issues are explored using court cases and clinical case studies.

NURS 5386 Finance and Budgeting for Nurse Leaders (3:3:0:O) (Prerequisite: MSN student enrolled in the Nursing Administration or Nursing Informatics Specialty track) This course is designed to provide graduate students with information and skills for developing budgets and managing financial issues in health care facilities, clinics, independent practice or a nursing unit.

NURS 5402 BSN-DNP Psychoterapeutic Modalities with Individuals, Families and Groups across the Lifespan (4:4:0:O) This course introduces students to the theory and practice of psychotherapeutic modalities as interventions in promoting mental health with individuals, couples, families and groups. The selection of evidence-based psychotherapeutic modalities and cultural considerations will be addressed to provide value-based, person-centered care. Prerequisites: Admission to PMHNP Program.

NURS 5410 Essentials of Acute Care (4:4:0,O) This course is designed to introduce theoretical and research-based knowledge of assessment, diagnosis, and treatment of adult and geriatric patients with acute and chronic health problems by the Adult-Gerontology Acute Care Nurse Practitioner (AGACNP). Emphasis will be placed on the role and scope of practice of the AGACNP in caring for acutely, chronically, and complexly ill male and female patients across the adult-geriatric continuum. Students will develop entry level competency in procedural skill and paradigms of discovery specific to adult gerontology acute care practice. Management of the chronic and acutely ill patient will include acquiring knowledge related to health promotion and disease prevention.

NURS 5440 Primary Care I (4:4:2:O) (Prerequisites: NURS 5312, 5320, 5342, 5343, 5345, ACLS certification) This is a didactic and clinical course that builds upon concepts and skills derived from prerequisite courses. Advanced practice nursing (APRN) students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, treatment, and evaluation of patients with acute and chronic health problems across the lifespan. This course is an advanced practice collaborative health care model course focused on the provision of effective primary health care in the nurse practitioner role.
The focus on this course is to formulate diagnoses, develop family centerd treatment and the student will... The student is guided in the development of a professional resume' and writes an "Entry Into Practice" consultation, or referral necessary for the provision of safe and effective care.

NURS 5500 Pediatric Acute Care I (5:2:3,0) (Prerequisites: NURS 5200, NURS 5309, NURS 5312, NURS 5320, NURS 5342, NURS 5343, NURS 5345) This course focuses on care of children with acute, complex acute, and chronic, illness across the entire pediatric age spectrum, from birth to young adult. Students will develop advanced practice skills in comprehensive assessment, diagnosis, and management strategies that reflect current evidence based practice. Students will have opportunities to implement the role of the acute care pediatric nurse practitioner across the continuum of care settings.

NURS 5501 Primary Care II (5:2:3,0) (Prerequisite: NURS 5440, ACLS certification) This course is didactic and clinical course that builds upon the study of advanced practice nursing (APRN) concepts and skills derived in Primary Care I (NURS 5440). APRN students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, management, and evaluation of patients with acute and chronic health problems across the lifespan. The course focuses on APRN role development and synthesis of data from a variety of sources to make clinical decisions regarding appropriate management, consultation, or referral necessary for the provision of safe and effective care.

NURS 5561 Adult-Gerontology Acute Care II (5:2:0,0) (Prerequisite: NURS 5460) This course is designed to build on major components critical to the knowledge of the acute care, diagnosis, and evaluation of adult and geriatric patients with acute and chronic health problems. Clinical experiences include a spectrum of care ranging from disease prevention to acute and critical care management. Clinical practice focuses on research-based clinical decision-making process in close collaboration with preceptors.

NURS 5560 Pediatric Acute Care II (6:2:4,0) (Prerequisite: NURS 5500 and PALS certification) This course emphasizes the role of the Acute Care Pediatric Nurse Practitioner (PC-PNP) in managing acute and chronic health conditions across the entire pediatric age spectrum from birth to young adult. The student will assimilate and apply knowledge from prerequisite courses. The focus on this course is to formulate diagnoses, develop family centered treatment and evaluation plans and use evidence to provide expert pediatric care.

NURS 5560 Pediatric Acute Care II (6:2:4,0) (Prerequisite: NURS 5500 and PALS certification) This course emphasizes the role of the Acute Care Pediatric Nurse Practitioner (PC-PNP) in managing acute and chronic health conditions across the entire pediatric age spectrum from birth to young adult. The student will assimilate and apply knowledge from prerequisite courses. The focus on this course is to formulate diagnoses, develop family centered treatment and evaluation plans and use evidence to provide expert pediatric care.

NURS 5600 Pediatric Acute Care II (6:2:4,0) (Prerequisite: NURS 5500 and PALS certification) This course emphasizes the role of the Acute Care Pediatric Nurse Practitioner (PC-PNP) in managing acute and chronic health conditions across the entire pediatric age spectrum from birth to young adult. The student will assimilate and apply knowledge from prerequisite courses. The focus on this course is to formulate diagnoses, develop family centered treatment and evaluation plans and use evidence to provide expert pediatric care.

NURS 5600 Evidence-Based Management: Children: Adolescents with Mental Health Disorders (6:3:3,0) (Pre-requisites: NURS 5207, 5204, 5327. Pre or co-requisites: NURS 5202) This course provides the essential knowledge and theoretical foundations for assessing, diagnosing, and managing adult and geriatric clients who have dysfunctional coping patterns and psychiatric disorders. This course provides an integrated learning experience during which the student implements the role of the psychiatric-mental health nurse practitioner in the clinical setting utilizing current evidence-based practice guidelines along with targeted, individualized care management. Emphasis is given to mental health promotion and collaboration with the child and adolescent, their support system and the interprofessional team. (157.5 clinical hours)

NURS 6001 Graduation Station (0:0:0,0) Prerequisites: Student must be in their last semester of enrollment prior to graduation. Students are required to enroll in this course in the semester in which they are scheduled to graduate. The course serves as the vehicle for students to pay their graduation fee and complete the School of Nursing's Graduation Assignment. There is no tuition charged for this course, the student does not generate semester credit hours for the course, and the course is not graded.

NURS 6030 Leadership in Education IV: Role and Practicum (3:5:7,5,0) (Prerequisite: NURS 5313, 5315, 5316) Immersion in all leadership aspects of the faculty role in an academic, CE, or staff development setting with guidance of a preceptor.

NURS 6102 Transition to Nurse-Midwifery Practice (1:1:0,0) Prerequisite: NURS 6520. This course prepares the student for practice as a master's prepared certified nurse-midwife. All ACNM standard-setting documents are reviewed, as well as the legal basis of practice, current legislation, policies, and processes for entry into practice. The student is guided in the development of a professional resume’ and writes an “Entry Into Practice” paper in preparation for seeking or formalizing one’s first nurse-midwifery position.

NURS 6110 DNP I: Project Identification (1:5:5,0) DNP I Project Identification is the first course in a four course series that prepares students to conduct a final project in a focused area of practice inquiry. This course builds on the foundation laid in prerequisite coursework for students to identify their phenomenon of interest including key theories and concepts associated with their inquiry and development of a comprehensive literature review strategy.

School of Nursing 2022 - 2023 Page 134 / 157
The student will have the opportunity to engage in collaboration with other students. Statistical tests covered in the course will range from simple T-test through multiple regression with an introduction to statistical modeling. Fundamentals of biostatistics and quality improvement measurement methods will also be provided with application of use in hands on exercises.

NURS 6200 DNP Role Transition I (2:2:0:0) Prerequisites: DNP student status. The course is designed to provide students with the philosophy, background, and issues related to developing the DNP degree and range of roles. Students will have the opportunity to engage in a self-assessment of leadership strengths and emotional intelligence. Students will also develop a conceptual framework for the DNP role and action plans for self-knowing and reflective leadership, essential attributes of transformational leaders in complex health care systems.

NURS 6201 DNP Role Transition II (2:2:0:0) Prerequisites: N6200, N6310, N6320, N6325, N6330, N6340, N6345, N6344. In this course, students continue their transition to advanced nursing practice as DNP prepared leaders by integrating their conceptual framework and action plan for self-knowing and reflective leadership. By advancing their DNP Project, students continue to develop the competencies required for DNP-level practice and scholarship, which are essential for leading change to improve the health of populations.

NURS 6207 BSN-DNP: Diagnostics and Management of the Lifespan (2:2:0:0) Prerequisites: 5345, 5343, 5342. This course provides the foundation for advanced comprehensive mental health assessment, differential diagnosis and management of clients across the lifespan. Culturally sensitive approaches in the development of a therapeutic alliance are emphasized. The role of laboratory diagnostics and neuroimaging in mental health conditions will be critically analyzed.

NURS 6243 Advanced Pharmacologic Management for Primary Care (2:2:0:0) This course focuses on differentiating pharmacological treatment options for selected disease processes in primary care. Building on previous knowledge of pharmacodynamics and pharmacokinetics, students adapt evidence-based research to the individuals’ unique characteristics to guide pharmacotherapy across the lifespan.

NURS 6244 Advanced Practice Development (2:1:6:0) This course prepares the DNP student to gain a deeper understanding of emerging knowledge and issues in a distinct specialty area related to the Capstone Project topic. The student will have the opportunity to engage in collaboration with other experts and specialists in the topic area and to develop advanced reasoning skills. Students will determine with faculty guidance specific goals for individualized advanced practice experiences.

NURS 6304 Foundations for the Doctor of Nursing Practice APRN Role (3:3:0:0) This didactic course explores the Advanced Practice Registered Nurse (APRN) role, including the evolution of the APRN and DNP roles, current and continuing issues relevant to advanced practice nursing and clinical practice. Leadership and professional competencies are also explored.

NURS 6305 Scientific Foundation for the Practice Scholar (3:3:0:0) In this course, students examine the scientific and philosophical foundations of the discipline of nursing within the context of advanced nursing practice. Students develop skills in critical appraisal of studies grounded in research and quality improvement perspectives. Examination of the ethical conduct of research and quality improvement forms the foundation for students to develop skills in clinical inquiry and scholarship.

NURS 6310 Practical Application of Statistics in Health Care (3:3:0:0) Prerequisites: Doctor of Nursing Practice program student. The course will provide the basics of statistical analysis, measurement theory and data management. The course will focus on the application of statistics to health services research and to clinical healthcare settings. The student will have hands-on experience using SPSS statistical software in computer labs with data preparation, statistical analysis, and data display. Statistical tests covered in the course will range from simple T-test through multiple regression with an introduction to statistical modeling. Fundamentals of biostatistics and quality improvement measurement methods will also be provided with application of use in hands on exercises.

NURS 6318 Mental Health in Primary Care (3:3:0:0) Prerequisites: Family Nurse Practitioner program student. This didactic course addresses the Advanced Practice Registered Nurse (APRN) role in the primary care setting in exploring the initial assessment and management of individuals, families and groups at risk for and experiencing psychiatric disorders. Theoretical and evidence based knowledge of assessment, diagnosis, and management of individuals and families at risk for and experiencing psychiatric acute and chronic psychiatric disorders are explored. The use of critical thinking, communication and decision-making skills necessary for provision of safe and effective primary mental health care across the lifespan within the family nurse practitioner role will be explored.

NURS 6320 Systems Leadership for Effectiveness, Quality and Safety (3:3:1.5:0) (Prerequisite: Doctorate of Nursing Practice student) The course will explore the scientific underpinnings of leadership, organizational effectiveness and quality improvement. Students will be provided with strategies and tools for transformational leadership and systems thinking in complex adaptive systems including effective communication, process analysis, measuring and tracking quality and safety data, and facilitating change to improve health outcomes.

NURS 6321 Nurse-Midwifery IV: Intrapartum Care (3:3:0:0) Prerequisites: NURS 5270, EFM certification. In this course, the student studies, analyzes, and applies the concepts of the midwifery management process to the intrapartum and immediate postpartum care of women. Using scientific fundamentals and the Hallmarks of Midwifery, the student examines labor triage, assessment and evaluation of maternal and fetal status, facilitation of physiologic labor progress, psychosocial support, pharmacologic and non-pharmacologic therapies, and birth attendance. Extra attention is placed on the pharmacotherapeutics surrounding the prescribing of opioids. In addition, the immediate management of postpartum healing and discomforts, as well as facilitation of lactation is studied. Management of emergencies and deviations from normal are also introduced. The health policy and fiscal implications associated with care management are interwoven throughout the course. Clinical skills will be introduced in simulated experiences.

NURS 6325 Informatics & Technology to Improve Health Care (3:3:1.5:0) Prerequisites: DNP program student. The course will explore health care informatics and apply quality improvement methods to optimize health information technology for improving efficiency, patient safety, quality and the health of the population. Students will appraise information technology and research methods to collect appropriate and accurate data to generate evidence for practice and to inform and guide the design of databases and systems that generate meaningful information for patient care and contribute to industry standards. The role of the DNP is emphasized and students gain advanced skills in applying quality improvement science to optimize technology for safe and effective care, while fostering a culture of safety within high reliability organizations. Regulatory requirements and policies that influence the US healthcare system provide the foundation for analysis of the importance of the healthcare information technology infrastructure. Students explore the critical role of DNP-prepared nurses as members and leaders of Interprofessional teams to transform the healthcare delivery systems with strategies to effectively and efficiently deploy healthcare information technologies. Students examine common challenges with health IT, design strategies to improve care, measure the effectiveness, as well as examine new and emerging point of care technologies (e.g. nanotechnology, genomics, mobile, telehealth).

NURS 6326 Rural Health and Telehealth Service Delivery (3:3:0:0) This course facilitates dialogue and collaboration among health science students in addressing patient management issues in rural and medically underserved health care settings. The course provides the foundation for establishing telehealth services to improve access to care through exploration of health care barriers and benefits. The student will understand the role and integration of technology in patient care and evaluation of outcomes.

NURS 6330 Evidence-Based Inquiry (3:3:0:0) Prerequisites: Doctor of Nursing Practice program student. In this course, students develop competence in scholarly inquiry and appraisal and synthesis of research and other evidence as the foundation for leading sustainable change that improves the health of...
This course includes opportunities to advocate and participate in political and policy-making processes for a health issue in the student’s area of interest and career trajectory.

NURS 6343 Advanced Pharmacologic Management for Primary Care (3:3:0,0) This course focuses on differentiating pharmacological treatment options for selected disease processes in primary care. Building on previous knowledge of pharmacodynamics and pharmacokinetics, students adapt evidence-based research and practice guidelines to the individuals’ unique characteristics to guide pharmacotherapy across the lifespan.

NURS 6345 Population Health and Epidemiology (3:3:0,0) (Prerequisite: Doctorate of Nursing Practice student) This course provides a comprehensive investigation into the application of public health and epidemiology principles. Emphasis will be placed on using technologically advanced clinical information systems that aggregate patient data so that group and/or population-based clinical profiles, practice patterns and variations, genetic problems, and health disparities can be identified, analyzed, and compared at a regional and national level.

NURS 6350 Financial Intelligence for the DNP Leader (3:3:0,0) (Prerequisite: Doctorate of Nursing Practice student) The course is designed to increase the nurse leaders understanding of health care economics and financing mechanisms as well as to advance skills in managing financial issues, departmental budgeting, and financial planning. Additional skills learning and strategies will be used to address financial challenges and opportunities in the management of health systems.

NURS 6353 Financial Intelligence for the APRN DNP Leader (3:3:0,0) The course will explore the financial and business aspects of health care practice related to the delivery of services by DNP APRNs. Students will examine the supply and demand of healthcare economics, implications for access, cost of care, and quality of outcomes. This will include the structure and flow of healthcare billing, coverage through public mechanisms (Medicare and Medicaid), private insurance, and regulations pertaining to coding/billing. DNP APRNs will appraise and evaluate the financial implications of healthcare delivery, develop entrepreneurship skills, and understand strategies influencing optimal patient outcomes. Prerequisite: Bachelor of Nursing (BSN) or Doctorate of Nursing Practice (DNP) student.

NURS 6410 Application of Administrative Practice (4:1:12,0) (Prerequisites: Successful completion of the administrative course sequence; authorization from a clinical agency willing to support the practice experience) This course provides learners with the opportunity to implement ideas into a practice setting. It is designed to allow learners to use ideas from the literature, their peers, conferences and other approved sources to create an application project designed to change practice from a clinical or administrative perspective.

NURS 6439 Primary Health Care I (BSN-DNP) (4:2:2,0) Prerequisite(s): NURS 5312, NURS 5320, NURS 5342, NURS 5343, NURS 5345; ACLS must be current. This is a didactic and clinical course that builds upon concepts and skills derived from prerequisite courses. Advanced practice nursing (APRN) students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, treatment, and evaluation of patients with acute and chronic health problems across the lifespan. The focus is on development of clinical reasoning and decision making skills necessary for the provision of safe and effective primary health care in the APRN role.

NURS 6440 Informatics VII: Practicum (4:1:9,0) (Pre or Corequisites: NURS 5334, 5335) This practicum experience is designed to be a comprehensive and integrated application of the curriculum which will allow the students to demonstrate professional competency in nursing informatics in a clinical health information technology specialty area of interest. The clinical field experience will be focused on a Capstone major project deliverable involving practice oriented research, quality improvement, clinical decision support, analytics, programming or other major project in specialty area of interest approved by faculty.

NURS 6500 Interprofessional Collaboration in Mgmt of Complex Psychiatric Patients Across the Lifespan (5:2:3,0) Prerequisites: NURS 5603 & 5604, Pre or Co-requisite: NURS 5501. This capstone course focuses on interprofessional collaboration in the management of clients with complex and comorbid mental health disorders including crisis interventions and stabilization. Additionally, the prevention and management of co-occurring chronic health conditions such as diabetes, heart disease and COPD will be addressed in optimizing the client’s overall health. 157.5 clinical hours

NURS 6520 Nurse-Midwifery Integrated Clinical Practicum, Level B (5:6:17.5,5) Prerequisite: NURS 6321, EFM, NRP. In this precepted clinical course, the student applies the cognitive and clinical knowledge learned in N-M I, with the major focus on care of the childbearing woman. In the second half of the semester, the student will begin applying N-M V (neonatal) knowledge as well. In addition to “hands-on” skills, the student will apply skills of professional communication through documentation and verbal reporting exercises, as well as an illustrative case study paper. The student will also participate in monthly virtual faculty/student clinical rounds and professional service/community activities. Expanding on the previous level A practicum, the student will gain proficiency in the use of relevant mobile apps and websites for clinical practice, as well as developing evaluation expertise related to labor progress, labor supporting techniques, making sound financial decisions, and managing earning and an objective simulated/structured clinical examination (OSCE) will be conducted during this course. Although semester clinical hours equate to 262.5 hours, you are evaluated on practice competency. Achieving competency may require more than the listed number of hours.

NURS 6541 Primary Health Care II (BSN-DNP) (5:2:3,0) Prerequisites: NURS 6439; ACLS must be current. This is a didactic and clinical course that builds upon the study of advanced practice nursing (APRN) concepts and skills derived in Primary Care I. APRN students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, management, and evaluation of patients across the lifespan. This course focuses on APRN role attainment, reflecting challenges, barriers, and strategies for successful role implementation.

NURS 6603 Diagnostics and Management II: Evidenced-based Management of Adults with Mental Health Disorders (6:3:3,0) This course provides the essential knowledge and theoretical foundations for assessing, diagnosing, and managing adult and geriatric patients with disorders such as depression, anxiety, and psychotic disorders. This course provides an integrated learning experience for the student to implement the role of the psychiatric-mental health nurse practitioner in the clinical setting utilizing current evidence-based practice guidelines along with targeted, individualized care. Management. Emphasis is given to mental health promotion and collaboration with clients, their support systems and the interprofessional team.

NURS 6604 Diagnostics and Management III: Evidenced-based Management of Children and Adolescents with Mental Health Disorders (6:3:3,0) This course provides the essential knowledge and theoretical foundations for assessing, diagnosing, and intervening in dysfunctional coping patterns and psychotic disorders in children and adolescents. This course provides an integrated learning experience during which the student implements the role of the psychiatric-mental health nurse practitioner in the clinical setting utilizing current evidence-based practice guidelines along with targeted, individualized care. Management. Emphasis is given to mental health promotion and collaboration with clients, their support systems and the interprofessional team.

NURS 6610 Nurse-Midwifery Clinical Immersion Practicum (6:0:21,0) Prerequisite: NURS 5471 and NURS 6520. In this precepted clinical course, the student synthesizes previously learned theory and clinical knowledge, providing comprehensive, full scope basic nurse-midwifery care according to the ACNM Standards of Practice and Code of Ethics. In addition to “hands-on” skills, professional presentations and peer review of selected activities will be conducted. Review activities to prepare the student for national certification board examination will also be offered. An objective simulated/structured clinical examination (OSCE) and proctored “Mock Board” comprehensive exam will be administered during this course. Although semester clinical hours equate to 315 hours, you are evaluated on practice competency. Achieving competency may require more than the listed number of hours.

NURS 6652 Adult-Gerontology Acute Care Practicum (6:1:5,0) (Prerequisite: NURS 5561, 5460) This course emphasizes clinical practice and role...
development to prepare the graduate to implement the full scope of the Adult-Gerontology Acute Care NP role. Clinical activities allow for immersion in the practice role. Function and responsibility on selected topics of the advanced practice role are addressed.

NURS 6680 Family Nurse Practitioner Practicum (6:1:5,O) (Prerequisites: NURS 5440, 5541, ACLS must be current) This course provides a clinical immersion experience to integrate and synthesize the APRN role. APRN students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, management, and evaluation of patients with increasingly complex acute and chronic health problems across the lifespan. Issues related to APRN responsibilities and competencies are addressed.

NURS 6680 Pediatric Nursing Practicum (6:1:5,O) (Prerequisites: NURS 5312, NURS 5320, NURS 5342, NURS 5343, NURS 5345, NURS 5581) This course provides a clinical immersion experience to integrate and synthesize the Advanced Practice Registered Nurse (APRN) role for the Primary Care Pediatric Nurse Practitioner (PC-PNP). Issues related to APRN responsibilities, competencies and scope of practice for the PC-PNP are included.

NURS 6690 Pediatric Acute Care III (6:1:5,O) (Prerequisites: NURS 5600 and PALS certification) This course provides a clinical immersion experience to integrate and synthesize the Advanced Practice Registered Nurse (APRN) role for the Acute Care Pediatric Nurse Practitioner (PNP-AC). Issues related to APRN responsibilities, competencies, and scope of practice for the PNP-AC are included.

NURS 7110 DNP III: Project Implementation (1:5:5,O) DNP Project Implementation is the third course in a four course series that prepares the student to conduct a scholarly DNP project in an area of practice inquiry for improving health outcomes. During this course, the DNP project will be implemented. Pre-requisite: DNP II: Project Planning and Development

NURS 7111 DNP IV: Project Evaluation and Dissemination (1:5:5,O) DNP Project IV Evaluation and Dissemination is the fourth and final component of the DNP project culminating in the evaluation of project outcomes and a podium presentation to faculty and peers. Additionally the student will select one state, national or international conference for abstract submission for a poster or podium presentation and one journal for manuscript publication. Pre-requisite: DNP III Project Implementation

NURS 7299 The DNP Role in Complex Care (2:2:0,O) This seminar course facilitates dialogue and collaborations among BSN to DNP nurse practitioner students in addressing management issues in complex patients from the micro-system through macro-system levels. Students will present complex patients from practice and facilitate an analysis of health care barriers and gaps including policies, health systems, health care financing and legal and ethical issues that impact outcomes.

NURS 7310 Health Innovations in Chronic Illness (3:1:2,O) Prerequisites: Concurrent enrollment in or completion of core leadership courses and core evidence-based science courses. This course provides the opportunity for advanced exploration of theory, cultural influence, environmental exposures, and evidence-based research for the prevention, management and palliative care of chronic conditions. Students will apply and evaluate theories and principles of chronic illness for individuals, groups and populations in rural and/or urban settings.

NURS 7311 Leading Teams in Complex Health Care Environments (3:1:2,O) (Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses) Leading and managing interprofessional groups, as well as nursing groups, is a critical leadership skill. Numerous strategies exist to develop teams. This course focuses on knowing oneself as a leader, forecasting future needs, understanding the team, coaching others, balancing data driven decisions with innovation, and valuing the complexity of the evolving healthcare environment.

NURS 7321 Health Care Economics and Finance (3:3:0,O) (Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses) This course is designed to provide an in-depth look at the economics of U.S. health care and major issues that have prompted the current attempt at health care reform. Health care represents nearly fifteen percent of the U.S. Gross Domestic Product, and more importantly, has profound effect on almost all individuals. Resources in the health care industry are scarce and a source of conflict. This course will attempt to utilize many traditional tools of economics to illustrate how limited resources can be applied to the health care sector. Additionally, certain health care related topics pertaining to other industrialized and developed countries will be discussed. Students will be introduced to a variety of economic theories, models and tools that will facilitate the understanding of the breadth of subjects introduced during the semester.

NURS 7331 Population Health at the Organizational and Public Policy Level (3:2:5:4:5,O) Prerequisites: Concurrent enrollment in or completion of core leadership courses and core evidence-based courses. The course prepares nurse leaders in the DNP role with the skills to evaluate care delivery models and strategies related to community, environmental, occupational, cultural, and socioeconomic dimensions of health. Students will learn to access and analyze population-level health data, design evidence-based interventions at the organizational and public policy level and predict and analyze outcomes to improve population health.

NURS 7332 Evidence Based Inquiry II (3:3:0,O) (Prerequisite: NURS 6330) The course will build on Evidence Based Inquiry I, refining the student’s ability to evaluate and synthesize evidence for integration into clinical practice. Emphasis will be placed on translating the evidence into actual clinical or management practice as well as creating an environment for the integration of evidence based practice within an organization. Students will further develop their capstone project in this course.

NURS 7334 DNP Integrating Community Mental Health Concepts into Health Care Systems (3:3:1,O) Prerequisites: DNP student status. This course provides theoretical and clinical experience designed to improve the student’s ability to analyze and impact political, legal, and ethical issues inherent in the mental health care system today. Students will focus on recognition of mental health issues and care disparities encountered in the DNP role. Students will utilize a population-based approach to reduce stigma, promote advocacy, and identify and recommend changes needed to improve the overall quality of care, treatment and other services for at-risk communities.

NURS 7352 DNP Project Seminar & Practice Immersion (3:1:2,O) (Prerequisites: Completion of advanced APN or executive leadership specialization courses) This seminar designed course focuses on the culmination of a DNP scholarly project and integration of the competencies of a DNP leader. Students complete 144 hours of clinical/practice immersion and engage in advanced nursing practice experiences to (a) complete and disseminate a DNP Project, (b) translate evidenced-based change that improves population health; and, (c) achieve competence in the eight American Association of Colleges of Nursing (AACN) (2006) DNP Essentials.

NURS 7353 The FNP Role in Caring for Special Populations in Primary Care (3:2:1,O) This didactic and clinical course allows students to care for patients within a population of interest in the primary care realm. Students will present complex patients from practice and facilitate an analysis of health care barriers including policies, health care financing and legal and ethical issues that impact outcomes.

NURS 7450 DNP Advanced Practicum I (4:2:2,O) This course provides Doctor of Nursing Practice students the beginning of their final immersion experiences in their population focused area of clinical practice to move them from competent to proficient in the APRN role. Students will analyze systems to advance evidence-based principles, patient safety, inter-professional teamwork, and continuous learning.

NURS 7451 DNP Advanced Practicum II (4:1:3,O) This course provides Doctor of Nursing Practice students further clinical immersion, allowing them to continue to care for patients within a population focused area of clinical practice and to facilitate improvement of competencies in the APRN role. Students will incorporate leadership principles in collaborating with members of the healthcare team, applying a systems-based approach to clinical practice.

NURS 7452 DNP Advanced Practicum III (4:1:3,O) This course provides Doctor of Nursing Practice students with an immersion experience in population focused clinical practice, enabling them to further build competencies in direct patient care. This course facilitates dialogue and collaboration among APRN students and members of the healthcare team in addressing issues in complex patients from the microsystem through macrosystem levels.
NURS 7500 Diagnostics and Management IV: Interprofessional Collaboration in Management of Complex Psychiatric (5:2:3,O) This course focuses on interprofessional collaboration in the management of clients with complex and co-morbid mental health disorders across the lifespan including crisis interventions and stabilization. Additionally, the prevention and management of co-occurring chronic health conditions such as diabetes, heart disease and COPD will be addressed in optimizing the client's overall health.

NURS 7660 Family Nurse Practitioner Practicum BSN-DNP (6:1:5,O) Prerequisites: NURS 6439, NURS 6541, ACLS must be current. This course provides a clinical immersion experience to integrate and synthesize the APRN role. APRN students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, management, and evaluation of patients with increasingly complex acute and chronic health problems across the lifespan. Issues related to APRN responsibilities and competencies are addressed.
Rural Community Health and Global Health

Interprofessional Certificates

Purpose
The purpose for certificates is to meet the supplemental education needs of professionals. As jobs and job-related responsibilities change, a person often needs additional training in a specific area. A certificate program is a set of courses providing in-depth knowledge in a subject matter.

Overview

Certificate in Rural Community Health
The Interprofessional Certificate in Rural Community Health is designed for professionals practicing or planning to practice in rural counties. Upon completion of the Rural Community Health Certificate, graduates will have the necessary knowledge and skills to excel in a variety of settings in medically underserved areas around the world. This online interprofessional certificate in Rural Community Health is completed in 12 semester credit hours. A 67.5 hour clinical field experience in the principle area of interest is expected as part of the program requirements.

Certificate in Global Health
The Interprofessional Certificate in Global Health is designed for professionals practicing or planning to practice in developing countries. Upon completion of the Global Health Certificate, graduates will have the necessary knowledge and skills to excel in a variety of settings in medically underserved areas around the world. This online interprofessional certificate in Global Health is completed in 12 semester credit hours. A 67.5 hour clinical field experience in the principle area of interest is expected as part of the program requirements.

Interprofessional Certificate Application and Admission Information

<th>Application Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>September 1</td>
<td>August 1</td>
</tr>
</tbody>
</table>

Certificate Application Deadlines
Consideration for admission is given to applicants meeting all admission criteria who submitted all admission requirements by the application deadline as noted below.

Admission Requirements
All applicants must complete and submit an online application as directed on the Interprofessional Certificate website. All applicants must meet requirements listed below for admission consideration:

- Personal statement
Non-Academic Admission Considerations
- Ability to perform capably in positions of responsibility for self and others
- Extracurricular activities
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- First-generation college student
- English as a second language
- Prior enrollment at Texas Tech University
- Evidence of leadership in professional organizations, committees, etc.
- Military service
- Permanent resident of TTUHSC service area county

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission.

Additional Requirements for Prospective Students

Computer Requirements
See Computer Requirements under the Student Information section of this catalog.

Criminal Background Checks
See Criminal Background Check Requirements under the Eligibility Requirements section of this catalog.

Immunizations
See Immunization Requirements under the Eligibility Requirements section of this catalog.

Drug Screening
Drug screenings may be necessary if required by the clinical institution site. The cost of all drug screens are the responsibility of the student. See Drug Screening Requirements under the Eligibility Requirements section of this catalog.

### Rural Community Health and Global Health Course Descriptions

**NURS 5420 Foundations of World Health (4:4:0,O)** This course provides a conceptual and ethical foundation for rural community and global health practice. Students are introduced to the fundamental social, political, and economic determinants of health in rural communities and developing countries. A multi-professional approach to teaching the course concepts is employed.

**NURS 5421 Issues in World Health (4:4:0,O)** The course focuses on the rural/global burden of disease and the pattern of disease variations within and among communities/countries. The course explores management of disease and the empowerment of people within their communities to manage their health with limited resources. A multi-professional approach to teaching the course concepts is employed.

**NURS 5422 Practicum: Application of the World Health Concepts (4:3:1.5,H)** This course focuses on clinical application for improving health in rural/global health communities. Students will complete a project and clinical experience in an approved global/rural health setting under the supervision of the TTUHSC faculty member.
